ARRANGING FOR AN ARMISTICE

Turkish Officials Acknowledge That the Greeks Fought With Great Bravery -A Threat That the Porte Will Not Submit to the Powers Beyoud a Certain Point.

Athens, May 19 .- A despatch received here from Lamia, dated 10 o'clock this morning, announces that the white flag has been hoisted between the armies of Greece and Turkey, and that Crown Prince Constantine has been authorized to suspend hostilities with the view of concluding arrangements for an armi-

A panic prevails at Lamia owing to the report that the criminals will be released from the jails, while the arrival of the troops during the night increased the general feeling of terror. The army of the Crown Prince was re-formed on the Othrys Mountains and will be reinforced by Gen. Smolenski's brigade and the troops despatched to the nt from Athens yesterday. The Minister of the Interior, M. Theotokis, has gone to Steklis.

Greeks Fought Bravely.

Turkish headquarters, before Domokos, May 18, 6 a.m. (delayed in transmission.)-During the night the Greeks abandoned all their positions. Two and one-half divisions of Turks are now pur-suing the enemy. A great battle, fought well into the night, is now ended. The combat can only be described as indecisive. The fighting raged from early morning until long after dark, When the last shots were passing over the field the advantage did not appear to rest with either side. The Greeks maintained their positions, having acquitted themselves so well as to have earned the hearty praises of the Turks. They resisted with stubborn endurance the determined attacks of the Ottomans through the day, and still held their entrenchments at nightfall. The Turks made a supreme effort late in the evening, but it was met with the utmos bravery upon the part of the Greeks, and failed. The Turkish losses were heavy. The left division of the Turks was engaged from 9 o'clock in the morning, and appears to have succeeded in forcing back the Greek right wing.

A THREAT IN THIS. Turkish Official Says the Powers Will Regret it if They Go Too Far.

Constantinople, May 19.-An official Turkish foreign officer, in an interview to-day, after dwelling upon the provocative attitude of Greece and the earnest efforts made by Turkey to prevent war, "During the month's war Turkey has

suffered serious loss in life and money and the peace conditions cannot but be regarded as moderate and as wholly justified. Nevertheless, the Government is possibly prepared to modify its demands in regard to the indemnity and the cession of Thessaly, in view of the bankrupt condition of Greece, and as proof of its pacific desires. "In regard to the abolition of the capitulations, it is impossible for the Gov-

ernment, in the interests of the country, to make any modifications. Even Servia and Roumania, in every sense the superiors of Greece, have not these privileges, and, therefore, cannot be allowed to retain exceptional rights, which she has so scandalously abused. It is confidently hoped, therefore, that Europe will have sufficient sense of justice not to press Turkey. Upon this point she determined not to yield, and should Europe attempt to impose such a sacrifice by force or arms, the situation created would be most detrimental to general peace. The Turkish population would inevitably become excited by such injustice, the Government could not hold itself responsible for the grave consequences which would follow, and the powers would, in the end, undoul-t-

A Basis for Pcace Preliminaries. Paris, May 19.-It was semi-officially announced this evening that the Ambassadors of the powers at Constantinople are drafting counter-proposals to the reply received to their last note to the Turkish Government. These counter-proposals will serve as the basis for the preliminaries of peace. The latter will be discussed and settled by the powers and the Turkish Government, the latter having requested their mediation.

Mr. Fielding Attacked by Mr. Foster on the Bank Note Contract - The Finance Minister Shows That He Worked in the Interest of the

Ottawa, May 20.—(Special.)—Mr. Foster and Sir Charles Tupper attacked the Government in the House to-day for having taken the contract for printing bills and stamps from the British American Bank Note Company and awarded it to the American Bank Note eulogy of Signor Fratti, during which Company of New York. It was charged that the Canadian company had not been treated fairly. Its tender was, they asserted, the only one which complied Many of the deputies and the Minister with the specifications, yet the contract had been given to an alien corporation and a Canadian industry had been destroyed. They emphasized the point in their criticism that the American company had been permitted to manufacture the dies in New York, a work requiring the very highest skill, which Canadians were capable of performing. The Minister of Finance replied that there were 153,000 arguments in favor of the tender of the American Bank Note Company, and they were that it was \$153,-000 lower than that of the British American Bank Note Company. The old contractors, he said, evidently thought they had a monopoly of the work, for they not only asked the sum that they rangement with the Government, but \$30,000 more. He mentioned the fact that out of a contract aggregating over pany had demanded 20 per cent. more company, but when the tenders had been opened Mr. G. B.
