THERE ARE DOCTORS WHO MAINTAIN That there is a kind of Tea inebriation - that there are people who indulge in tea drinking to the same extent as some people gratify their taste for alcoholic stimulants, and that the effects on the constitution are equally marked.

The theory may be all right, but it's a deep question, and we prefer to leave it for others to wrestle with. We have no desire to prejudice people against the mild species of exhilaration contained in a cup of good Tea. Good Tea! Ah, there's the rub! - where to get a reliable article. The consumption of Tea and Coffee is increasing at a tremendous rate every year, and the public taste for the article is becoming cultivated - at any rate, most people can recognize the difference between the good and the poor article when it is brewed. That's an encouraging sign to those who have tried to cultivate the public taste - it's encouraging to ourselves. We have now been in the Tea trade for many years in Lindsay, and our large and steadily growing business proves to us that prices and qualities must have been alike satisfactory. We are offering now a Brand of Tea at 25c. a Pound that is Without a Rival. Those who fancy a nice cup of Black Tea should try our SPECIAL CEYLON BLEND. Our Teas are carefully selected from the youngest and most succulent leaves, blended in the most perfect manner, so as to yield a rich and mellow liquor. We pride ourselves upon the excellence of our Coffees.
