COBOCONK. [Correspondence of The Post.] DARING ROBBERY. - Our; village was sroused in the early hours of Monday morning last, May 22ad. Dr. Broad, being out on a professional call, was returning home about one o'clock, midnight, when he had occasion to go into his drug store, and upon opening the door he was seized by a rough looking burglar. The plucky dector seized his man and commenced shouting for help, and the burglar was shouting for his mate Jack, saying he was caught, but Jack kept in the shade. Unluckily the thief had on rubber shoes, and the doctor's boots being alippery he was pushed over and the thief made his escape before assistance arrived, which was only a short time in getting to the scene. The Pattle house was soon in an uproar, men and women running as if to a fire. Mr. Ham, general merchant and post

Two large packages, one from the postmaster in Norland and one ready for going away by the morning mail, locking as if they contained something of value, had been opened, but to the thiel's dismay contained nothing but writing, being post office returns to Ottaws. By this time A. H. Carl had arrived, and on examining his store all the cash kept in the alarm till was found gone. The doctor deserves credit for the way he held on until obliged to let go. There is some hopes of tracing the parties and it will be made hot for them if

Another Swindler About. The Peterboro Examiner in a recent issue printed the following warning: It is said that a sharper is operating among the farmers in this vicinity, his stock-in-trade being a patent plowshare. The "note" scheme is also worked in connection with this, and if farmers are not careful about what papers they sign for strangers some of them will have their eyes suddenly opened when they will be presented with a note for the payment of a large sum of morey. The scheme is an old one, and yet is generally successful. Farmers ought to be prepared for it We understand that a sharper tried to work the scheme upon an Emily farmer last week, but failed. Again Under the Old Management.

The news that Mr. Edward Benson has again assumed control of the Penson house, with which he was identified for so many years, will be hailed with satisfaction by the townspeople and the general public. Extensive improvements will be made by Mr. Benson as rapidly as possible, accommodation than in the past.

Our Fire Protection System.

The improvements in the town fire departs ment are now about completed. The fire hal has been partitioned off and stalls made for the borses which will draw the salvage wag zon, and very comfortable quarters have been made for the driver of the team, who will be on daty continually during the night time. One fireman will also sleep at the hall. The wagon, loaded with about 1,000 feet of hose, stands in front of the two stalls. The harnes, which was made in town, hangs suspended over the pole of the vehicle and is fitted with open collars that class possible speed may be secured in getting the horses off when an alarm is given. The sett was designed and manufactured by Mr. John Berry and is indeed a credit to his shop. There is another sett of strong harness, to be used when the horses are required for other work, made by Mr. J. A. Williamson, which is a sufficient guarantee that the town got good value for its money. The driver, Mr. Toos. O'Nell, jr., is a young man who is an expert with horses and no doubt in a short time he will have the animals trained so that they will respond to the alarm in short order. The judges and are said to be sound and intelligent, and very suitable for the parpose. One was wood, and the other from Mr. Wm. McMulan of Ballyduff There are many things required far as the expenditure has gone it seems to have been wisely and well planned, and no doubt when the town's finances will permit the any case a proper telephone fire alarm system is absolutely necessary. The system used in Peterborough is giving very good satisfaction

and is not expensive. -Captain Wal'is, well-known to all of the old residents of this section, died on Tuesday of last week, May 23rd, at his Lome in North ? ons ghan, at the ripe old age of 83 years. Ho was born in Glasgow of Irish parents, and came to this country at the age of 22 years, engaging in lumbering and other operations with John Langton (afterwards auditor-general), Mr. Dunsford, Mr. Dennistoun and several others. He built large saw-mills at Fenelon Falls and owned the steamer "Ogemah." which plied for many years upon these waters. In 1851 the de-ceased retired from business and became one of the leading citizens of Peterboro county. He

was twice married. -Sincere and widespread the regrat was expressed Thursday last in our midst when it became known that Mrs. Julia Pyne, one of our oldest residents, had passed away The decassed lady, whose maiden name was Mullins, was born in county Cork, Ireland, in 1819, the birth year of her majesty Queen Victoria, and came to Canada in 1840, settling first in Peterboro. In 1845 she met and married Wm. Pyne, then a resident of Lindsay and owner of the Dominion hotel, and resided here continuously till her death, having survived her husband 26 years.
She leaves a family of four children—Mrs.
Brady of Toronto, and Mary, John and Hannah, who reside in town. The deceased was highly esteemed by a large circle of friends in town and country, and many are the kind and generous acis related of her, the memory of which will not soon page away. Death was the result of an attack of lagrippe about two years ago, followed by general debility of the years. The funeral Saturday to St. Mary's ceme.ery was

very largely attended. Smokers Take Warning.
