Coup. ERADY printed out that one of the bycrants to the market square could be spared f.r removal elsewhere. He had seen Mr. Begbie, who said there would be no extra charge if the council would buy and lay the pipe. Cour. GRAHAM opposed the idea. I

would cost \$500 for pipe and labor and it would be cheaper for the town to pay rent. THE EAST WARD HEARD FROM A patition was presented from Jos. Sts pies and others, asking that the King-

st. sidewalk be extended out from G. W. THE WHARF QUESTION.

On motion a deputation consisting of Messre, W. Flavelle, F. C. Taylor and A F. D. MacGachen was given permission to address the c uncil. Mr. Flavelle said they were present on

behalf of the many citizens interested in river improvements. The Ontario government had made a fresh appropriation of \$3,500, and as at present proposed that sum was to be expended between the Wel-lington-st. and Lindsay-st. bridges. The majority of the citizens more deeply con-cerned thought the money could be spant to better advantage lower down so as to allow the Esturion to provincial Grant of \$8,000 on a come up. The present service was absurd owing to the distance people had to walk, however admirable in other respects. It was the opinion of boatmen and others

having proper experience that the bridges and other obstructions offered a valid reason why the Esturion or any other vessel wishing to give a first-class service could not approach the present wharf-it was all right for excursion steamers, but a li e boat could not make punctual time. He and others would like the courcil to take action with them and endeavor to impress upon the government the wisdom of ex-street frontage and the land Mr. Maunder had generously offered to donate there

would be ample wharf room. He had in-terviewed Capt. Lane, who had stated that with a wharf at the point suggested there was nothing to prevent the Esturion or any other passenger boat from giving a prompt and satisfactory service. It was an important matter—Lindsay had in Sturgeon Lake a grand heritage, and the development of traffic would mean much to the town. He felt that little difficulty would be met in getting an order in-council pissed permitting the expenditure of the money as outlined. They were all aware of the hardships and even danger attending women and children going to and returning from the present where, a d he hoped the council would see the wit-

dom of the remedy proposed.

Mayor Smyth asked some questions relative to the readway to the proposed wharf, and said the town would likely be put to some expense in connection there-

Mr. F. C. Taylor said he was not there to say where the grant should be expended, but he would like to impress upon all the importance of giving the question of the site very careful attention. Mr. Flavelle hai given the matter careful attention and was in fayor of the Bond-st. whaif, but he (Mr. T.) could not say off-hand that it was the best site.

he thought they could get the citizens interested to attend, but that was difficult -it might be better to leave the matter in the hands of 25 or 30 leading citizens to them seemed able to do him any good. decide with the council as to the site.

A long discussion followed, some councillors were of the opinion that as the grant had been made, in reply to a resolution of council, that the government would readily accede to their wish to have the money expended where it would do the

Reeve Ray pointed out that at any spot selected there would be ample room needed for storehouses and the handling of freight, and for that reason alone the present wharf was entirely unsuitable. At the foot of Band-st, there was every facility needed. The citizens had every reason to be grateful to the owners of the Esturion for the excellent service given and their efforts to trade to the town. As for the approaches to the proposed wharf, the council would be perfectly justified in making a liberal grant if necessary. The day the Esturion came up to Bond-st. would be hailed with delight by all. Finally it was decided to enlist the ser vices of the board of trade, and call a joint meeting, open to the citizens and steam-

CURED OF SCIATICA. THE EXPERIENCE OF A BRUCE CO FARMER.

Almost A Helpless Cripple - Is Again Able to be About His Work as Well From the Walkerton Telescope.

During the rast few years the Telescope has published many statements giving the perticulars of cores from the use of Dr. Williams' Pink P.lls. They were all so well authenticated as to leave on doubt as to their complete truthfulness, but had any doubt remained its last vestige would have been removed by a cure which has recently come under our personal observation. It is the case of Mr. John Allen, a prominent young farmer of the township of Greenock. Mr. Allen is so well known in Walkerton and vicinity a join ng it that a brief a count of his really remarkable recovery from what seemed an incurable disease will be of interest to onr readers. During the early part of the summer of 1895, while working in the bush, Mr Allen was seized with what appeared to him to be rheumatic Mr. Morris, rendered some choice music, pains back and shoulders. At first he regarded it as but a passing attack,

and thought that it would di-appear in a day or two. On the contrary, however, he daily continued to grow worse, and it was not long before he had to give up work shifted to his right leg and hip, where they Coun. Sootheran suggested calling a finally settled, and so completely helpless so passed would have great weight with did he become that he was unable to do Mr. Taylor said he would be willing if more than walk across the room, and then only with the aid of crutches. Of course he consulted the doctors, but none of People in speaking of his case always

> that he had passed from the world of activity, and that he was doomed to live and die a cripple. We are free to confess that this was our own view of the matter, and our surprise, therefore, can be readily imagined when some few weeks ago we saw this telf-same John Allen driving through the town on the top of a large load of grain. Great, however, as was our surprise at first, it became still greater when on arriving at the grist mill he proceeded to jump nimbly from the load, and then with the greatest ease began to unload the heavy bags of grain. Curious to know what it was that had brought this wonderful change, we took the first convenient opportunity to ask him. "Well," said he in reply, "I am as well a man as I eyer was, and I attribute my cure to Dr. Williams' Pink Pills, and to nothing else." Mr. Allen then gave us in a frank manner, the whole story of his sickness and his cure, the chief points of which we have set forth above. After consulting two physicians and finding no relief, he settled down to the conviction that his case was a hopeless one. He lost confidence in medicines, and when it was suggested that he should give Pink Pills trial, he at first absolutely retused However, his friends persisted, and finally he agreed to give them a trial. The effect was beyond his most sanguine expectations, as the Pink Pills have driven away every trace of his pains and he is able to go about his work as usual. As might be expected, Mr. Allen is loud in his praise of Pink Piffs, and was quite willing that the facts of his case should

