The Rathbun Co. Saw, Tie and Shingle Mills at the Lower Wharf.

The Present Mill is the Fourth Erected on the same Site since Lindsay Emerged from the Woods, and is one of the Best of its Size in Ontario-Mr. G. H. M. Baker, the Company's Local Manager, has made a Great Success of the Lindsay Enterprise.

"Yes," remarked the old citizen to The Post reporter who was poking about the Rathbun mills at the lower wharf in search of material for an item, "Yes, things look different to what they used-it's a crackin' fine mill for the size, and turns out a power of stuff-more'in you'd think to look at her. That's because everythin' is so compact, you see-not an inch of space wasted. It's the fourth millon the site, an' it chews up more timber than the whole batch could even if

Realizing that the old man was in loquacious mood, the scribe put a few judicious questions to draw him out. "Remember who put up the first mill? Yes, sir-I recollect most things that have happened in this town for a matter of forty-five years back. put up a small mill on the opposite competent engineer in charge. yankee-and a pariner named McGill, side of the river near Carew's, but The saw-mill has been vastly improv-later on they had a fuss and dissolv- ed. An up-to-date saw carriage and

Our Reporter's Notes. The Rathbun m'll began operations this season on Monday, April 24th, on the ten hour schedule, which will be maintained all season. The company has no intention whatever of making a trial of the system as erroneously in-

On approaching the mill the visitor is impressed with the remarkable change in its appearance compared with last season, which can only be explained by a visit. The clean and tidy condition of the mill and large yards furnishes an object lesson for our citi-

The company have expended a large sum of money this season in enlarging the mill and increasing its equipment and capacity. The cost of the improvements will be in the neighborhood of \$4,000. They have increased the size of the brick boiler-room, adding to the boiler already in service a large tubular boiler 16 feet long and 5ft. 6 inches in circumference, and carrying 120 Hollis Bowen, from Hope township, who pounds steam pressure, which supafterwards kept boardin' house, built plies steam for the large 100 horse powa saw-mill about 35 years ago near er Wheelock engine, while the old boil-Dovey's mili up there, and worked er is reserved to furnish steam to the it about nine years - then it got new twin engines operating the new burned. A min named Whitmore-a rope drive feed. The boiler and engine-
