The Transports Reached Their Destination on Sunday.

CADIZ FLEET AT CARTAGENA.

Death and Destruction Meted Out by the American Warships-Appalling Result of the Bombardment of Santiago-Vultures Hovering Over the Scene-Shelling

of Guantanamo. Washington, June 20 .- Officials of the War and Navy Departments agree in the belief that the fleet of transports and naval vessels arrived at Santiago de Cuba vesterday. Naval officers figured out that the ships reached their destination some time in the afternoon and they expect that the debarkation will begin this morning. Some of the troops will be landed at Camp McCalla, on Guantanamo Bay, which Lieut. Col. Huntington's gallant band of marines hold. These troops will be used in operations against Guantanamo, while the larger number will go ashore at a point or points near Santiago and participate in the attack on that place. It is said at the Navy Department that the purpose in landing the marines at Camp McCalla was to hold Guantanamo harbor for the reception of the troopships after their passengers have disembarked. The harbor furnishes an easy and safe anchorage, and with the clearing out of the enemy in that vicinity will be an ideal place for the transports to remain. As most of the transports now at or near Santiago are to be used in the Porto Rican campaign they will probably remain at Guantanamo until after Santiago has been taken.

Santiago Expedition Landed. Madrid, June 19, 7 p.m.-A private despatch received here from New York says General Shafter's expedition has landed near Santiago de Cuba, and will attack the town immediately.

THE CADIZ FLEET.

Admiral Camara's Squadron Has Arrived at Cartagena.

Washington, June 20 .- By means of the almost perfect system of obtaining information in regard to the whereabouts of Spanish vessels the Government has ascertained definitely that the Spanish reserve squadron under Admiral Camara, or rather the eleven vessels of the sixteen which left Cadiz last week, have arrived at Cartagena.

PRACTICING ON GUANTANAMO. The Unfortunate Town Subjected Further Destruction-Santiago

Harbor Entered.

Mole St. Nicholas, Saturday, June 18, 6.30 p.m.—News from Guantanamo up to this morning shows that naval operations there continue most active and with the advantage on the side of the Ameritans. Yesterday morning at 9.30 o'clock the American vessels resumed the bom: bardment of Guantaname town, and in the course of one and one-half hours threw into the town 75 shells, a great majority of which appeared to have been effective, hix of these shells were 19-inch projectiles, eight 8-inch, and the others were smaller. The men in the tree tops could see many of the shells strike in the very midst of the town, while others fell

among the shipping and commercial buildings near the water's edge, Smoke arose in dense clouds from the places where the shells fell, and it is belleved that the damage, both by the impact of the missiles and consequent conflagration, was very great. On Thursday evening the ships had thrown four 13-inch and nine 8-inch shells into the town. This bombardment began at 4 o clock and ended at 5. Much smoke and confusion were discerned in

Guantanamo during the progress. Crowds of people and troops of soldiers were seen moving about and the vessels in port hurriedly changed their anchorage.

Ventured Into Santiago Harbor. On Wednesday night the Texas penetrated into the Bay of Santiago, passed Morro Castle and poured a well-directed fire both upon that stronghold and the Castle Zocapa. This battle began about 1 o'clock and ended about midnight. There was saved.

Was very little response from the Spaniards, and such as there was did hardly lives. Of these, two women are badly any damage. Nobody was killed on the injured. Hollan, his wife and child were injured. It impring from the second American ships in any of these actions. Two Spanish officers captured on

Wednesday in Guantanamo Bay are reported to be on board the Marblehead.

Work of the Vesuvius. The news of the work on Wednesday night by the Vesuvius and New Orleans in Santiago Bay is confirmed. The Vesuvius put shells into the water to explode the mines, while the New Orleans engaged the fortifications along the shore. The Marblehead has captured a Spanish sloop in Guantanamo harbor, and made eight soldiers who were on board

prisoners. Last night the Texas again fired on Santiago harbor, and inflicted much damage upon the fort on the east shore. It is the general opinion among the naval officers that, byond the capture of Guantanamo and the possible reduction of Santiago, there will be no more large operations during the summer.

DEATH AND DESTRUCTION

Appalling Result of the Bombardment of Santiago-Vultures Hovering Over the Scene.

Off Santiago de Cuba, Saturday, June 18, noon, via Kingston, Jamaica, Sunday, June 19 .- A careful inspection of the fortifications along the crest of the hills defending Santlago harbor since the bombardment Thursday morning, shows that the American gunners spread wreck and ruin everywhere. Some of the batteries were demotished beyond repair. Vesuvius landed. The most ominous tokens of death flew from Morro Castle. The saffron flag of Spain was half-masted for several hours. The significance of this is not known. It is not customary to half-mast flags, but possibly some Spanish leader was killed by the heavy fire of the American guns, though some officers of the squadron believe that the flag was half-masted as a notification to the Americans that Lieut. Hobson and his men were dead. If such is the case they must have been wantonly murdered. The Spanish might seek to lay their death to the bombardment, but not the fortress. Neither Admiral Sampson nor Commodore Schley believe that Lieut. Hobson and his party have been

From the foretops of the Brooklyn, 200 yards distant, the men in the grounds could be noticed, but a minute later dust and flying debris would take their place, and when the smoke would clear away only a spot of red earth could be seen. Guns and gunners had been swept away. It was the most deadly and destructive bombardment of the war thus far. Scarcely a shot from the big guns of the squad-

Reconnoitering Party Got Within Range of a Blockhouse.

Off Santiago de Cuba, June 17, per the Associated Press despatch boat Wanda, Kingston, Ja., Saturday, June 18.-A hot brush between some Spanish troops and a reconnoitering party in steam cut-ters occurred at daylight this morning in a small cove west of Morro Castle. The Massachusetts' steam cutter, in charge of Lt. Parlow, entered the cove to take soundings and reconnoiter.

