HOW TO LOOK WELL AND FEEL WELL.
THE PLAN ADOPTED BY SENSIBLE PEOPLE.
They Use Paine's Celery Compound and Keep Up Their Strength and Vitality in the Hot Weather.

"How to look well and feel well" during the oppressively hot summer months, is a subject that should command the attention of every busy man and woman. There are thousands of business men, clerks, toiling, bustling housewives and girls employed in offices, stores and workshops, who lose all strength and vitality in the months of July and August.

As a rule, these daily workers feel ill in ordinary weather, but when the sun pours down his scorching rays after day, and when the air is heated and heavy, then all life and heat seem to depart from every-day toilers. They look pale, listless and nervous; they are irritable, languid and broken-down. It is no exaggeration to say that, "they feel worse than they look."

To those who find life a burden in summer time, we would strongly recommend the wise and unobtrusive plan adopted by more accurate men and women, who, even in the hottest weather, look well and feel well, and always escape the debilitating effects produced by a heated and impure atmosphere.

The wise, prudent and vigorous in summer use Paine's Celery Compound as the debilitating effects produced by a heated and impure atmosphere.

The wise, prudent and vigorous in summer use Paine's Celery Compound as the debilitating effects produced by a heated and impure atmosphere.
