The Wonderful Cheap Men.

No. 20, Kent Street, June 19th.

JUNE, the month of Roses, inaugurates the season for light-weight Clothing" at Reduced prices for Men, Youths and Boys. Before the June roses are all gone we expect that most of our present stock of Summer Clothing will have gone also, if sales keep on as they are doing the past two weeks. As the mercury in the thermometer ascends, the sales of our Cool Clothing ascends correspondingly, and unless you prepare for summer heat now, half your time will be spent in trying hard to keep cool. Every corner of our big store has a summer-like, hot-weather appearance. But, figuratively speaking, Gough Bros. is the Coolest Clothing House in Canada during the hot days of June-because Gough Bros.' prices are always below zero.

Perhaps We're Wrong.

We're sometimes blamed for selling things too cheap-but just no wwe're not making apologies. We're w rking for the "greatest good to the greatest number"-and the way customers crowd the store every day shows that the public is abuncantly satisfied with good things being cheap and cheap things being

What Counts.

What counts in purchasing is the comfort of knowing you made a good bargain. Look back a few years ago and compare the store of to-day with the business as you knew it then. Study the trend of values during the some period, Prices have been gradually reduced in proportion as facilities were enlarged.

Every now and then we are accused of underselling, when we merely do our duty-by you, and sell as low as we can. Dollars and cents-cents and dollarswith a leaning towards the store that gives the best values, and a disposition to trade where prices are lowest-that's prices. If we had to sell hats alone we the yard stick to measure by.

Summer Suits.

Men are apt to feel the summer heat more now than later on in the season. They need thin, comfortable Clothing them at his own price-but take them. now, and nobody wants to pay more That's one of the ways we get in our best than is necessary. Don't put off coming work. GOUGH BROS. have helped until late in the day if you can help it. Saturdays are our crowd days, when everybody's in a hurry. Better come festival we have been holding in hats the

need. Very many bargains are here for well. people of narrow means, and values are generally good all along the line.

Not Much of a Trick.

It's not much of a trick to sell Straw Hats at this season of the year, although some of the regular hat dealers may have to hustle to do it and get their fancy might have to hustle too, but we don't have to. It's as easy as looking down a well. The Hat maker usually loads up the regular Hat dealers at good, plump figures, and when he finds he has au imgeneral retail clothier and bids him take several such hat manufacturers out of a hole, and it accounts for the special price past few weeks. Perhaps we're not the When the mercury is simmering, re- "leaders" in the hat trade; but we're member that we have the comfort you the SELLERS, and that suits us just as
