Warner & Co.

THEY CAME

in crowds looking for the Bargains advertised in the

GREAT DISSOLUTION SALE AT

WARNER & CO'S

THE GREAT BANKRUPT STOCK MEN.

THEY CAME, THEY SAW, THEY BOUGHT.

Seeing was believing, and the best kind of evidence that we were doing as announced was shown by the unusually large number of customers we served and the unusually large sales we made.

ON SATURDAY LAST

our Immense Store was like a Bee-Hive from early morn till late at night. ON SATURDAY NIGHT our stock looked as if it had been struck by a Cyclone—and no wonder. Who in want of Ready-Made Clothing could resist buying a pair of our

CELEBRATED $1.00 PANTS,

worth double the money, or one of our

Tweed Suits at $2.75, worth $5.50

HOW THE DRESS GOODS DID FLY.

Is it any wonder, when we astonish customers with good, useful Dress Goods at 10, 12½ to 20c., or Fine French Henriettas, in twenty different shades, at 45c., which cannot be touched anywhere at less than 60c. See for yourself.

And what a Racket was made in the Gent's Furnishing Department.

Ties, Braces, Socks, Underwear, Shirts, etc. No one is surprised that we are always busy here when he sees the wonderfully Low Prices we are asking for good Goods.

REMEMBER WE KEEP NO TRASH.

Then in HATS and CAPS we are having a great rush All the leading Styles in Hard and Soft Felts, Knockabouts, etc., at one-third less than regular prices.

OUR MAMMOTH STAPLE DEPARTMENT

our prices are such that we only require to show the Goods and cut them off. We are noted far and wide for EXTRAORDINARY VALUES in

Shirtings, Tickings, Sheetings, Towels, Towellings, Cottons Tweeds, in fact all kinds of Staple Goods,

and which can always be bought at much below regular prices by coming direct to us. Inspect these Goods.

Lively Work in the Glove and Hosiery Department.

Right here everybody had to hustle to wait on all the customers. Gloves and Hose, Hose and Gloves, for FOUR HOURS straight on Saturday night. No one is at all surprised at this when they see our

3 Pairs for 25c. line, our 10c. Straight Hose, cheap at 15c.

Our Special "2 for a Quarter", worth 20c. a pair,

and better Goods equally Cheap. We are bound to do the Hosiery Trade, and have made preparations for doing it by scouring the products of the world—we may say—and securing some immense quantities at fabulously Low Prices.

We have a very large stock of

HEMP CARPETS, STAIR CARPETS, OIL CLOTHS AND LACE CURTAINS,

on which we are offering close cut prices.

OUR SALE STILL CONTINUES,

WE ARE LOADED WITH BARGAINS,

IF YOU HAVE NOT BEEN IN—COME,

IF YOU HAVE YOU ARE SURE TO COME AGAIN

We want your trade, and in return will give you the Biggest Bargains in all lines ever offered in good, clear, reliable Goods in this section of Ontario. Come early and get your choice.

SATURDAY, will proceed to Janetville for noon, thence to his home stand, where he will remain until the following Monday morning.

The above route will be continued during the season, health and weather permitting.

DESCRIPTION AND PEDIGREE.

MUCKLE WILKES, full brother of Bermont, 8494 Wallace's register, was bred by C F. Emery, Forest City Farm, Cleveland, Ohio. Foaled in 1887. Sired by Brown Wilkes(2040)2 21¾, in the fourth heat of a hotly contested race, and for which his owner refused a cash offer of $30,000; and sire of Bradolline, 2 year old record 2.30½; Bomena Wilkes, 2 42 at 2 years old; Bell Russell, 2 45 at 2 years old; Bianca, 2 37½ at 2 years old; Hattie Bell, 2.32½ 2 years old; Prairie Wilkes, 2 39½ 2 years old; Wintersett, 1.27½, etc. He by the Great George Wilkes, 2.22, and conceded to be the greatest trotting sire that ever lived, being campaigned till 18 years of age, and meeting and defeating the greatest horses of the day. Afterwards put in the stud for nine years, and during that time sired 68 trotters and pacers below 2 30—13 of them below 2 20. Fifty-four of his sons have sired 249 from 2 12 to 2 30, and five others in the 30 list; and sire of the great Emeline, the dam of six in the 30 list, and considered one of the greatest brood mares that ever lived; also the dam of Billy Rysdyk 2.27½; Jennie Irving, the dam of Brown Wilkes 2.21¾, and several other noted brood mares. Brown Wilkes' second dam was by Witherell Messenger, sire of Bell of Portland 2.26, in 1861, and the dams of Bell Strickland 2 26, Startle 2 26½, Charles R 2 27, Fleet-wood 2 29, Wallace 2 29½, Falmouth Bay 2 29½, and W H Taylor 2 29½.

