

Baby's Face Solid Sore. Entire Head a Solid Sore. Had to Wear a Tur Cap. Doctors and All Other Remedies Failed. CURED BY CUTICURA.

My little boy, John Stanton, was afflicted with a sore on his face and head. The sore was a solid mass of pus and blood. It was so bad that he could not wear his cap. I tried all the doctors and all the remedies, but nothing would cure it. I was told to try CUTICURA. I bought a box and used it as directed. In a few days the sore was gone and my little boy was as healthy as ever.

SAVE YOUR HAIR by using CUTICURA. J. P. Ryley.

DEAD! Winter is dead, and I am alive to the fact that I will be bristling this spring. Time has passed and the march of prosperity has begun.

J. P. RYLEY, Victoria Planing Mill.

The Weekly Post. LINDSAY, FRIDAY, JUNE 16, 1899.

LINDSAY CHEESE BOARD. First Sale for 1899 Held Friday Morn't - 1,226 Boxes Boarded and Sold.

There was a good attendance of salesmen and citizens at the opening of the Victoria County Cheese Board, held in the council chamber Friday morning at 11 o'clock.

President Robertson, after some congratulatory remarks, asked the board to consider what action should be taken relative to prices for cheese at the Victoria Central.

The following factors were the number of boxes placed opposite the cheese being the last half of May:

Table with 2 columns: Cheese type and quantity. Includes items like Star, Lorens, Camo, Duro, Marlo, Derr, Camo, etc.

How the Bidding Ran. Mr. Fitzgerald opened with an offer of 7 1/2 c for selections; Mr. Whitton called 7 5/8 c, Fitzgerald jumped to 7 7/8 c, Whitton raised to 7 11/8 c, Fitzgerald called 7 1/2 c, Whitton called 7 3/4 c, Fitzgerald called 7 1/2 c, Whitton called 7 1/2 c.

Mr. Whitton then offered 7 7/8 c for further selections, and was again beaten out by Fitzgerald, who called 7 15/8 c, and named a number of factors, but all refused holding for 8 c.

Mr. Whitton then offered 7 15/8 c, and Red Rock, Fenelon Falls, and North Verulam and Lorens (he accepted) total 465 boxes.

President Robertson and Buyer Flavelle advised the salesmen to sell at 7 15/8 c, and so clear the board, as the price was very fair for May cheese.

This is interesting. Instructor Ward was requested by President Robertson to describe how he had found things on his first trip to the factory.

Another weak spot in the curing room—this is not the fault of the maker. It is not the fault of the maker. It is not the fault of the maker.

The return of the why was another cause of trouble; no doubt some of the interested parties would disagree with him, but such was his honest conviction based on experience.

Mr. Billingsley made a suitable reply. To be bound hand and foot for years by the chains of disease is the worst form of slavery.

Story of a Slave. To be bound hand and foot for years by the chains of disease is the worst form of slavery.

Mr. Billingsley got to the factories an hour or so earlier. Cheesemakers are blamed for much they are not responsible for. The speaker then referred to the case of a maker near Campbellford; the factory was not in proper condition; the cheese turned out so low that the patrons lost out on the maker's shares; the considerable money. They kept the amount out of the maker's shares; the considerable money.

Buyer Fitzgerald pointed out that in Peterborough there was not a single factory returning why. The verdict of buyers is that the flavor of some Lindsay cheese is not clean.

President Robertson thought there was some truth in the statement. Mr. Clum made, but he remembered the Lindsay board was getting ahead of Peterboro.

The buyers also on a former occasion made the same statement. President Robertson thought if the why was scalded before being put in the cans it would be all right.

Buyer Whitton—"Victoria cheese is fine as a rule and I don't think there is a better lot of makers in the country, but my employer says English buyers complain of the 'bucky' or 'wee' flavor." He did not wish to discuss the why of the Victoria County patrons would remember the trouble their cheese would be faultless and would command a higher price.

Mr. Calvert, of Reesor's, was experienced in the Reesor's patrons as being against the return of why. Secretary Shinn—"The why matter should have been settled at the annual meeting; contracts are now let."

Mr. Whitton confirmed Buyer Whitton's and Instructor Ward's remarks concerning the lack of care of milk by giving an instance where a patron was troubled by sour milk, and it was discovered that the why barrel was kept under the milk stand; when it was removed there was no more trouble.

