### Wellington County Miracle.

THE REMARKABLE RECOVERY OF A YOUNG LADY AFTER MUCH SUFFERING.

Attacked by St. Vitus Dance and Forced to Abandon Her Studies—After a Considerable Period of Helplessness She Regains Health and Strength—The Facts as Related by the Young Lady and Her Mother—A Case That Has Excited Much Interest.

From The Templar, Hamilton, Ont.

There were no "colonization roads" when the hardy pioneers of Wellington County came to the bush. The settlers who 1250 came to look for homes in the northwestern part of that county, now Minto Township, which was known then as "Queen's Bush," had access to the budding community only by the "blazed" road from Guelph to Southampton. Along this road occasional clearings no doubt existed, but as the northern part of the country was then almost one swamp, such clearings were few and far between. When at length representatives of almost every nationality fled from the attempt to carve a home out of the swamp, the Scotch stormed the swamp and their tenacity and energy proved successful, and to-day the smiling settlements and fruit farms are the result of the hard toil of the former days.

Five miles north of the town of Harriston, the seeming endless swamp rose to high undulating clay land, and this favored spot settlers were slow to discover. Soon every lot was occupied, and the log houses presaged a coming village. Among the first settlers were Wm. Cardwell, Wm. Buntin, Robert Arthurs, Thomas Hart, Luke Grice, John Small and others. In a few years a post office was secured and William Cardwell was appointed postmaster, a position he holds to this day. The post office was called Drew, after Judge Drew, of Wellington County.

Some fifteen years ago the old Buntin homestead was purchased by Peter Donaldson, who resided formerly in the Province of Quebec. He and his wife were the parents of a family of seven sons, and shortly after they settled at Drew, a little girl came to bless the home and to cheer the hearts of father, mother and brothers by her sweet smiles. When she was about seven years old her health

failed, and it was only after careful treatment by the family physician that the rosy bloom was restored to her cheeks, and her school duties resumed. Upwards of two years ago the dread hand of disease was again laid upon her, and as the disease developed the symptoms clearly pointed to St. Vitus Dance. This disease, known to medical circles as chorea, attacks the nervous system and affects the voluntary muscles with constant irregular movements. The disease made steady head way, notwithstanding all the efforts made to counteract it, until that marvellous nineteenth century remedy, Dr. Williams' Pink Pills for Pale People, was tried. These Pills came before the notice of the parents through the columns of The Templar. Mr. Donaldson has been a subscriber of The Templar since its start, and had every confidence in the veracity of its statements. When he saw in its columns, therefore, the account of remarkable cures effected by Dr. Williams' Pink Pills, he was ready to accept the statements and at once procured the Pills for his daughter. It was not long before a decided improvement was noted, and but a few weeks till her former abundant measure of health was restored. The complete restoration of Charlotte Donaldson to health was the cause of great joy and gratification to the parents and family, and of much appreciative comment in the neighborhood. In a short time the bare facts of the case came under the notice of The Templar. One of the staff was dispatched to ascertain full particulars, so that they might be given to the public, to benefit thousands of similarly afflicted persons.

The Donaldson homestead is Lot 21, Con. 17, Minto Tp. A handsome substantial brick residence, and a large well built barn, attest the thrift of the family. The Templar representative and his friend were received very cordially by Mrs. Donaldson, who explained that her husband was absent, having driven to the neighboring town of Clifford early in the morning, and then led the way to the pleasant drawing room of the house. After a little general preliminary conversation, the reporter apprised Mrs. Donaldson of the object of his call. She expressed her satisfaction and willingness to give every detail and verify every statement. She called her daughter, and the lively robust maiden with the bloom of health upon her cheeks, who responded to the call looked as if she was an utter stranger to sickness. In a few words she told her story. "You know that my name is Charlotte Donaldson, and I am almost fourteen years of age. I have been sick, very ill they all tell me, but now think it must have been a dream, so free am I from sickness. I was first attacked with rheumatic fever, and on returning to school was trying very hard to pass the last entrance examinations, but I could not study, I could not sit still at school. I could not keep my hands and face quiet. I stayed home from school and tried to help mother with the house work, but it was of no use. I could not dress myself or lace my own shoes. I often tried to help wash the dishes, but the plates and cups would slip from my shaking hands and break upon the floor. Last summer mother gave me Dr. Williams' Pink Pills, and it was not long till I felt better and was able to take care of myself. I have used the pills e. s. n. o.

and cannot say to much in praise of what has cured me."

