partment. [Toronto Globe.] The following confidential, and now most valuable and characteristic letter, was written shortly after the close of parlismentary session of 1875, when Mr. Mackenzie was in the hey-day of power as premier of Canada. We are now permitted to publish it and gladly avail ourselves of the opportunity, for it discloses the inherent integrity and sterling sense of duty which were the characteristics of the

dead statesman: "OTTAWA, April 27th, 1875. "MY DEAR H .--, -I have your noted garding C-, I will endeavor to employ him within a few days at Thunder Bay on the commissariat staff, though I fear he is rather old, especially as his chief (B.'s father) is older. I have sent Mr. Kingston's

letter to Mr. Laird to consider. "I am quite concerned about the dinner. I can hardly go to speak freely at present, and I always like to have it in my power

to speak without restraint or stint.
"I would like much to be relieved of the public works department; but I cannot see my way to that at present. It is the great spending department, the department that can make or ruin a government at such a time as this, when \$25,000,000 are in the power of its head to spend on public works. Friends (?) expect to be benefitted by offices they are unfit for, by contracts they are not entitled to, by advances not earned. Eacmies ally themselves with with friends, and push the friends to the front. Some attempt to storm the office. Some dig trenches at a distance and approach in regular siege form. I feel like the besieged lying on my arms night and day. I have offended at least twenty parliamentary friends by my defence of the 'citadel.' A weak minister here would ruin the party in a month, and the country very soon. So I must drudge on as I best may and carry out the experiment of doing right
