

Dundas & Flavell Brothers.

An Extremely Interesting Bit of Store News for Sharp Shoppers.

Most of you know that the end of the Season is four weeks away. It means more to us than to you. We have taken a sort of preliminary census of the store's stocks here and there we find a few dozens or a few pieces of goods that are the tag ends of large lots gone before. We would rather see these goods out of the way at a small loss than stored away. If you know a bargain when you see it the lots won't go around.

- 3 doz. Ladies' Cotton Vests, worth 30c, for 25c.
- 10 doz. Ladies' Black Cashmere Hose, worth 35c, for 25c.
- 20 pieces 45 inch All Wool Serge, worth 45c, for 35c per yard.
- 30 yds. of light and dark Colored Delaines, for 25c per yard.
- 100 yds. of 60c and 65c Union Carpet, reduced to 50c.
- 100 Gent's Neck Ties, all kinds, worth from 35c to 75c, all at 25c.
- 10 dozen Gent's Black Silk Finished Shirts, worth \$1.10, sale price 88c.
- 100 yards of 60c and 65c Union Carpet, reduced to 50c.
- 100 Gent's Neck Ties, all kinds, worth from 35c to 75c, all at 25c.
- 10 dozen Gent's Black Silk Finished Shirts, worth \$1.10, sale price 88c.

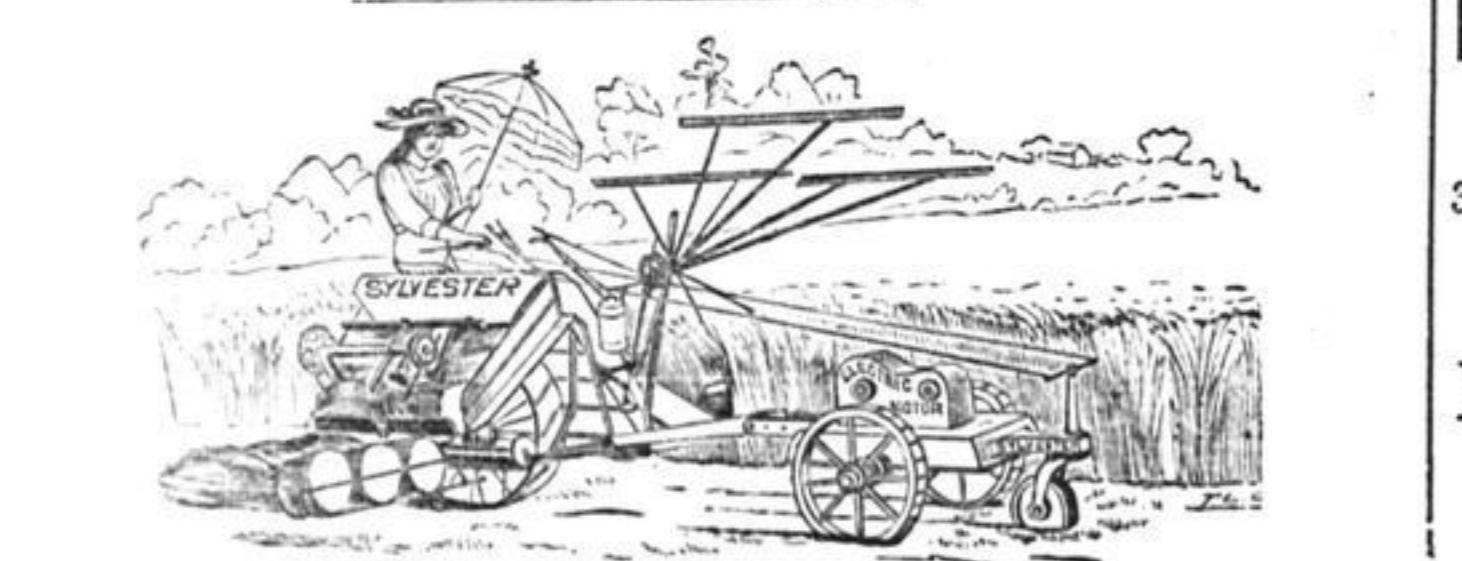

Everything on this list is now in stock, and will be sold just as we have them advertised. There's no humbug about these prices, and we're always willing to show any of the goods mentioned.