When well inside the inlet, a detachment of Spanish infantry opened fire upon the cutter from a blockhouse. The fire was vigorously returned by the marhad followed in. YELLOW FEVER RAMPANT.

Spaniards Say It Has Broken Out Among American Marines.

Madrid, June 20 .- According to private telegrams received here from Cuba, yellow fever is raging among the American marines encamped near the entrance to Guantanamo Bay, and several cases of the disease are reported to have occurred on the ships of the squadron. The telegram describes the heat as terrible, and says the swampy condition of the ground has prevented thus far the carrying on of military operations in the vicinity of

War News.

Madrid, June 18 .- There is a feeling of great optimism in official circles here and in the lobbies of the Cortes, owing to the departure of Admiral Camara's fleet. It is said in Madrid that it consists of over 20 ships, including auxiliary cruisers, and it is added that it has enormous mantitles of war material on board, including a mysterious new explosive. It is also whispered that the squadron, when at sea, was to be divided and to proceed to different destinations.

Ceremonies of Departure. The ceremonies attending the departure of the squadron were characteristic. The ladies of Cadiz embroidered a flag, which the Bishop solemnly blessed aboard the Emperador Carlos V., for which vessel the flag had been prepared as a gift. The prelate arrived and departed accompanied by a procession of priests and choristers and youths bearing censers. The ceremony was marked with all the pomp of the Roman Catholic Church. The choristers led the crew of the warship in singing "Mary, Star of the Sea."

Mr. Blake stepped out and read the resolutions of sympathy with the Bishop passed by the Synod the night before, and then, folding his hands behind his back, said that he had a few words more to speak. "I have never known the Synod, my lord," he began, "to have ever been so profoundly moved as it was yesterday. We have erred and come short of our duty. Discussed Divorce. The question of the re-marriage of

divorced persons split the Synod last night into two rival camps, who, after vainly trying to force through an endless number of resolutions, broke up to continue the fight in the morning. The immediate cause of the discussion was the recent Ward-Matthews marriage in this city by Rev. Septimus Jones of

the Church of the Redeemer, Mrs. Ward having previously obtained an American divorce after withdrawing her motion from the Canadian Senate. Rev. Dr. Langtry, who led the high church party (holding that death alone can dissolve the marriage tie) moved: That this Synod memoralize the Provincial Synod to enact that no clergyman of the Church of England in Canada be permitted to knowingly solemnize marriage between persons either of whom

It didn't make allowance for the innocent party; it didn't recognize the cause for divorce, as laid down by Jesus himself, and put the law of the church before the law of the land.

Rev. J. P. Lewis said that one woman in every seven in the United States was divorced, and the Canadian church wouldn't keep silent on the matter.

the Provincial Synod to authoritatively declare upon the question for the guidance of the clergy. This pleased Dr. Langtry and Rev. Street-Macklem, but, in view of the fact that the house was not ready to vote upon the question, Bishop Sweatman adjourned the debate until this morning.

Tampa, June 17.-A stampede in which several lives may have been lost occurred here last night among the horses and mules belonging to the army, corralled near the camp of the Second New York, Fifth Maryland and First District of Columbia volunteers. The camps are near the business part of the city. At midnight it could not be ascertained if any men were killed or how many were wounded. The night is very dark and the camps are in great confusion. The stampede started from some mysterious cause about 10 o'clock. More than three thousand mules and horses made a wild dash, breaking the fences of their corral and charging through the camp. Most of the men were in bed, and before they could receive the slightest warning many were under the feet of the animals. The soldiers attempted to break the stampede by firing a volley of shots, but this only made matters worse. The camps of the several regiments were de-

For hours the ships pounded the batteries at the right and left of the entrance, only sparing El Morro, where Lieut. Hobson and his companions of the Merrimac are imprisoned. The western batteries, against which the main assault was directed, were badly wrecked. One was utterly destroyed. In others many guns were dismounted, At first the Spaniards replied passionately and wildly, but impotently. Then most of the guns were deserted. Not a ship was struck nor a man injured on the American side. It is believed that the enemy's loss of

> Had Designs on Col. John Hay. London, June 17 .- In the Bow Street Police Court yesterday morning John Trodd, who shot Count Aroo-Valley, the First Secretary of the German Embassy here, was remanded until Wednesday next. The police believe that Trodd is insane, and really intended to kill an American offical and not a German, He had a notion that he had been insulted by some Americans and papers found in his belongings after his arrest show that he intended to harm Colonel John Hay the United States Ambassador, whose residence is situated near the German Embassy, Trodd mistook the latter place for Colonel John Hay's house. He found that it was an Embassy, and apparently concluded that it was the headquarters of the American Embassy.

The Horse Fell on Him. Galt, June 17,-A distressing acciden occurred here about 6 o'clock last even ing by which John Young, the seventeen year-old son of Geo. Young, this town may lose his life. He was riding a four year-old colt without saddle or bridle from the blacksmith shop, when it slippe on the cement crossing, corner of Ainslie and Main streets, and fell on its rider, The lad was picked up insensible, and as 10' o'clock last night had not regained

TWO WAYS of getting Glasses. One to go to a first cia a Optician, have your Eyes properly tested, and get what you need, The other, to go to a merchant who keeps Spectacles, make a "grad in the bag," as it were, get a pair that won't fit you (although it may seem so for the moment) and run the risk of ruining

your eyesight entirely. We are careful and accurate in our Examinations and advise you the safe and most comfortable course to pursue Examinations Free.
