Ayer's Remedies AT HAND. In a dangerous emergency, AYER'S CHERRY PECTORAL is prompt to act and sure to cure. A dose taken on the first symptoms of Croup or Bronchitis, checks further progress of these complaints. AYER'S Cherry Pectoral. Saved My Life. I have recommended it to hundreds. It is endorsed by leading physicians, is agreeable to the taste, does not interfere with digestion, and needs to be taken usually in small doses.

DAIRY, the rich hue of the golden cream and most decidedly to the thick cream that will holdly pour out on my porridge or my strawberries, cream that can be got in no other way than by shallow setting, and I have made just as much and just as good butter from shallow setting when temperature and everything else was exactly right. But that "when" tells the whole story. It is simply impossible to control these surroundings and they are not just right more than one-fourth of the time, and, therefore, we wisely take to the creamer, which does all this for us and gives us a uniform product. Still better is the centrifugal machine, or separator, as it is called, which separates the cream and milk as soon as milking is done and more thoroughly all the year round than can be done in any other way.

PATRONS OF INDUSTRY. A Well-Attended Meeting at Fenelon Falls. A successful county meeting of Victoria Association Patrons of Industry met at Fenelon Falls to make arrangements for June mass meetings, discuss blinder twine, prohibition and other questions of vital importance. At 10.30 a. m., as announced, Mr. William Manning, county president, took the chair and stated the object of the meeting amidst a large number of delegates, who were present from the various sub lodges of the county, together with a host of members of the order. The county secretary then read the minutes of previous sessions, which were favorably received and adopted, after which the roll of sub-associations of the county was called. It is pleasing to state that almost every association was prepared to respond to the same, either by delegate or alternate.
