-Mr. M. J. Butler, of the chie, engineer's department of the Kingston, Napanee, and Western railway, writes to say that the reported discovery of coal in the Kaladar township must be a canard, as the rock formation there is Laurentian, and it is absurd to expect to find coal. Mr. Butler suggests that if the rudiments of geology were taught in our public schools fewer prospectors would waste their time hunting for coal in Ontario.

The C. P. R.'s Great Achievement. The Canadian Pacific railway, says the Montreal Gazette, has achieved another triumph, scarcely less significant, less fraught with commercial consequences of the highest import, or less illustrative of the ability, skill, pluck and enterprise of its management than was the successful completion of the trans-continental line within five years of the time specified in the contract, or than is the marvellous prosperity of the property. The arrival of the express train carrying overland the passengers of the Empress of India, after their long ocean voyage, marks the beginning of a revolution in trade and traffic. In appearance the beer drinker may be the picture of health, but in reality he is most incapable of resisting disease. A slight injury, a severe cold, or a shock to the body or mind, will commonly provoke acute disease, ending fatally. Compared with other inebriates who use different kinds of alcohol, he is more incurable and more generally diseased.
