LINDSAY FRIDAY, JUNE 12, 1896. CAMPAIGN NOTES.

WHAT THE CANDIDATES ARE DOING.

Messrs. McHugh and Stewart at

Perhaps it is not saying too much that in the history of political meetings ever held here by either party, never was there a more orderly and appreciative audience than attended the reform meeting at Omemee Friday night. Many ladies were

present, including Misses Thornton, Eiwards, Taempson, McPherson, Rutherford, Mrs. T. M. Quade, Mrs. F. McQuade, Mrs. Cochrane, Mrs. Hayes and others. The attentive listening given to Mr. Geo. McHagh and Toos. Stewart, as remarked by many, was equal to any devotional church meeting or any prominent lecture. The Bradourn hall was well ventilated and lighted for the occasion. Dr. Thompon was unanimously elected chairman, which position he filled admirably, being Mr. McHagh spoke for about a hithour, awelling on his position as a honer and a loyal resident and native of thecounty of Victoria, and although differ-ing in religious views from many in this park yet he hoped never to allow himself nbecome biased or wound around by any puricular class. Everyone appeared to appreciate the hones', candid and straightharty applicase. A chance was then given D . Vrooman's men to come on

Thou Slaward then began his address, which held the audience spellbound for over anbour and a half—, and then people were slow taleave the hall, which was crowded. He dwelt ably on the school question, twill term and all other issues of the day-paying the blue book and other documents there to back up all his statements, and offered to open them up to anyone present, but no one come forward to eranine. Many old-time conservatives,
who have not been reading or looking into
matters, only going by their party's opinions, were astounded at what they heard.
Mr Stewart's explanations were so clear, emicit and straightforward that our oldest and most industrious farmers and others say 'I am at a loss how to vote; if I vote at all I will support Mr. Mowat and the Laurier government.

id inst. The meeting was called to order

Dr. McAipine, Lindsay, was the first maker. He began his remarks by craving the indulgence of the audience, stating that this was his first appearance on a public platform. This statement was a shopper, seeing that Dr. McAlpine has ired out more audiences in this riding than any other tory politician in town, with one solitary exception. The doctor said he was glad to see so many electors present, all good supporters of a good govenment. Not quite all, however, for he saw one grit heeler present who was a ollower of George McHugh, and he hoped o get a situation through McHugh's innence. - This statement of the doctor's was a wet blanket to some of the audience, e imply that McHugh's indence was to be with an incoming liberal government. Continuing, the doctor said he supposed they had all heard of Mr. McHugh's speech in Lindsay, in which he (the doctor) was charged by Mr. McHugh

that as Mr. Meliugh was a Catholic, Protestants ought not to vote for him. Dr.
McAlpine denied Mr. McHugh's charge,
and he denied that Mr. Duncan Ray, who
was also so charged, had been guilty of
the charged offence, and he defied any
man to come for ward and prove that they
had done so. George McHugh had gone
through One the doctor said, and accused brough Ops, the doctor said, and accused Mr. Robert Bryans of having brought Margaret I. Sherpard Into Lindsay during the last provincial election, but this accu-sation was untrue. Mr. McHugh had constarting the riding asking Catholics to rote for him on account of his religion, and tried to work on the sympathy of Prohad tried to work on the sympathy of Prolestants by stating that he was opposed
followed rolls on grounds. Such conduct
on Mr. Motingh's part came with a bad
grace from a man who charged him with
sales the religious cry against him.
Catholies, the doctor said, are gaining too
great a hold in Canada, and are getting
the upper hand, and it bahooved Protecleats to be on their guard. This country,
the doctor said, was a good country, and
the government had done a great deal to
benefit the people and deserved a loyal and
generous support. The doctor finished his
lamaras with a few words about the tariff.

The chairman then called on any sup-porter of Mr. McHugh present to take Mr. Sam McGill, the grit heeler men-tioned by Dr. McA'pine, rose in reply to the invitation. He said he had not come in there prepared to speak, but being present, he could not help saying a few words in reply to the slanders uttered by Dr. Mc-Alpine. It was a slander to say that Geo.

and superannuation.

The Mt. Horeb meeting was a fizzle from a conservative point of view. The older resident, and presumably the abler speaker, Dr. McAlpine, abused George McHugh and Catholics generally, while Mr. Boxall praised George McHugh and spoke for

Dr. McAlpine put himself on record as the friend of Tupper and the Remedial bill, while Mr. Boxall, speaking for Dr. Vrooman, in his more recent inspiration, denounced the Remedial bill and pledged the condidate, on this question, as against Sir Charles Tupper.

The meeting was the natural outcome of the absurdities and inconsistencies of the bery, well represented by the Tay Canal, conservative party. Sir Charles Tupper is of which Sir John Macdonald said "If it pledged a hundred times to pass the Remedial bill, while Dr. Vrooman, hoping to gather a majority from all quarters, has to enlist such opposing elements as Mr. James Boxall and the notor ious Dr. McAlpine.

