Several representative cattle dealers and exporters were present; Mr. Crowe, of Bickerdike & Crowe, and Mr. Telfer, of the G. T. R. stock yards, both of Montreal, being amongst these. CHRISTIAN ENDEAVOR COLUMN.

Conducted by the Christian Endeavor Editor. [All communications for this department to be addressed to C. E. Editor, care Canadian Post, Lindsay.] The Banner Society.

Kansas has certainly the banner society. The little town of Woodruff, in Phillips county, has a population of only fifty-seven people, and has a Christian Endeavor Society of twenty-five acting members and fifteen associates. Think of it! All but seventeen in the entire town are members of that Christian Endeavor Society. I do not believe that there are many saloons there, or much need for such vigorous work as Dr. Parkhurst has been doing so well in New York. Do you?

The Pledge. Some one has asked through the columns of the Golden Rule, "What do you think of a Christian Endeavor Society that will not adopt the pledge because of its severity, and that draws up a pledge to suit itself? And the answer comes: "It is making a great mistake. The experience of thousands i societies proves that the pledge is essen tial to a successful society. The idea that the pledge is too severe is a mistaken one. It requires nothing but what every young Christian should gladly and willingly do, and provides for the only excuse any Christian should offer for neglect of duty—a reason he can conscientiously give to his Lord

and Master." The pledge is the centre, the keeping of the pledge is the circumference of the Christian Eadeavor movement. - The Chris-

Despite unceasing efforts to messages or pretending to misunderstand them. But such a fortunate result of these eccentricities cannot, in the nature of thinge, be always hoped for. Were the czar, for instance, desirous of a pretext for a justifiable declaration of war, the insane act of the kaiser would plunge the nation into a bloody and expensive combat, whose outcome no man could predict. There is deep feeling in Berlin among those familiar with the situation, and it is all the deeper because nobody ventures to speak openly

WHAT THE HACKNEY HORSE IS? We take the following comments re the now celebrated English Hackney horse from Wm, Taplin's

Sporting Dictionary and Rural Repository of General Information, published in 1803, which says:— "Hackney, in the general acceptation of the word' with the sporting world, is a horse 'superior to all others' on the 'score of utility, being rendered subservient to every office of exertion, speed or perseverance, or in other words to all the drudgery and labor of his and the charger, by the imaginary superiority of their qualifications and pampered appearance, are always exempt, It is the peculiar province of the Hackney to carry his master twelve or fifteen miles in an hour to covert, where the hunter is in waiting, and sometimes to bring the groom back with even greaterexpe dition. It is the department of the Hackney to encounter and overcome emergencies and difficulties encounter and overcome emergencies and dimentiles of every description. His constitution should be excellent and his spirit invincible. He must be able to go twenty five or thirty miles at a time without drawing bit, and without the least respect to the depth of the roads or the state of the weather, and if he is not equal to any weight in these trying exertions, he will be held in no estimation as a Hackney of fashion." Our Stock of General Groceries was never so complete nor fresher than at present. It is well that the public should know this. In some lines, indeed---for instance, TEAS--our stock is unequalled for value. Long experience has taught us much that is of value when purchasing, and we get the best because we do our own selecting and tasting. Some of our low-priced lines could not be bought some years ago for less than 50c. per lb; now they sell for half that figure. In Coffees we give you the pure grown bean in all the different brands.

We make a specialty of family trade, and those dealing with us get goods at the lowest possible notch. A year's trading at our store means a telling reduction in the expense account and a "nest-egg" to deposit in the savings bank.
