No doubt many of the pioneer residents of the Midland district will be surprised when they see the name of our firm in the papers, as we have done no advertising heretofore. Our Grocery business was established in the year 1882. Since that time we have devoted all our energies and thoughts to the building up of a first-class Grocery and Provision trade. This present season we have largely increased our facilities for doing business, our premises now being the most commodious and best equipped establishment outside the large cities.

We think we have arrived at a time when we can use the press to advantage, particularly in drawing the attention of those who have lately located in our town and county. Our experience is that it is a satisfaction to cater to people who appreciate quality, and that the consuming public cheerfully pay a fair price for a superior article,

In connection with our Grocery we have a established a Meat Market where you will always find a well-selected stock of Fresh and Canned Meats. This department is in charge of experienced city butchers, who thoroughly understand the preparing and cutting of meats and will cater to your requirements in a courteous manner.

Our stock is selected from the best importations in all lines-behind it we place our guarantee.