Disease is an effect, not a cause. Its origin is within; its manifestations without. Hence to cure the disease the cause must be removed, and in no other way can a cure over be effected. Warner's SAFE Cure is established on

just this principle. It realizes that 95 Per Cent.

of all diseases arise from deranged Kidneys and Liver, and it strikes at once at the root of the difficulty. The elements of which it is composed act directly upon these great organs, both as a food and restorer, and, by placing them in a healthy condition, drive disease and pain from the system. For the innumerable troubles caused by unhealthy Kidneys, Liver and Urinary Organs; for the distressing disorders of Women; for all Nervous Affections, and physical derangements generally, this great remedy has no equal. Its past record is a guarantee for the future.

Although the weather was anything but pleasant, a fairly good audience filled the Assembly hall of the Collegiate last Friday evening, it being the occasion of the Collegiate Institute Athletic Association concert. Mr. J. C Harstone, principal, on behalf of the association thanked the pecple for turning out and appropating anything the student undertook to do. The first number on the programme was a plane duet by Misses McDonald and O'Leary, which was very well received; next the speaker and sergeant-at-arms walked in, declaring the famous mock psr. is ment open. The speaker of the house called on the clerk to read the minutes of last meeting which were read and on called on the clerk to read the minutes of last meeting, which were read, and on motion were adopted. Then several motions were made, followed by some able discussions. A bill was brought in ty the minister of Telescapic Observations to grant fif een million dellars to subsidize a railway to Mars; canaderable discussion arose over it, the members of the opposition, the patrons and government supporters taking part. A great deal of applauding was done throughout the session. The was done throughout the session. The glee club, under the supervision of which was highly appreciated by the audience. The girls' club swinging class next gave a fine exhibition of club swinging and fancy marching, of er which the famous tumblers who appeared at the Bleycle Carnival a week ago gave another ex-hibition. Death of a Former Collegiate Student at Toronto.

Many friends in town were shocked to

hear of the death of Walter Syer, a former student at the Collegiate here. The sad event occurred in Toronto on Friday morning at 300 Carltor-st. where he had boarded. Deceased, who was 23 years of age, was a son of Mr. Thos. Sper, a well-known farmer who lives about two and a half miles afterwards going to Bowmanville school to be near relatives. There he matricu'ated after which he attended Toronto University for a time, and later on commenced the study of medicine at Trinity Medical altogether. From the back the pains Sihoo!. When he did not present himself at the breakfast table at the proper time his landlady knocked at the door of his room spoke pityingly, it being generally thought with no effect. She became alarmed and sent up Dr. Shuttleworth, who entered the room and found his friend lying dead. There was no sign of a struggle, the face was perfectly calm and nothing which could furnish any clus as to the cause of death was visible in the room. A telegram was sent to Mr. Syer yesterday about noon, it being taken out by a messenger from Mr. A. Jewett's livery stable, as there is no line to Janetville. In the evening the pastor addressed the members of the Sons of Ecgland taking for his text James 1; 27: "Pure religion, and undefiled before God and the Father, is this, to visit the fatherless and widows in their silliction, and to keep himself unspotted from the word. There are in the text two features pointed out, the observance of which cannot but tend to draw men to God. The first is philanthropy. There is a necessity and a grandeur in caring for the wants of others. The nobility of a life lived on this principle will be better understood when we real z that it is only through this medium that we can serve God. The nearest opportunity for such service is in the home, then it broadens and includes benevolent organizations, It is, however, wider than that, and it is incumbent on men, who are all fed and otherwise provided for by God's hand, that they that are s'rong should beer the infirmities of the weak. The help of sympathy is many a time as valuable and appreciated as monetary assistance, and the kindly word is fren more acceptable than we think. The second feature, purity, is a requisite in being philanthropic in the best and follest sense. Men have to live in the world and engage in its pursuits, but are enjoined to keep themselves unspotted from worldliness, from a life of disregard for God s will, and show their belief and trust in Him. Most people feel benefitted and invigorated after drinking a cup of Tea or Coffeethe good kind-but yet many fail to appreciate the importance making a careful selection when purchasing a supply. The chances are that if a pedlar from the city happened along at the time they would put faith in his statement that his were the choicest lines to be had for the money, and would buy his nasty, adulterated stuff.

For years we have been paying special attention to the Tea and Coffee trade, and twice a year visit Montreal to attend the Sales. We buy largely, we pay spot (as', and in return insist on getting the best brands in the market at the lowest prices cash buyers can command. By so doing we are enabled so offer values and qualities that have made our Teas and Coffees household words in hundreds of homes in Victoria County.

Could we but impress upon people's minds that in nearly all cases when they buy inferior Teas and Coffees they can get the best at our store for the same money, we would be compelled to enlarge our premises in a short time; however, we are gaining customers steadily, and month by month the praises of our Teas and Coffees are sounded more loudly than ever.

Comparison is what we invite. We believe we sell the best Teas and Coffees in Victoria County; if we did not we would not say so. We believe we have exceptional advantages and that we can prove it to you.