The board then adjourned, after deciding to hold the next sale on Monday, June 26th, at 11 a.m.

A PACIFIC COAST WEDDING. McGlynn—hompson. We take the following from the Vancouver B.C., Province, June 2nd.

Miss Minnie McGlynn and Mr. Richard James Thompson, of Lindsay, Ont., were united in marriage yesterday at the residence of Mr. and Mrs. Robert Wallace, 607 Cordova-st. east.

The ceremony was performed by Rev. J. Reid, of the First Presbyterian Church. After the usual religious services, the happy pair and a number of invited guests were served with an elaborate wedding dinner.

The groom was attended during the ceremony by Mr. Harold Hellyer and the bride by Miss E. C. Gordon. Mrs. Wallace, at the piano, assisted by Mr. W. Welling, on the violin, rendered the wedding march. The house decorations were simple and pleasing.

Mr. Thompson is the eldest son of Mr. Thomas W. Thompson, of the well-known pump manufacturing of Lindsay, Ont. Mr. and Mrs. Thompson were taking up their residence at 805 Seymour st. They expect to be at home on and after Monday next.

The Daily News-Advertiser notes the event as follows: Mr. R. J. Thompson, of the Royal City Mills, was the seventh husband of delight last evening, the occasion being his marriage with Miss M. McGlynn, of Lindsay, age with the bride.

The ceremony was performed at the residence of Mr. Wallace, 607 Cordova-st. east, by the Rev. J. Reid, Jr., in the presence of a very large number of friends. There was a most bountiful repast and dancing was kept up till the wee sma' hours.

Recognition of Loving Services. On Sunday last Mr. J. E. Billingsley was met at his home on Durham-st. by a deputation from St. Paul's church Sunday school. The secretary made him acquainted with their errand as follows:

Mr. Billingsley—A few weeks ago this afternoon we received a great surprise by the announcement of your intended removal, so great a surprise that we hadn't a word to say, either of assent or dissent. We had grown to regard you as a good, reliable, permanent officer, of whom we were proud.

When you get this first twinge of rheumatism, get a bottle of Dr. Hall's Rheumatic Cure. It will give you a work of relief, pain and expense. Do not delay. It will cure the most obstinate case.

Halibuton & Mattawa R.R. In accordance with the request of the promoters, Victoria and Halibuton county councils yesterday despatched an influential deputation to Ottawa to press for a liberal Dominion subsidy for the line.

Police Court Calendar. Queen vs. Archibald Campbell, Geo. Milne, Robinson & Ewart, and Sutcliffe & Son, breachers of the Public Health Act. These matters were disposed of Thursday.

Queen vs. George Sharp and Wm. Simpson. This was a charge for stealing hens, the property of George Greer. As Mr. O'Leary was acting for the prosecution and requested an adjournment, the defendants having elected to defend not guilty, the case was then adjourned until Monday, the 12th inst., at 9.30. Mr. Stewart appeared for the defendants.

THE OLD WAY. Of Treating Dyspepsia and Indigestion by Dieting a Dangerous and Useless One. We say the old way, but really it is a very common one at the present time and many dyspeptics and physicians as well consider the first step to take in attempting to cure indigestion is to diet, either by selecting certain foods and rejecting others or to greatly diminish the quantity usually taken, in other words the starvation plan is supposed by many to be first essential.

The almost certain failure of the starvation cure has been proven time and again, but still the moment dyspepsia makes its appearance a course of dieting is at once advised. All this is radically wrong. It is foolish and unscientific to recommend dieting, because indigestion itself starves every organ, every nerve and every fibre in the body.

What the dyspeptic wants is abundant nutrition, which means plenty of good, wholesome, well-cooked food, and something to assist the weak stomach to digest it. This is exactly what Stuart's Dyspepsia Tablets are adapted and this is the method by which they cure the worst cases of dyspepsia, in other words they let the stomach digest its food.

Stuart's Dyspepsia Tablets are abundant nutrition, which means plenty of good, wholesome, well-cooked food, and something to assist the weak stomach to digest it. This is exactly what Stuart's Dyspepsia Tablets are adapted and this is the method by which they cure the worst cases of dyspepsia.

Your druggist will tell you that Stuart's Tablets is the purest and safest remedy for stomach troubles and every trial makes one more friend for this excellent preparation. Sold at 50 cents for full sized packages at all drug stores.