Sylvester Bros. Manufacturing Co.

POINTERS FOR THE FARMERS

THE SYLVESTER Agricultural Implement Works commenced operations in the year 1870, now nearly thirty years ago, and we are still energetically pushing on our work and yearly enlarging and increasing our facilities for the manufacture of our goods, so as to enable us to meet and satisfy the growing demand. The unscrupulous tactics of some combines in our line of manufactures, who have inspired their agents to prophesy the downfall, not only of ourselves, but of others who, like us, refused to enter the combine, have not been successful in driving us to the wall. These tutored agents have gone so far as to shed hypocritical tears over the poor farmers who are buying implements from a firm from whom they would not be able to get the repairs, and who, according to their inspiration, must soon go out of business. This line of opposition is only worthy of mean men, and we leave them to the consequences of such tactics. If the combine were ten times as strong we propose standing out and doing a legitimate business in our own way. The farmers of Canada know whether the combine was made in the interest of the farmer, or whether it was made to enable the combines to squeeze a larger price for the goods, and to keep the price of the manufactured goods—a fair field and no favor; we meet competition by bestowing greater energy in making use of the most approved appliances, exercising more rigid economy, and always giving to our farmer friends the best goods at honest prices. Our trade on these lines has grown and increased so that we are now in a position to furnish every line of agricultural implement of the very best qualities at a lower figure than ever before.

We herewith give you a few of the thousands of similar testimonials which we can produce to testify to the merits of our machines from the farmers who are using them throughout this and other provinces. If the coming season finds you in need of a Binder, Mower, Sulky Rake, Pea Harrower, or Plow, single or two-furrow, and you buy a SYLVESTER, you will be well-pleased with your selection. More than that, we predict you will bear testimony with the many others who are using them, that they are the best on the continent. It is in the actual work of the Machines themselves in the field that the right to this claim is exemplified.

DONNEVILLE, May 4th, 1896.
GENTLEMEN.—This is to certify that I purchased a Light Steel Binder from the Sylvester Bros. Mfg. Co. in the summer of 1895, and have cut eight crops with it, and done the cutting on two hundred acres with it and it has pleased me beyond expectations. It never cost me anything for repairs and it is in good condition yet.—Yours truly,
THOMAS LUCAS.

EMILY, May 6th, 1896.
GENTLEMEN.—I purchased a 12 Hoe Drill from your agent the spring of 1890, and am sowing the second crop with it, and find it a first class drill in every respect; it is a very accurate sower, and of very light draft. Would advise any one wanting a first class drill to buy the Sylvester.—Yours,
EDWARD CLANCY.

EMILY, May 6th, 1896.
GENTLEMEN.—I got a 10 Hoe Drill from your agent this spring and am more than satisfied with it. I did not think that there was a drill made that would sow as correct as it does. Have sowed all kinds of grain and grass seed with it, and have found it very correct and a great machine to work up the ground, and draws very light. It is a first class machine in every particular.—Yours,
DAVID MULCAHEY, Downsville.

SYLVESTER BROS. MFG CO.

Canada Life.

A Peterboro Example

Dr. Yelland, who died so suddenly a few months ago in Peterboro, held a policy in the Canada Life, the particulars of which are given below:

\$5,000 Ordinary Life.	Age 22.
Annual Premium.	\$98.00.
Bonus addition to Policy.	\$1,082.50.
Total Cost for 10 years.	\$980.50.

Balance of Profit over cost of Insurance, \$202.50

The above figures simply mean that in addition to the face value of the Policy, viz.—Five Thousand Dollars.—The Canada Life has returned every premium paid for carrying the Risk during the ten years, together with the further sum of \$202.50 or, in other words, has given back all premiums paid, with Compound Interest at the rate of over 3 per cent. per annum in addition to the \$5,000.

Watch Repairing Is Our Business

and we give careful, painstaking attention to it. We give special attention to the repairing of fine watches—the kind of Watches that need extra careful adjustment. We try to have our work give such satisfaction as will win the confidence of all who leave their Watch Repairing in our hands. We want you to feel that when you leave your Watch with us for repairs the work will be done to the best of our ability and in a competent manner. It is our ambition to add to the reputation we think we have in a small measure already established, of doing honest, thorough Watch Repairing.

