AN OLD STORY. But this was not to be the only eventful conversation which Mrs. Westmacott held that day, nor was the admiral the only person in The Wilderness who was destined to find his opinions considerably changed. Two neighboring families, the Winslows from Anerley and the Cumberbatches from Gypsy Hill, had been invited to tennis by Mrs. Westmacott, and the lawn was gay in the evening

with the blazers of the young men and the bright dresses of the girls. To the older people sitting round in their wicker work garden chairs the darting, stooping, springing white figures, the sweep of skirts and twinkle of canvas shoes, the click of the rackets and sharp whiz of the balls, with the continual "fifteen love, fifteen all!" of the marker, made up a merry and exhilarating scene. To see their sons and daughters so flushed and healthy and happy gave them also a reflected glow, and it was hard to say who had most pleasure from the game, those

who played or those who watched. Mrs. Westmacott had just finished a set when she caught a glimpse of Clara Walker sitting alone at the farther end of the ground. She ran down the court, cleared the net to the amazement of the visitors and seated herself beside her. Clara's reserved and refined nature shrank somewhat from the boisterous frankness and strange manners of the widow, and yet her feminine instinct told her that beneath all her peculiarities there lay much that was good and noble. She smiled up at her, therefore,

and nodded a greeting. "Why aren't you playing then? Don't, "And no one who has not lived with her for goodness' sake, begin to be languid and known her intimately can tell how and young ladyish! "That's right, my dear." She tapped her upon the arm with her tennis racket. "I like you, my dear, and I am going to call you Clara. You are not as aggressive as I should wish, Clara, but still I like you very much. Self sacrifice is all very well, you know, but we have had rather too much of it on our side and should like to see a little on the other. What do you think of my nephew

The question was so sudden and unexpected that Clara gave quite a jump in her chair. "I-I-I hardly ever have thought of your nephew Charles." "No? Oh, you must think him well over, for I want to speak to you about

"To me? But why?" "It seemed to me most delicate. You see, Clara, the matter stands in this way. It is quite possible that I may soon find myself in a completely new sphere of life, which will involve fresh duties and make it impossible for me to keep up a household which Charles can share."

Clara stared. Did this mean that she was about to marry again? What else

could it point to? "Therefore Charles must have a household of his own. That is obvious. Now, I don't approve of bachelor establish-

"Really, Mrs. Westmacott, I have never thought of the matter." "Oh, you little sly puss! Was there ever a girl who never thought of the matter? I think that a young man of

Clara felt very uncomfortable. The

awful thought had come upon her that

this embassadress had come to her as a

proxy with a proposal of marriage. But how could that be? She had not spoken

more than three or four times with her

> Doctors' Mistakes.

TREATING THE WRONG DISEASE.

How large bills are run up without benefit to the sufferer.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from nervous disease, another from liver or kidney disease, another with pain here and there, and in this way they all present alike to them-selves and their easy-going, indifferent, or over-busy doctors, separate and distinct dis eases, for which they prescribe their pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disease. The physician ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce Pavorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said,

that "a disease known is half cured." Dr. Pierce's Favorite Prescription is scientific medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organiza-tion. It cures all derangements, irregularities and weaknesses of the womanly organs. It is purely vegetable in its com-position and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, due to pregnancy, weak stomach, and kindred symptoms, its use, will prove very beneficial. It also makes childbirth easy by preparing the system for parturition, thus assisting Nature and shortening "labor." The period of confinement is also greatly shortened, the mother strengthened and built up, and an abundant secretion of nourishment behing a wire cage. Do You

that fully ninety per cent. of the retail wholesale men of this Dominion of ours fail in business sooner or later?

There may be many reasons given in explanation. The storekeeper may have been without the requisite business experience; he may have been "swamped" by a live man who was awake to the benefits of advertising; he may have been trying to work up a big trade on un ufficient capital; or he may have killed himself by selling cheap, inferior goods for the sake of the extra profits to be gained.

The Prime Merits Of Our Groceries

were talked of when we began business many years ago, and we've hewed to the lines every day since Thanks to the course we've followed we've been gaining custom yearly, and "the best groceries at the lowest price" will continue to be our motto till the last day of our business career.

When You

recollect that TEAS, SUGARS, COFFEES and CANNED GOODS represent fully thirty per cent. of our daily sales, it may lead you to believe that we are looking after our own interests closely by giving the best possible values in those lines.

what it would mean to us if we tried to palm off inferior goods in these lines alone? We know what would happen. So do you. Every line in our store is guaranteed to be the best of its kind at the price we ask for it.
