-Cyclists who are in the a-bit of supporting their wheels against plateglass windows had better discontinue the practice at once, if they wish to avoid trouble. The practice is becoming quite prevalent, especially of evenings. Many of the stores provide wheel racks but where there are none, it is better to stand a wheel against the edge of a walk than assume the risk of demolishing an expensive window.

It is interesting and instructive to read bright and well constructed advertisements. Messrs. C. I. Hood & Co., Sarsaparilla fame, must have been at a great feast and taken everything home with them. They are using a bright selection of quaint old sayings and proverbs as the starters in a series of clever advertisements, wherein the proyerbs are neatly turned and paraphrased to fit the subject matter. The public like this breezy advertising, as it reminds us of other proverbs and opens up discussion.