Muckle Wilkes' dam, Flora Hill, was a very handsome mare—kept as a brood mare, and has trotted better than 2.40 without any training; sired by Dave Hill (858), trotted in 2.41½ with two weeks training, trials in 2.27½, and sire of Dave C 2 25, Barney Lee 2.25, Kinsman Boy 2 28¾, and other fast ones; also sire of the dams of Ned Winslow 2.15, Mary Low 2 21, etc. He by Dave Hill, by Vermont Black Hawk (5) 2.42, the champion of the Morgan family, and sire of the great Ethan Allan 2.15½ with running mate, holding the stallion record for eight years; also Young America 2 23, Lancelot 2.27½, Bell of Saratoga 2 29, and sire of 14 sons which produced 24 trotters, and sire of the dams of General Tweed 2.26½, and Tennessee 2.27, etc., and his grandams are breeding on with great uniformity. For example, Daniel Lambert, the sire of 32 in the 30 list, and others.

Muckle Wilkes' second dam was by Tuckahoe, the sire of Katie D 2.28, Sunnyside 2 30, and other fast ones. Sire also of the dams of Scott's Hiatoga 2 29½, who in turn sired 21 in the 30 list, and the dams of 16 in the 30 list—six of them under 2 20, and eight sons that have produced 26 performers; and Smuggler 2.15½, the greatest race horse of his or any other day—has a double cross of the Tuckahoe blood, and many other fast and game race horses. He was also sire of the second dam of the great Gold Leaf 2 11¾, and Shamrock 2 25. He by Herod's Tuckahoe, dam Vine by Parrott's Diomed son of Van Meter's Diomed, thoroughbred. It will, therefore, be seen that Muckle Wilkes is a richly bred horse, inheriting a line of intense trotting ancestry from both sire and dam that has given the American turf many of her greatest race horses which have carried them first to the wire while others have gone to the wall. Built upon such a foundation as Imported Diomed, a horse that many astute breeders look upon as the foundation of excellence in the trotter. The Wilkes or Hambletonian and Morgan combination is ultra fashionable today, as the following will show. It has given us such cracks as Nelson 2.10¾—the champion Stallion of the world, Bell Hamlin 2 11, Prince Wilkes 2 14¾, Rosalind Wilkes 2.14½, Axtell 2 13, McDoel 2.15½, Rarus 2.13, Jack 2 12, Famlico 2 16¾, and Robert McGregor's fastest Bonnie McGregor 2.16, is out of a Morgan mare, and many of America's greatest breeders are using Morgan mares to Wilkes stallions with wonderful results. Therefore, all things considered, Muckle Wilkes can hardly fail to be an impressive sire, as he combines breeding, individuality, and a pure frictionless, trotting action. He cannot fail to stamp these qualities on his offspring. His colts are four in number—are large and handsome, and pronounced by practical horsemen, to be the most promising colts for speed they have ever seen. (Would like breeders to see them.)

Muckle Wilkes is a dark bay, stands about 15¼ hands, and is considered one of the handsomest colts in Canada. He is stoutly built all over, a typical Wilkes, and I believe, if developed, would make a trotter and a race horse. His blood lines are Wilkes—a double cross of the great Clay blood, one through Dolly Spanker, the dam of Geo Wilkes his grand sire, and one through the dam of Brown Wilkes, his sire Morgan Tuckahoe and thoroughbred. Of the blood of Henry Clay I need hardly add that, on the dam's side it has done wonders in giving us the two greatest sires the world has ever seen, viz., Geo Wilkes and Electioneer, which are household words to every horseman and well known. The great California horseman, L. J. Rose, breeder of the famous stallion, Stamboul 2.11, that sold for $55,000, Alcazar 2.20¾, that sold for $25,000, and Sultan 2 24, their sire, and admitted to be one of the most successful breeders on the continent, says, "While I do not give all the credit to the Clay cross, yet I value it above all others. I have bought colts from many of the best sires and trained them, but have never met with anything like the success that I have done with the Clay and Hambletonian combination. They have more natural speed and train on easier, and with greater uniformity." Harry Comstock, another noted horseman, calls it "the great lubricating cross, giving that pure, frictionless gait, so necessary for fast work." I think I can safely predict for Muckle Wilkes a great future, when his stock are old enough to develop.