The Tory Meeting at Jackson's Last Friday Night. The meeting at Jackson's schoolhouse Friday night in the interest of Dr. Vrooman

was a very orderly one, and very satisfactory to the liberals present. Dr. McAipine and Mr. Boxall appeared for Dr. Vrooman, while Mr. Robt. Kennedy and Mr. Thos.

would never consent to have a French premier, and twitted the reformers with having no settled policy. They had four or five planks in their platform, several of which had been stolen from the tories—in fact it was a kaleidoscopic affair, and appealed to the farmers, manufacturers, and other classes on different lines. The policy of Sir Richard Cartwright and that of Mr. Laurier were diametrically opposite

—as wide apart as the poles. He held
that free trade in Eagland did not help the farmers, as anything tending to cheapen bread was injurious to their interests. He thought it would injure Canada to introduce free trade until money was as cheap here as in England, because manufacturers could not afford to pay 6 per cent.

for loans—that was Senator Farguson's opinion. The 5th plank was Mr. McHugh's plank—he could not stand on any of the others—and he called it the dormant religion plank. Mr. McHugh has been walking that plank for some time and it is now very slippery. The Dr. then taffied the audience about the prosperity of the country—even if the price of grain was low the purchasing power of a dollar is much greater than it ever was, and his own household expenses were a haif less than they used to be years ago. They should go into mixed farming—the government had developed a market for their butter and cheese, and had established experimental farms. He had no confidence in the stability of Laurier's promises. Geo. McHugh had been placed in a tight place by his church, and he would not be able to wingle.

Mr. Brady followed and at the outset re-futed several of Mr. Flavelle's statements A meeting in the interests of Dr. Vroo-min was held in the schoolhouse, Mt. The schoolhouse the previous even-year ago Mr. Flavelle had 100,000 busheis on the evening of Wednesday, the on hand, and no doubt other millers safe side, and it looked as if the rise had \$ 8.30 with Mr. Isaac Watson in the been engineered for election purposes. It was also a fact that flour went up at the same time nearly \$1 per 100 lbs., and that two out of three farmers were buying flour at the time. As for Mr. McHugh and his slippery plank, he could tell the audience that he had never made use of the arguments

stated by the doctor, and there were many present who knew that as well as he did. (Applause.) He was not a betting man, but he would put up \$200 to Dr. Mc-Alpine's \$100 in the hands of the chairman or Mr. Flavelle to-morrow morning that the latter could not produce one reputable man to prove the a sertion he had made elsewhere that Geo. MeHugh was appealing for support on re-ligious sympathy grounds; if he won the money he would give it to the Home in Lindsay; if the Dr. won he might pocket it if he desired. He would go further—he would wager the same amount that Dr. McAlpine had canvassed on religious grounds against Mr. McHugh in Mariposa.
Geo. McHugh had too high a sense of honor to descend to such tactics to defeat an opponent. Do you agree to my offer,

Dr. McAlpine—"I can explain."
Mr. Brady said Geo. McHugh took a
manly stand—he acknowledged he was a Catholic and made no apology on that account, nor should he; he came out boldly in the face of the mandement issued by the Quebec bishops. Mr. Boxall and Mr. J. D. Flavelle would not attack Mr. Mc-Hugh on such grounds, yet the Dr., who has many Catholic patients who never yet deserted him on account of his religion, Dr. McAlpine denied that he had charged Mr. McHugh with employing the religious sympathy appeal, but he had

religious sympathy appear, but he had been told he had done so.

Mr. Brady defied the Dr. to name or produce his informant. He closed with a reference to Mr. Flavelle's argument about the price of hogs, and said at a time when hogs were selling in Toronto at \$3,25 the price was \$3,75 in Chicago. Farmers need not be afraid of the liberal policy.

Mr. Rob'. Kennedy, who followed, made the speech of the evening and carried the audience with him. He would not refer audience with him. He would not refer to Dr. McAlpine's remarks, as he had not been present at the meetings where he made the statements. Mr. Flavelle at several meetings took the ground that the real issue of the conservatives should be the N.P.—last night at Black's school Mr. John McSweyr, reading from the speech from the throne, declared that the issue should be a religious one, and took that line in his remarks. He had challenged line in his remarks. He had challenged Ludella.

When next you are buying, ask your dealer for

CEYLON TEA

and you will then have an opportunity of enjoying something really delicious. You may suit your pocket, as it is packed in four qualities, 250, 400, 500, and 600,

From Grocers and General Storekeepers.