A little book on cause and cure of stomach diseases mailed free by addressing F. A. Stuart Co., Marshall, Mich.

INJURED IN A RUNAWAY. A Young Lady Thrown Out on a Stone Heap on Saturday. Mr. Bart O'Connell, and his sister, Miss Susie, of South Ops, met with a very unpleasant experience last Saturday. They were driving into town in a double carriage, and a few rods from the house the spirited team of colts were frightened by the sudden raising of Miss O'Connell's parasol.

An Operation Evaded. MR. R. A. SIZE, OF INGERSOLL, TELLS HOW IT WAS DONE. Symptoms of Appendicitis—The Way They Were Relieved. The Sufferer Now Well and Working Every Day. In February, 1888, Mr. R. A. Size was taken very ill, and was confined to his home for several weeks. We heard that he was to go to the hospital to have an operation performed, but the operation never took place, and he apparently got well again, and he has since been well.

Mr. R. A. Size is a highly respected citizen of Ingersoll, having resided here for over thirty years, and has been a faithful employee at Messrs. Parlo & Son's flouring mills for over nineteen years. When asked by a Chronicle reporter whether he would give an interview for publication, telling the nature of his disease and his cure, he readily consented.

THEY TALKED SEWERS. SPECIAL MEETING OF COUNCIL HELD MONDAY EVENING. Engineer Ashbridge of Toronto on the Carpet—He Probably by Em Pledge to Plan the Town Sewers—The Council Does not Betray Any Great Grasp of the Subject—The Engineer not yet Engaged. A special meeting of the council was called for eight o'clock at the clerk's office Monday night to discuss the advisability of securing the services of Engineer Ashbridge, of Toronto, in connection with the construction of sewers and granolithic walks. At 8:45 Mayor Walters and Messrs. Crandell, Ingle, Southern and Jackson surrounded the table, Engineer Ashbridge, Solicitor Hopkins and Commissioner Piliator Hopkins were present.

Mr. Ashbridge was asked to give an answer to a question as to whether he had any previous experience in the construction of sewers, and he replied that he had been employed by the City of Toronto for a number of years as a consulting engineer, the working out of plans and specifications drawn by him, and that he had been in charge of the construction of sewers in the City of Toronto. His experience in the construction of sewers, and his knowledge of the material to be used, and the method of construction, was such that he was confident that he could do the work in the best manner possible.

His experience in the construction of sewers, and his knowledge of the material to be used, and the method of construction, was such that he was confident that he could do the work in the best manner possible.

LOCAL BREVITIES. HOOD'S PILLS cure all liver ills. Non-irritating. Quite a number of our citizens spent Sunday at Sturgeon Point, being anxious to verify personally the reports relative to the devastation wrought by the plague of caterpillars. They say it would be impossible to exaggerate when describing the situation.

Mr. E. J. Ritchey and Ernest E. Short, (son of Inspector J. Short, this town), representing Prospect Lodge, No. 314, I.O.O.F. Toronto, were in town on Saturday making their arrangements for the big excursion to Peterborough on July 1st. Special trains are being run over the Grand Trunk via Lindsay and Port Hope. The rate has been fixed at \$1.80. A large crowd is expected.

A host of town and country friends will learn with regret that Lindsay is about to lose two of its most popular citizens—Mr. and Mrs. Mowat. Mr. Mowat has been transferred back to Peterboro, and left for that town on Monday. Mrs. Mowat, that town on Monday, and left for that town on Monday. Mrs. Mowat, that town on Monday, and left for that town on Monday.

A large and enthusiastic meeting of the Baseball Club was held last week in the council chamber, when the following officers were elected for the season 1899: Hon. president, Jas. Graham; president, Jas. Boxall; 1st vice-president, S. G. Parkin; 2nd vice-president, A. Little; secretary, T. Burke; treasurer, R. Menzies; manager, R. Hamilton; managing committee, Dr. Shier, G. Denniston, G. Richardson, A. Robinson, J. D. McKnight, A. McCreight, J. D. McKnight, A. McCreight.

M. J. Carter. Shrewd buyers who have taken the trouble to make comparisons with what is usually offered, have proved our exceptional values. All we ask is that you do the same, and remember we stand back of every sale with satisfaction guaranteed or money refunded.