Limited to 40 approved mares.

TERMS.—To insure, $20, to be paid 1st of February, 1892. For the season, $15 00, payable 1st October, 1891. Accidents to mares at owner's risk.

N. B.—Owing to the prevailing depression and hard times the owners of MUCKLE WILKES have reduced the rates as above, which are just half the rates of any horse of equal merit in Canada.

Mares from a distance will be pastured on reasonable terms and carefully looked after, but will not be responsible for accidents.

SUDDEN DEATH.—Our villagers were shocked Monday morning to hear that Mr. Hy. Wood, our wagon maker, had died the previous night. Mr. Wood has been for years a sufferer from chronic asthma, but apparently otherwise enjoyed his health, and no one thought of his being taken away so suddenly. Last week he became a victim of la grippe, but though not working was around the house and in his garden up to Saturday. Sunday he was out of bed, and at 10.30 p.m. Dr. Ray, who resides with the family, went up to his room and Mr. Wood was in the best of spirits and chatted and laughed as he usually did, and about an hour later the doc or and Mr. Wood's son John were startled to hear Mrs Wood screaming for them to come, but when they reached the room they found Mr. Wood had fallen to the floor and was just breathing his last. He had sat up to try and get his breath during a coughing spell, and during that the heart had failed and death was instantaneous. Mr. Wood followed his trade for many years at Tyrone, in Darlington, and his health failing him he bought a farm a couple of miles from Cambray and worked on it and seemed to get quite strong again, and some seven or eight years ago moved to Cambray and followed his trade. He was esteemed by the entire community as one of our best natured and obliging citizens. Ever since he came amongst us he has been leader of the choir in the Methodist church, and for the last five years has been assistant superintendent of the Methodist Sabbath school, as well as teacher of the young ladies' bible class, by whom he was highly esteemed, they last Christmas making him a present of a fine Persian lamb cap. He was just sixty years of age. Mrs. Wood and family have the sympathy of the entire community.

A DESTRUCTIVE FIRE.—This village has been visited by the most destructive fire that ever occurred here. About 10.30 p. m., on Monday night, May 4th, the peaceful slumbers of the inhabitants were disturbed by the alarm of fire. The stable adjoining the store on the corner of Church and Sougog-sts., occupied by Mr. Wm. Cowan, general merchant, was seen to be in flames, and before aid arrived two horses were consumed. In spite of the effort of the fire brigade, which worked nobly, assisted by the villagers generally—men, women and children—the flames were not mastered till the stable, store and house occupied by Mr. Cowan, the dwelling and shop occupied by Mr. John Atkins, shoemaker, the double dwelling of Mr. William Taylor, occupied by Alexander Wannan, V.S., as dwelling and office; the residence of Mrs. Dr. Moore and family, and the carriage shop of Mr. James Holmes were burned. The latter was a large, high frame structure containing considerable lumber and other stock. Between this factory and Mr. Holmes's residence was a vacant lot about forty feet wide, and knowing that if the dwelling fell a victim to the flames no effort could prevent the fire from extending eastward to several other residences, the citizens procured a large number of quilts and blankets which they drenched with water and covered the entire building and windows and doors, which wise precaution saved the building and prevented further progress of the fire. Mr. Cowan's family had a very narrow escape, having to leave the burning building in their night clothes. The buildings were all insured, but the loss will be considerable, especially to Mrs. Thomas Swain, who owned the buildings occupied by Mr. Cowan; to Mr. Cowan on stock, Mr. Taylor, Mr. Holmes and Mrs. Moore.

OFFICE OF THE CANADIAN POST, LINDSAY, May 14, 1891.

Better Crop Prospects in Europe.

