Sir Charles Tupper Attacks Mr. Blair and the Opposition Strenuously Oppose the Motion, Which Was Carried on Division-The House in Committee of the Whole -The Resolutions.

Ottawa, May 10 .- Mr. Blair yesterday moved the resolution for the purchase of the Drummond County Railway in an exhaustive and convincing speech of three hours. From 3 o'clock until 9 the motion to go into committee on the resolution was restricted because certain information which Mr. Blair could not possibly obtain had not been laid on the table. Sir Charles Tupper, who led off in the debate, roundly abused the Minister and his colleagues, and then half a dozen of his followers made speeches covering a

wide range of subjects. Mr. Blair laid upon the table the returns asked for by Mr. Foster, showing the earnings of the Government railways. Upon motion of Mr. Dyment, the time for receiving private bills was extended in so far as it applies to the Ontario & Rainy River Railway Company's bill. Mr. Britton introduced a bill to amend

the act respecting joint stock companies, which was given a first reading. The bill deals with the powers of the companies to invest in shares of other companies. Sir Wilfrid Laurier moved that when the House adjourns on Wednesday it ad- cable. journs until Friday next, which was

Without this information it would be impossible to discuss the Drummond County Railway resolutions intelligently.

Mr. Blair said he had not furnished the House with the statement asked for by the leader of the Opposition, for the very good reason that no such statement could be procured which would be of the slightest value to the House. He had assurance of the Deputy Minister and the general manager of the Government railway that it is impossible to furnish such a statement which would be of any value with respect to the running and operating of any section of the Intercolonial. The civil government, which were passed accounts are not kept in sections, but of the railway as a whole, and any statement which he might procure from the officers of the department would be a mere estimate, and, therefore, of little

That it is expedient to authorize the Governor-in-Council to purchase from the Drummond Counties Railway Company, and to authorize the said company to sell and convey to Her Majesty the whole of the railway and undertaking of the said company, including its main and branch lines of railway, and all buildings, fixtures and appurtenances appertaining thereto, and pany-Mr. Oliver. upon such purchase being effected the said railway and its branch lines shall become

Mr. Blair said that the through traffic arrangement entered into by the late Government with the C.P.R. discriminated against the I.C.R., and that the agents of the latter road were debarred from soliciting traffic for their own road, under threat of dismissal by the Government, an assertion which was contradicted by Mr. Haggart. At ten minutes past 1 o'clock Mr. Blair resumed his seat, when Mr. Haggart moved the adjournment of the

debate, and the committee rose and reported progress. The House adjourned at 1.10.
