The usual remuneration of \$2 per day for three days' work examining the streets and walks was recommended to be paid the members of the boars.

At a recent meeting of the club even Mr. Wm. Flavelle, who had asked for the concession last year, said he did not think it wise to press for permission to use the walks this season. Coun. MALLON remarked that if Chairman Gillogly was wrong in that matter he wanted to know where Coun. Sootheran got authority to fetch in a report dealing with the town insurance when the matter had never been referred to his committee. Coun. Sootheran explained that he was being blamed unjustly in connection with the insurance; Dep.-reeve Robson was chairman of the town property committee and he (Sootheran) had opposed the transfer of the insurance in committee, but had supported it in council. Reeve Touchburn maintained that Chairman Gillogly was well within his

rights in referring to the bicycle nulsance. The report was then adopted. SING AGAIN THE OLD SONG. Moved by Coun. Sootheran, seconded by Cour. GRAHAM, that the time for the collection of outstanding taxes be further

extended to Monday, June 7th .- Carried. Dcp.-reeve Robson explained that he had been approached by a number o citizens who were anxious to procure sand and loam from the town pit, and moved, seconded by Reeve Touchburn, that the

council rescind the motion prohibiting the Coun. Burrows did not think the town had been successful dealers in sand and loam-hundreds of loads had been taken unknown to the council, and the same thing would occur again if they removed the interdict.

Reeve Touchburn stated, somewhat warmly, that Dr. Burrows had made a statement on the strength of street gossip. The agitation had been worked up by Tnornhill because he had sand and loam to sell. The loam covering the gravel to the town pit might as well be removed, as it was continually falling back as the gravel was being excavated. If the counpreviously taken it was the fault of the chairman of the town property committee. The whole trouble had been caused by the being taken from him. Dr. Burrows again rose to speak, but

Mayor Smyth ruled him out of order. Coun. Sootheran thought it was no the duty of the council to compete with any citizen in the supply of loam; the town would require large quantities of soil in the near future, and should not part with it.

The motion was referred to the commit-2 00 | tee for farther consideration. MARKET SQUARE P.G PEN. Dop.-reeve Robson moved, and Coun. MALLON seconded, a resolution to have

the market square piggery placed and kept in a better sanitary condition .-Referred to town property committee. A GUARANTEE FUND. Moved by Coun. Sootheran, seconded

by Coun. GRAHAM, that the usual guarantee fund of \$200 be voted to the South Victoria agricultural society. Dr. Burrows opposed the motion with considerable vigor, saying it would be simply giving away the money, as there could be no doubt but that it would be called for this year; the society had played

large cards in the past, yet even with the presence of the governor-general and other notables they had barely kept even. The affairs of the society were not being managed on a proper basis-men who handled tickets should not handle public 2 00 | money. The thirty or forty servants of the society, counting ticket sellers and takers, policemen, etc., may be honest, but it was possible that some one is not. 00 | The same men were appointed to office each year, and the system was a dangerous inefficient.