A London correspondent cables: During the past ten days there has been a most beneficial change in the harvest prospects of Europe. An unusually severe winter was for a long time succeeded by a chilly drought, so that grave fears were entertained of damaged spring crops everywhere; but latterly there has been a spell of warm, wet weather, which has altered everything for the better. France is still likely to be some thirty million hectoliters short in the year's yield, and such of the autumn-sown wheat as still stands is pretty nearly a complete failure, but the spring wheat has now begun to look very well. Much the same reports come from Germany and Russia, while here in England there is a promise of a more than average yield. Both in France and Germany recent high prices have had the effect of discovering considerably larger stores of old grain than had been supposed to exist, while it is reported here to-day that by some mysterious error in the board of trade returns last month England was represented to have a visible supply much less than what actually exists, while her imports for the period in wheat and flour were understated by 526,657 quarters.

Toronto Live Stock Market.

Last week's receipts at the western cattle market were 1,753 cattle, 57 sheep and lambs, 1,877 hogs. Tuesday the offerings were 36 loads, including about 50 sheep and lambs, 1,350 hogs and 100 calves.

Cattle—The market Tuesday, under heavy offerings for local sale and unfavorable reports of eastern markets, was somewhat weaker in tendency. Prices, however, were not quotably changed, but sales were rather slow were rather slow. Still the demand was about sufficient to clear everything up. The quality of the stuff on sale was only fair, and that had a good deal to do with the condition of the market. Butchers are always willing to pay good prices for well fatted beeves, but they can't always get their loads from Cambray and worked on it and seemed to get quite strong again, and some seven or eight years ago moved to Cambray and followed his trade. He was esteemed by the entire community as one of our best natured and obliging citizens. The latter was a large, high frame structure containing considerable lumber and other stock. Between this factory and Mr. Holmes's residence was a vacant lot about forty feet wide, and knowing that if the dwelling fell a victim to the flames no effort could prevent the fire from extending eastward to several other residences, the citizens procured a large number of quilts and blankets which they drenched with water and covered the entire building and windows and doors, which wise precaution saved the building and prevented further progress of the fire. Mr. Cowan's family had a very narrow escape, having to leave the burning building in their night clothes. The buildings were all insured, but the loss will be considerable, especially to Mrs. Thomas Swain, who owned the buildings occupied by Mr. Cowan; to Mr. Cowan on stock, Mr. Taylor, Mr. Holmes and Mrs. Moore.

CHEESE FACTORY.—Our factory will open on Monday next, 18th inst., and the Scotch Line factory on the 20th. Although the season so far has has been unfavorable for grass, cattle are doing very well, and Mr. Kevill expects to begin with an average supply of milk. Under the regulations adopted this year patrons are taking a deeper interest in the business, and a successful season must follow.

LITTLE BRITAIN.

PULPIT NOTES.—Messrs. Spence of Little Britain and Lloyd of Manilla exchanged pulpits on the 12th ult., and we also had the pleasure of listening to our tried friend, Mr. Bamforth of Oakwood circuit, on Sunday evening, the 19th.

BRING ALONG YOUR BOYS and get them rigged out in one of those nobby suits WELDON is showing for the spring trade. His stock of wall paper has been the wonder of the town for beauty and cheapness.—53-1.

COMMUNION SERVICE.—The last communion service of this conference year in connection with the Dalrymple Methodist mission was held in the Methodist church here on Sunday, the 3rd inst., and was well attended by the members from the different appointments....On the following Monday the official board also met here. A vote of thanks was heartily and unanimously passed by the board and tendered to the Rev. H. Fusee, their pastor, for the services which he has rendered the cause here during his three years of labor on this mission. With it were coupled expressions of regret at his removal, and assurances of their continued esteem for himself and family, and their best wishes for his continued success in the work of the ministry

Better Crop Prospects in Europe.

A London correspondent cables: During the past ten days there has been a most beneficial change in the harvest prospects of Europe. An unusually severe winter was for a long time succeeded by a chilly drought, so that grave fears were entertained of damaged spring crops everywhere; but latterly there has been a spell of warm, wet weather, which has altered everything for the better. France is still likely to be some thirty million hectoliters short in the year's yield, and such of the autumn-sown wheat as still stands is pretty nearly a complete failure, but the spring wheat has now begun to look very well. Much the same reports come from Germany and Russia, while here in England there is a promise of a more than average yield. Both in France and Germany recent high prices have had the effect of discovering considerably larger stores of old grain than had been supposed to exist, while it is reported here to-day that by some mysterious error in the board of trade returns last month England was represented to have a visible supply much less than what actually exists, while her imports for the period in wheat and flour were understated by 526,657 quarters.

