WITH HIS CUSTOMERS

That Little Britain is now as cheap a place to get your supplies as any place in the country is about an established fact; to whom this fact is due we leave to a deserving people to judge.

That No Living Man

can suit everyone has long been admitted, but we presume the citizens of Mariposa will admit that during a ten years' business career in Little Britain it has been our aim to accommodate all and to sell goods as low as any legitimate house in the trade.

FARM PRODUCE

We beg to return our sincere thanks for the very liberal patronage bestowed upon us since our return, and wish to say that our present intention is to remain in Little Britain and endeavor to build up a trade that will be an advantage to the town and country alike. We invite you to help us. Yours, very truly,

Sometimes
Dealers are wont to advertise perfect Watches.

We do better now; make them better and advertise them better.

The exact truth is, there are no perfect watches. Watchmaking is an experimental art, not an exact science nor a secret process. What has been done we know—what is to be done, who knows? We are apt to do more than our share of the doing.

Our special WATCHES today are up to to-day's knowledge—as near perfection as any, and in some respects nearer than any other. They are better this year than last—will be better still in the future; but if you think to wait until the improvements shall have all been made, you'll never get a watch.

You can, however, get a WATCH to-day so good that it will satisfy you, not only to-day, but for a life-time. Either of our special watches, the "MIDLAND" or the "VICTORIA," will satisfy any reasonable human being.

Yes! this is well worth looking into. Come and see us about it.

COMMERCIAL NEWS.
OFFICE OF THE CANADIAN POST, LINDSAY, MAY 12, 1892.

Toronto Live Stock Market.
Receipts at the western cattle market were large again Tuesday, consisting of 315 cattle, 65 sheep and lambs, 625 hogs and 100 calves. The market, on the whole, was a fairly satisfactory one. The attend an on of buyers, both local and outside, was large, and in most lines the prices of Friday were well maintained. The hog market alone showed any tendency to weakness, and this on account of excessive offerings of the past week or two. Last week the total receipts were—1,239 cattle, 1,477 hogs and 270 sheep and lambs. Weight fees, \$90.25.

Cattle—The larger part of the offerings Tuesday were export cattle. Mr. John Rogers was on the market again buying for Blocker & Co. of Crowe, Montreal. He picked up altogether about 200 head at prices ranging from 4 1/2 to 5 1/2 per lb. Some very fine cattle were offered, and for these the outside figure was paid readily. Most sales, however, were effected at 4 1/2 to 5. "Short keep" cattle, of which there was a large number on the market, sold at 4 1/2 to 5. About seven loads of export cattle were bought by Mr. Thomas Bakins of Fort Hope. In butchers' cattle there was also a good trade done, and the yards were well cleared up before the close. The prices of the closing day of last week were well maintained, and the healthy tone which marked the trade here, sold at 4 1/2 to 5. Choice butchers' cattle sold at from 3 1/2 to 4, extra choice picked lots do at 4 1/2 to 5. Common to good stock sold at 3 to 3 1/2 per lb. with good demand. The quality of the bulk of the offerings Tuesday was good and tended to give a steady feeling to the market. Among the transactions reported were:

Gold and Porcelain Tooth Crowns.
The system of attaching Gold and Porcelain Crowns to natural roots, introduced by Dr. Gross, is the most perfect now known to dentistry. It produces exact duplicates of natural teeth crowns. Don't have roots extracted, but call and see Mr. Gross.—94-1/2.

Some Interesting Judicial Decisions.
McNabb vs. Parkins.—This was an action against A. W. Parkins & Sons to prevent them from booming their saw logs in front of the plaintiff's property, just above their shingle mill. The case was tried at the last assizes and created considerable interest, judgment being reserved at the time. Judgment was given on Monday last by Mr. Justice Rose dismissing plaintiff's action with costs. Barron & McLaughlin for plaintiff, G. H. Hopkins for defendant.

Re Hudspeith Estate—Henry Mullet's claim.
—This was the first claim upon which proceedings were taken to administer the Hudspeith estate. Mr. Mullet left with Mr. Hudspeith over \$6,000 for investment, and after his death Mr. Adamson, inspector of the Toronto General Trust Co. the executors, handed over certain securities and obtained a release from Mr. Mullet, fixing his claim at \$3,555. Shortly after Mr. Mullet consulted Mr. Hopkins and was advised that the accounts had been improperly taken and that he was not obliged to accept the securities at their face value but only for what they were worth, and therefore Mr. Mullet, alleging he had been imposed upon, demanded that the release be given up and the accounts taken properly. The company refused to give up the release and contended that there was nothing more due to him, and after wasting nearly three months and the company still refusing to do anything Mr. Mullet took action, and therefore the company themselves took action and asked to have the estate administered by the court, which has been going on for the past two years before Judge Dean, who has now decided as to Mr. Mullet's claim, holding that the release got by Mr. Adamson was not binding on Mr. Mullet and that he was entitled to over \$2,000 more than allowed him by Mr. Adamson, thus fully justifying Mr. Mullet's action. G. H. Hopkins for Mr. Mullet; Thos. Stewart and John McSwain for the estate.
