THE CARON CHARGES.

The Dominion government has abandoned its determination to prevent any house. investigation of the Caron charges. An adroitly worded amendment to Mr. Edgar's resolution, which called for parliamentary investigation, was offered by Mr. 50 the other. It reaches from the county Bowell and adopted after a long and warm debate. The amendment emasculates the charges as much as possible, and then refers them to a commission of judges to be appointed by Caron and his colleagues, who benefitted in a political trolling influence is a spectacle that must arouse the attention of the most torpid an investigation; and it is hardly possible that Caron can prevent damaging revelations regarding his own actions, though the scandals may be confined to limits much narrower than would have been

inoffensive, its time and space being taken up with an amusing record of the doings of "we," "us" and company.

The Warder's attack is devoted to Judge Dean and Police Magistrates O'Leary and Deacon; and the object is plain. It is an outrageous attempt to bull-dose those charged with the administration of justice in this county, and to that end the Warder indulges in the Muckle Wilkes, at Millbrook last week. usual and characteristic lying and slandering. It is a very serious thing indeed for this community if in order to gratify | Manvers and Cartwright. personal spite, or to accomplish certain personal ends, the Warder or any other newspaper is to villify those engaged locally in the discharge of judicial duties in order to bulldose them. If this is to go on unchecked no one will be safe. sters for more than a century. But for this phase of the case we should not have noticed the Warder's spiteful tissue of falsehoods. There is not the slightest ground for the Warder's attacks. We are requested by Mr.D. J. McIntyre, Q. C., and Mr. J. A. Barron, Q. C., to state that the Warder's assertion to the effect that they asked him to criticise or attack Judge Dean is wholly untrue. We may state that since Judge Dean's appointment to the bench, now nearly twenty years ago, there have not been half a dozen appeals against his decisions. Only two appeals were sustained—one against him as master in chancery and one as judge. We doubt if this record is equalled in any other county in the dence that the legal profession have been satisfied with the manner in which Judge Dean has discharged his judicial duties.

justice. Neither attempt had any effect; judge of the superior court, "stands alone in the distribution of filth."

BINDER TWINE.

Our American neighbors do not consider the binder twine monopoly "a matter of no consequence." The house of representatives has by a vote of 183 to 47 decided to place binder twine on the free list; and such is the force of public opinion in the farming community against this monopoly, that it is likely the republican leaders will carry out the policy indicated by the vote. More than that. The Springfield Republican says: "It is understood that the United States will soon begin legal proceedings against the " National cordage company based upon the Sherman anti-trust law. Charles m M. Horton, a special agent of the de- and 5 days. partment of justice, has been in New York nearly a month collecting evidence. Both justice and politics are said to be in the suit, for the cordage trust is one n of the things the farmers' alliance is out gunning after. The Minnesota legislature has entered a complaint because, " owing to the influence of the cordage " trust, John Good was obliged to refuse "to make them machines for making " twine in their state-prison. The trust " have used all their influence to have the u suit dropped, but it will not be. The officials at Washington have little to say about the matter, but it seems quite " certain that prosecution will soon be in." The farmers of Canada may well ponder over the decisive action of their neigh-

EDITORIAL NOTES.

Dr. Landerkin has been confirmed in his seat by the supreme court.

By a majority of 42 the ministerialists have refused to permit an investigation of the charges against Judge Elliott.

Mr. Schnadhorst, the liberal election agent, calculates that the next general election will give the Gladstonians a majority of 77 in the next house of commons.

Mr. W. F. Maclean has been elected for East York by a majority of 227. The gerrymander and stuffed voter's lists secured the riding for the tory candidate.

The Globe has published two more batches of letters to "Dear Mr. McGreevy" showing how Langevin and Caron distributed the corruption funds. These little notes conflict with Langevin's sworn evidence and Caron's statements in the

Dundas Banner: "The new South Wentworth as gerrymandered by the artists at Ottawa now measures 14 miles one way by of Wellington on one hand to the county of Welland on the other, and seems undecided whether to strike for Lake Erie or the Georgian Bay."

The Monetary Times in its financial review says: "The general banking position of the country is one of quietness and ease, sense from Caron's "campaign funds." To as a whole, and deposits show such a emasculate the charges was bad enough; marked tendency to constant increase that to refer the investigation to a commission | the banks generally have taken measures in the appointment of which Caron and to reduce the rate of interest on them. his benefitted colleagues will have a constipulation as to the time it shall remain, and the same (or 3 per cent.) on the smaller political conscience, and receive public class of deposits which are generally condemnation. However, there is to be called savings' bank deposits. The development of this feature of banking is no doubt due to its introduction many years ago by the government, and also by the competition to which banks were subjected by the large savings' banks of the principal ci ies, and the deposit department of possible with a parliamentary investiga- loan companies. All these facilities for promoting habits of saving amongst the people are undoubtedly desirable, and it is | \$6.700 of Justice.

encourage them. The deposits of the banks as a whole keep up to very high figures, amounting to nearly \$163 000 000, as compared with \$142,000,000 in the corresponding month of 1891, and \$131 000. is added \$68,000,000 of deposits in the government savings' banks, the ordinary sayings' banks and the loan companies, a total will be brought out that is very satisfactory as compared with former years, 24,700 will buy you although the amount is still small in comparison with the deposits in other coun-

THURSDAY, will proceed to Mr. Geo. Murphy's,

Ops, for noon; thence to Veitch's Hotel, Lindsay, for
the night, where he will remain until Friday after-