Hear Dr. McAlpine speaking out for the rights of the Cithelies in Manifola and at the same time speaking in such a slandering and persecuting way of theorem Mediugh, a Cathelie at home who was known and respected by serviced the way of the same when the bishops of Quabeo were doing all they could be make their people defeat and the same the bishops of Quabeo were doing all they could be make their people defeat and you will then have clear Sir Daas. Tupper, who everyone knows is the most carrier and tyrandical politician that are rived in Canada.

Mr. Boxall, of Lindsay, closed the meeting. He complimented wift, McGill on his courage in lacing the famous doctor on the platform, Mr. Boxall had nothing but kind things to say of Mr. McHugh but what was favorable. He said he would not be there on the platform if he could not speak without referring to Mr. McHugh's religion. Mr. McHugh but what was favorable. He said he would not be there on the platform if he could not speak without referring to Mr. McHugh's religion. Mr. McHugh but what was favorable. He said that Dr. Vrooman was opposed to remedial legislatior, no matter what government proposed it, and would vote on this question against any government that introduced it, even the government of Sir Charles Tupper. Mr. Boxall spoke for about a half-hour, and closed a gentlemanly address by remarks on the tariff and superannuation.

The Mb. Horeb meeting was a fizzle from the wagon being labelled \$2 per bushel. silver-mounted harness, the load of wheat in the wagon being labelled \$2 per bushel. Had that glowing promise been borne out? Dr. McAlpine had advised the farmers to go into cheese making to supply the market created by the government. To-day the price of cheese is from 65 to 6½5 per 1b. The tories are now talking of the chilled meat trade, but they said nothing regarding the failure of their shipment of fruits and vegetables to England. They were making all sorts of claims on public sympathy after the fashion of the fisherman who first tries a worm and then a frog. The record of the Ontario government was a pleasing contrast to the Dominion jobisn't draining Perth, it is the Dominion alluded to the franchise act, which had been designed to create offices. The electors should be true to themselves and to the country, and if they were they would elect Geo. McHugh, whom they knew would support only what was honest and fair. He believed Dr. Vrooman was an themselves are but he appropried that he honest man, but he announced that he would cast his vote against the government under whose auspices he was trying to get elected, and he (Kennedy) did not think the electors wanted a man who was willing to "run with the hares and hunt

with the hounds." (Loud cheers). Mr. Jas. Boxall closed the meeting with while Mr. Robt. Kennedy and Mr. Thos.
Brady represented Mr. McHugh. Mr.
John Jackson made an efficient and impartial chairman.

Dr. McAlpine was the first speaker, and he had nicely launched into his customary tirade against Mr. McHugh when the advent of a Post reporter disturbed his serenity and caused him to pull in his horns, so to speak. He said the country would never consent to have a French ring to various matters touched upon by ring to various matters touched upon by Messrs. Brady and Kennedy, closed by appealing to the electors to vote for Dr. Vrooman on the 23rd.

Cheers were then given for the queer, Gec. McHugh and Dr. Vrooman, after which the large audience scattered for their homes in the midst of a heavy rain

HE WANTS OTHERS TO KNOW.

Please state in your valued journal that if any sufferer from Nervous Debility, Seminal Weakness, Lack of Energy and Ambition, Lost Manhood, Night Losses, etc., will write me in confidence, I will inform him by sealed letter, free of charge. how to obtain a perfect cure. I ask for no money, having nothing to sell. I know how to sympathize with these sufferers and am only too glad to be able to assist them. I promise everyone absolute secre-cy and as I do not, of course, wish to ex-pose myself either, I do not give my name. If you desire to get well, send stamp and address simply: P. O. Box 388, London, ONT.-ly.

Have you Thought of it. For four thousand years or more the world groaned, suffered and fumed about its corns, for there was no positive reliefno certain and painless cure until Dr. Scott Putnam gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putnam's Corn Extractor. It is sure, painless and prompt. Beware of substitutes. N. C. Polson & Co., pro-

A Squall at the Narrows. Robt. and Geo, E. Esson, with W. Shouldice, had a narrow escape recently. They had put a passenger across the Narrows, and left Lawson's landing to return, the moon shining and the and the night clear and bright. They were rounding the point of Jacob's Island when suddenly a terrific Equalicame along, and in a moment the punt was swamped. Fortunately they were not more than a hundred yards from shore and they managed to keep the punt under them till they reached land. Then they went up to Mr. Pat. Galvin's and stayed the night with him.

Good Health And a good appetite go hand in hand, With the loss of appetite, the system cannot long sustain itself. Thus the fortifications of good health are broken down and the system is liable to attacks of disease. It is in such cases that the medicinal powers of Hood's Sarsaparilla are clearly shown. Thousands who have taken Hocd's Saraparilla testify to its great merits as a purifier of the blood, its power to restore and sharpen the appetite and promote a healthy action of the digestive organs. Thus it is, not what we say but what Hood's Sarsaparilla does, that tells the story and constitutes the strongest recommendation that can be urged for any medicine. Why not take Hood's Sarsap-