Mrs. Donaldson corroborated the statements her daughter made and said, "Yes, it is going on two years since Charlotte became troubled with nervousness, and I think it was the rheumatic fever that brought it on. Very soon her nervousness increased. She could not keep in one position. She could do nothing, not even for herself. Her right arm was not so seriously affected, but her left arm and side was continually twisting and twitching. Frequently the twitching affected her whole body. The disease affected even her tongue, and she could not talk plainly. Her eyes, too, were sore. I had a dreadful time last summer; we had a lot of men and it was impossible to get a servant girl. Charlotte could not do a thing to help me, and needed a great deal of attention herself."

Upon enquiry as to how Dr. Williams' Pink Pills came to be used, Mrs. Donaldson said that the celebrated John Marshall case, as reported in The Templar, had been the subject of much comment in their own family as well as in the neighborhood. Here they noticed Pink Pills were good for nervous diseases, and at once determined to give them a trial, and last September secured the first box. The improvement in Charlotte's health was soon noticed, and in a month or so she was decidedly better. Now she had entirely recovered and had commenced school again, and would no doubt be successful at the coming entrance examinations.

The pills had also been used with good effect upon another member of the family, Stephen, the youngest, boy had been troubled for some time with an abscess in the leg just below the knee. The doctor had several times nearly healed the sore, but it always broke out afresh. Steven had begun the use of the pills when the good effect upon his sister had been noticed, and now the sore was completely healed.

The kindness of the family in giving every information was not all, for before they would allow the quizzical reporter and his friend to leave, they were treated to a delicious lunch of newly-made maple syrup accompanied by the noted Scotch oatmeal cake. This syrup was maple syrup, and not the watery mixture that is so frequently palmed off as the genuine article.

Further testimony was not necessary to convince the reporter of the genuineness of the case, but he called upon several of the neighbors, and among them the veteran postmaster, Mr. Wm. Cardwell, and all bore testimony to the facts here stated.

The druggists of Harriston were also seen, and they stated that Pink Pills had a remarkable sale. In reply to a query, one of them said: "Yes, they sell better than any other medicine or drug we have in the shop."

The Dr. Williams' Pink Pills for Pale People are manufactured by the Dr. Williams' Medicine Co., of Brockville, Ont., and Schenectady, N. Y., a firm of unquestioned reliability. Pink Pills are not looked upon as a patent medicine, but rather as a pre-emption. An analysis of their properties show that these pills are an unfailing specific for all diseases arising from an impoverished condition of the blood, or from an impairment of the

nervous system, such as loss of appetite, depression of spirits, anaemia, chlorosis or green sickness, general muscular weakness, dizziness, loss of memory, palpitation of the heart, nervous headache, locomotor ataxia, paralysis, sciatica, rheumatism, St. Vitus' dance, the after effects of la grippe, all diseases depending upon a vitiated condition of the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness, building anew the blood and restoring the glow of health to pale and allow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature. These pills are not a purgative medicine. They contain only life-giving properties and nothing that could injure the most delicate system. They act directly on the blood, supplying its life-giving qualities, by assisting it to absorb oxygen, that great supporter of all organic life. In this way the blood, becoming "built up" and being supplied with its lacking constituents, becomes rich and red, nourishes the various organs, stimulating them to activity in the performance of their functions and thus eliminates disease from the system.

Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trade mark and wrapper, (printed in red ink). Bear in mind that Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. The public are also cautioned against other so-called blood-builders and nerve tonics, put up in similar form intended to deceive. They are all imitations whose makers hope to reap a pecuniary advantage from the wonderful reputation achieved by Dr. Williams' Pink Pills. Ask your dealer for Dr. Williams' Pink Pills for Pale People, and refuse all imitations and substitutes.

## MARK THIS WELL HOUSEKEEPERS!

Profits in the Grocery business are small nowadays, and competition is keen—more so, perhaps than you are aware of.

One great difficulty the progressive merchant has to contend with is the slowness of buyers to recognize the advantage of buying their goods fresh—buying from a stock that is being constantly replenished. Stale and inferior goods are sold over grocery counters as well as in the dry goods business, and the profit upon them is large.

We don't propose to read you a lecture upon the subject, but we do wish to impress upon you the fact that an experience of fifteen years in the grocery business has taught us that in the long run QUALITY is recognized and appreciated by the general public.

When we say that our stock of General Groceries is FRESH and fully assorted in all lines, and that the prices are down to the lowest notch compatible with a desire to pay our honest debts and gain what the world is said to owe every man—a living—we state a fact that will be readily believed by those who have traded with us in the past, and we stand ready to convince doubters.

TEAS AND COFFEES of the best brands are strong features of our business. We flatter ourselves that those who buy from us once will realize their mistake in not doing so sooner. The bouquet is unapproachable.