DETCRIPTION AND PEDIGREE. LEWIE GORDON (7918), [5530], (1602), brown; fealed May 17th, 1888; bred by Thos. Garland, Aberdeenshire, Scotland; sire, McCamon (3818), dam, Kate of Ardlethan (4629); by Earl of Buchan (1126); grand dam, Bessie Lee (770), by Eclipse (268); g. grand dam, Fair Maid, by Grey Comet (492). The Farmer's Advocate, December, 1889, in a description of Messrs. Sorby's horses, describes LEWIE GORDON thus: "Mr. Sorby calls this his best yearling colt, He is were thick massive, strong in the bone and muscular, with splendid shoulders, quarters, thighs and arms, and a very pice head and neck. His back is short and his ribs well sprung. Altogether a most promis-ing youngster, combining style with massive propor-tions and nearness to the ground. His sire, McCamon, gained many prizes, including 1st at Shanraer when a yearing, and when two years old 3rd at Glasgow, and 1st and Champion Cup at the H. and A. S. cenand 1st and Champion Cup at the H. and A. S. centenary show at Edinourgh in 1884, as the best two-year-old and under. He is proving himself an extra good breeding horse. At Aberdeen in 1887 yearling colts, got by him when three years old, were 1st, 2nd, 3rd and 5th at the spring show, and 2nd and 3rd at the summer show, and yearling fillies got by him won 1st and 2nd at the latter shows. In 1888, at the same society's spring show, colts got by him were 1st in the two-year-old class, and 4th and 5th in the class of yearlings, and at the summer show they were 2nd in the class of two-year-old colts, and 1st, 2nd, 3rd and 5th in the two-year-old filly class. McCamon is said to be the first two-year-old Clyde colt that was sold for £900 in Scotland, and was bought by a company of practical Aberdeenshire farmers, who used him for several seasons, when they disposed of him to another company of farmers in the same shire, which is suffi-cient evidence of his value as a sire. His sire, Blue cient evidence of his value as a sire. His sire, Blue Ribbon (1961), was the winner of many premiums and prizes, including the 2rd prize at the H. and A. S. show at Perth in 1879. He was by the renowned Darnley (222), McCamon's dam, Jess of Kirranrae (1537), was a frequent prize winner, and a half sister of the famous breeding mare, Flashwood Sally (60), the dam of MacGregor (148?) and Flashwood (3604)."

LEWIE GORDON'S dam was got by the Earl of Buchan (1126), the winner of the Highland and Agricultural society medal, 1877; his dam, Jane (34) gained the H. and A. S. medal at the same society show, as the best animal in the year 1871. He was by Lord Derby (485), who was highly commended at the Highland Society's show at Aberdeen in 1876, and was stud horse two seasons, 1873, and 1874. Bessie Lee stud horse two seasons, 1873 and 1874. Bessie Lee (770), LEWIE GORDON'S grand dam, was got by Eclipse (263), the winner of 2nd prize at Glasgow, 1859; also 1st prize at the Eoyal Northern Agricultural Society Show, 1863 and 1867. Fair Maid, his g. grand dam, by Grey Comet (192). He was winner of 1st prize at the Highland Society show at Inverness in 1856. He also won the following prizes at the Royal Northern Society Spring show: 1st in 1854, but

winning in 1854, 1st in 1864 and 1865, and is conceded to have been one of the best models of draft horses that ever travelled in Scotland, Lawie Gordon's Bell of Honor. At Toronto's great spring fair held in March, 1891, LEWIE GOLDON won 1st prize in a large field of 19 entries, defeating the noted horse, Energy, that

was sold for \$2,500 after the fair, and others almost his equal. His victory was acknowledged a veritable walkover from his first appearance in the show ring.
At Port Pery, at the united townships spring fair, he again wonfirst honors over a large field, defeating ome of the lest horses in Canada, At Blacksteck he was again pitted against a large field of aged stallions and won 1st prize, defeating such noted horses as Royal Salute and others equally At the fall air held in Whitby, 1890, as two year-

he won 1st paze, and sweepstakes for all classes and competing against large fields of the best representative Clyde stallion in Canada, and was the only horse out at Toronto far held in March of that year. At the Cental Fair, Lindsay, 1891, LEWIE GOR-DON and four of his colts were exhibited, and where ne was awarded the first prize, while his colts carried off their hoors for that age. Shrewd horsemen claimed that hey were the finest lot of colts ever day 8 of his cets were at Whitby and swept that fair, this spring h won 3rd prize in a field of 19 contestants and it was conceded by the public generally that he shoul have been placed higher in the list. It is a might hard thing for individual exhibitors to

defeat the bis importers.

At Blacktock, 1892, he won the first prize easily. Also at at the Ops spring fair held at Lind-LEWIE GRDON will compete with five of his colts for the reat special prize offered by the Industrial and Arti-Association, Toronto, at their fair this As a foal getter LEWIE GORDON has proved

himself a ver sure horse, foaling no less than 90 per cent of his mires last season, which is well known by February 189. Mares must be returned regularly to the horse of they will be charged full insurance

and Downeyvie, and vicinities adjacent thersto, I wish to say tat I regret my inability to make a season in the respective localities, being in duty bound to revit Cartwright township owing to my having stood HWIE GORDON there last season. It would make to long a route for a sire so heavily engaged. Hower, any of my old friends desiring the services ! LEWIE GORDON at points most convenient to hem will be liberally dealt with and

farmers and braders generally to the fact that I have been foremost i introducing Al high bred stallions throughout thidistrict, an I I can confidently state that in the mechanic of LEWIE GORDON I again excel all previes efforts.

E. E. W. McGaffey