COMMUNICATIONS.

Trim the Trees.
(To the Editor of The Post.)
SIR,—I hope you will pardon me for intruding on your valuable time, as I know all editors' time is valuable, but I have a grievance which I think should be righted. Being of a religious turn of mind at times, I generally go to service on Sunday evening, and despite the rain last night, following my usual habit, I proceeded to church. I found it exceedingly disagreeable, having to bend almost double in order to pass some places where trees growing inside the fences of some of our citizens' residences extend their branches across the sidewalk at just sufficient height to slap you in the face if you do not bend low enough to crawl under them. Now, sir, I think that the property owners, who have trees thus extending over the walks, should have enough foresight for the comfort of pedestrians, to trim these branches, or if they themselves have no overseer should have his men do it, and save passers-by the inconvenience of bending double to escape being slapped in the face by wet dripping branches.—Yours, GRUMBLER.

Lindsay and the Str. Estorion.
(To the Editor of The Post.)
SIR,—I attended the meeting held in the council chamber on Monday evening last to discuss the wharf question, and noticed that Mr. Boyd's steamer, the Estorion, came in for considerable criticism. Both Capt. Crandell and Mr. Thos. Sadler stated that she is a very old boat, draws too much water, and in the natural course of events should be replaced in a few years, hence it would be unwise to go to any trouble to provide her a wharf. Both these gentlemen should know, and no doubt they do know, that a wharf built on the Estorion would be well looked after, as the Estorion undoubtedly is, should be good for at least 30 years, hence the Estorion may be considered as a permanent fixture on the river. I objected to principally was that no value was placed upon the excellent service given Lindsay by Mr. Boyd, and the security for the Estorion left in consequence among our merchants. I venture to say that there is not a store-keeper in town who does not prepare for customers when the Estorion comes, and the Estorion is due. Some of the speakers laid great stress upon the inconvenience of people living at Sturgeon Point having to walk to and from the lower wharf, but one merchant said a word about making things easy for their customers from Boboyson.

It is pretty well understood that Mr. Boyd is making no money out of the Estorion; true, there is a heavy traffic during the holiday season, but the profits made are taken up by the cost of running the steamer in the early spring and till the ice forms in the fall. The people of Lindsay have become used to the prompt, comfortable service—something they never enjoyed till Mr. Boyd gave it to them. Let us be grateful for the excellent service given Lindsay by the Estorion, and let us not be misled by those that are not built, nor likely to be built.—Yours, FAIR PLAY.

To the Chairman of the Street and Bridge Committee.
(To the Editor of The Post.)
SIR,—As our revee is evidently too busy to answer my question about the Curran bridgespill, whereby we lost 200,000 dollars, it occurs to me that the chairman of the streets and bridges committee might spare a little time from his study of domestic theology and give his attention to the Curran bridgespill. I have no confidence that he will answer this enquiry, as it was only two years ago he raised a terrible row in the council, and quite properly too, because the town undertook to spend \$97 in building a shelter at the upper wharf which was in a way to assist Captain Crandell and Tommy Dodd, with Hurley & Brady thrown in. Well, \$97 is not much, but public money must not be diluted to assist private enterprise, and Mr. Touchburn wants a million.—Yours, the unjustifiable use of this amount.

Here is the Frederick bridge case in a nutshell: Messrs. Gibson and Temple want a million.—Yours, the unjustifiable use of this amount. Here is the Frederick bridge case in a nutshell: Messrs. Gibson and Temple want a million.—Yours, the unjustifiable use of this amount.

VICTORIA CHEESE BOARD

THE FIRST SALE OF THE SEASON HELD WEDNESDAY.

Five Buyers Present—1,040 Boxes Boarded and Sold at 6c, an Eighth Better Than Peterboro.