Toronto Live Stock Market.

Last week's receipts at the western cattle market were 1,753 cattle, 57 sheep and lambs, 1,877 hogs. Tuesday the offerings were 36 loads, including about 50 sheep and lambs, 1,350 hogs and 100 calves.

Cattle—The market Tuesday, under heavy offerings for local sale and unfavorable reports of eastern markets, was somewhat weaker in tendency. Prices, however, were not quotably changed, but sales were rather slow were rather slow. Still the demand was about sufficient to clear everything up. The quality of the stuff on sale was only fair, and that had a good deal to do with the condition of the market. Butchers are always willing to pay good prices for well fatted beeves, but they can't always get their loads from Cambray and worked on it and seemed to get quite strong again, and some seven or eight years ago moved to Cambray and followed his trade. He was esteemed by the entire community as one of our best natured and obliging citizens. Ever since he came amongst us he has been leader of the choir in the Methodist church, and for the last five years has been assistant superintendent of the Methodist Sabbath school, as well as teacher of the young ladies' bible class, by whom he was highly esteemed, they last Christmas making him a present of a fine Persian lamb cap. He was just sixty years of age. Mrs. Wood and family have the sympathy of the entire community.

NOTES—Our cheese factory opens on the 18th inst.....Fenelon court of revision on June 3rd.

SALE.—The postponed bailiff's sale of butchers outfit takes place on Saturday, May 16th, at Brunker's hotel, Oakwood, at two o'clock, p.m., sure.

CHRISTIAN ENDEAVOR.—It is only necessary to mention that the Christian Endeavor Society, in connection with the Methodist church here, holds an anniversary on the 25th of May. A pleasing program, including addresses, music, a tea, etc., etc., will be given, all of a high order. Do not forget it.

RECOVERING.—Mrs. Gorrill, East Oakwood, now in Toronto hospital, bids fair to recover from latest reports....Mrs. Thomas Bowes, sr., is recovering from a severe illness.

SALE POSTPONED.—The bailiff's sale of butchers' outfit for Saturday, 9th inst., has been postponed till the 16th inst.

THE LINDSAY COLLEGIATE.—The boys and girls from this vicinity, among others Johnny Butler, A. McKinnon, W. McKinnon, Carrie Moore and Minnie Graham, say they are making good progress attending the Lindsay collegiate institute, although they still think the Oakwood high school was par excellence the place above all others.

PERSONAL.—The young and promising preacher from Knox college who has been supplying the Presbyterian work here for Rev. Mr. Wilson for some time, has gone again to Toronto. Mr. McIntosh promises to be a talented and useful worker.

BLACKSTOCK.

A DESTRUCTIVE FIRE.—This village has been visited by the most destructive fire that ever occurred here. About 10.30 p. m., on Monday night, May 4th, the peaceful slumbers of the inhabitants were disturbed by the alarm of fire. The stable adjoining the store on the corner of Church and Sougog-sts., occupied by Mr. Wm. Cowan, general merchant, was seen to be in flames, and before aid arrived two horses were consumed. In spite of the effort of the fire brigade, which worked nobly, assisted by the villagers generally—men, women and children—the flames were not mastered till the stable, store and house occupied by Mr. Cowan, the dwelling and shop occupied by Mr. John Atkins, shoemaker, the double dwelling of Mr. William Taylor, occupied by Alexander Wannan, V.S., as dwelling and office; the residence of Mrs. Dr. Moore and family, and the carriage shop of Mr. James Holmes were burned. The latter was a large, high frame structure containing considerable lumber and other stock. Between this factory and Mr. Holmes's residence was a vacant lot about forty feet wide, and knowing that if the dwelling fell a victim to the flames no effort could prevent the fire from extending eastward to several other residences, the citizens procured a large number of quilts and blankets which they drenched with water and covered the entire building and windows and doors, which wise precaution saved the building and prevented further progress of the fire. Mr. Cowan's family had a very narrow escape, having to leave the burning building in their night clothes.