The first business meeting of the Victoria county cheese board for this season took place in the council chamber last Wednesday and proved very satisfactory indeed. Mr. Thos. Robinson, president, Mr. John S. Cruess, vice-president, Mr. F. Sandford, treasurer, and Mr. J. Curtin, secretary, were present, also the following salesmen: J. Snelgrove, Star factory; N. Campbell, Lorneville; T. Perkins, Cameron; E. Sanderson, Wainfleet; R. Broome, Field, Cambridge; J. S. Cruess, Mariposa; D. Sinclair, Cambray; J. Methers, Curryville; B. Irvine, Janesville; E. Sanderson, Fenton Falls and North Verulam; J. H. Moore, North Ops; E. Shine, Maple Leaf; A. Morrison, Kilmont; T. Calvert, Reabro; and J. L. Reid, Boboyson.

In all 1,040 boxes, comprising the last half of May make, were boarded by the following factories:

Star.....	92
Lorneville.....	45
Cameron.....	63
Dunlop.....	45
Mariposa.....	45
Field.....	45
Cambray.....	21
Janesville.....	20
Fenton Falls.....	20
North Verulam.....	70
Valentia.....	20
Maple Leaf.....	35
Reabro.....	20
Boboyson.....	60
.....	144

The buyers present were Messrs. F. Sanderson, J. S. Cruess, and J. Curtin. President Robinson said he was glad to see such a fine turnout. Four factories were unrepresented but salesmen were to be hand at the next meeting. He was also pleased to see that several new factories had joined the board, and trusted the sales would be conducted in a manner to please the new comers. He had attended the meeting of the Peterboro board on Tuesday, but the sale was over when he arrived. He was told they had no room for any more factories; at any rate it would be impossible for Victoria county salesmen to attend the Peterboro board unless the sales were conducted in a manner to please the new comers. He had attended the meeting of the Peterboro board on Tuesday, but the sale was over when he arrived. He was told they had no room for any more factories; at any rate it would be impossible for Victoria county salesmen to attend the Peterboro board unless the sales were conducted in a manner to please the new comers.

On Monday, June 1st, there was a large meeting at Lorneville. Mr. Hughes and Mr. McLaughlin were present, and by the courtesy of Mr. McLaughlin he and his friends were given one hour and a half. His speech was a long harangue of statements, not backed up by a figure or shadow of proof. He took the ground that he was opposed to the sale of the Victoria factory, and that the sale of the Victoria factory was a mistake. He was very successful in exhibiting to the audience his crookedness. At the close of his speech, in reply to a question as to his views on prohibition, the major declared the audience by deliberately asserting that he had never taken a glass of intoxicating liquor. Mr. McLaughlin's speech Mr. Hughes abused the courtesy extended to him by continual interruptions, shouts of "No more!" and "No more!" and his conduct he was assisted by a few drunken rowdies who appeared to have a purpose in their racket, and made the balance very unpleasant indeed. Mr. Hughes made an extraordinary effort to break up the meeting when Mr. McLaughlin was reading extracts from the Victoria factory report. He led, made it difficult for the audience to hear. The leading conservatives were entirely disgusted with such interruptions, and a number of them who were before the meeting, and who were afterwards strongly in support of Mr. McLaughlin. This is a plain statement of the conduct of this meeting. Whatever compliments are paid to Mr. Hughes, he was really the leader of the disturbance and entirely expelled by the report of the meeting that he has himself given to the Victoria factory.

At Balsover, June 2nd, a crowded school house was addressed by James Dickson, Mr. McLaughlin and Mr. McLaughlin. The speakers were complimented by many strong conservatives at the close of the meeting, and it was generally stated in the Victoria factory report that Mr. McLaughlin in Edon stated that he had never heard anything that seemed to him so near to what he believed to be true and right. There are great prospects for the liberal cause in this division.

At Kirkfield, June 3rd, Dr. Blanchard, James Dickson and Mr. McLaughlin addressed a very fine meeting at Kirkfield. The hall was filled with ratepayers, and the audience most attentive. Mr. Blanchard gave a telling speech on the school question, thoroughly showing up the duplicity and double dealing that was practiced in this constituency; how the major, in his death struggle, in Protestant sections was appealing to the Orangemen to save him, and endeavoring to play upon the prejudices of the Catholics, and how he was really the leader of the disturbance and entirely expelled by the report of the meeting that he has himself given to the Victoria factory.
