-Owing to the demands upon our advertising space many interesting items have been -Whitefish, Trout, Maskinonge and Bass always on hand at Scanes' Fish and Fruit Mar-ket, opposite Montreal bank.—15 2. -The front of the new opera house, now in course of erection, will be of pressed brick, which will give it a very handsome appear-

-Paterson & Co's. large wall sign was blown down by the gale of Friday last, and badly shattered. Fortunately no one was about at the time. —Last Saturday's market was better attended than usual. Still for a town of the size and pretensions of Lindsay the number of buyers was not up to the mark.

—Dog poisoning is epidemic in the north ward at present. A number of citizens have lost their canine friends and are vowing vengeance against the guilty parties if detected. -Mr. James Connolly is changing the roof of his Peel-st. terrace to the mansard roof form, which will add greatly to the appearance, be-sides affording more room to the tenants.

-The Columbian, Dr. McCamus' new steamer, is now about completed, and only awaits the arrival of the engines to take the route. It will take about two weeks to fit up the machinery. —A baseball match between a team from the Edison works, Peterboro, and the Salem ball-tossers will take place in the agricultural park here to-morrow (Saturday) commencing at three

-Capt. Thomas Donnelly and Mr. Edward.
Adams of Kingston, inspector of hulls and boilers, arrived in town Monday on an official visit. They have a fleet of ten steamers to inspect in this district. -Mr. Arthur Head and Master Ernest Nee-lands, accompanied by a Fenelon Falls friend, left for a trip up the Gull river waters last week. A card received by Mr. Neelands re-ports that the party are having exceptional luck

-Mr. George Berry of Minden was notified by telegraph of the serious injury to his brother Frank, which occurred by a team running away, and like a faithful friend he drove all night to reach him. He is now waiting on him at Mrs. Stewart's.

The dangerous condition of many of the sidewalks in town may be the cause of some person being crippled and result in costly law suits. Their repair should be rapidly pushed forward. A few dollars spent in repairs now will be better than hundreds of dollars given in damages later on.

—Since July 1 the limits of size for packets of patterns or samples of merchandise sent by post to all countries in the postal union are extended, and are as follows: 12 inches in length, 8 inches in width and 4 inches in depth. For packets made up in the form of rolls the length limit is 12 inches and the diameter 6 inches. —A young man named Walter Soanes, a shoe-maker, left town Friday last, and a friend named Raymond, with whom he lodged the previous night, complains that his little act of hospitality cost him a wad of \$14, which he had in his pocket upon retiring. The police have made enquiries, but without success.

—A recent fraud just heard of by our country exchanges is the butter agent, who makes contracts with farmers to handle their butter all summer at 26 cents a pound, the farmer signing a contract to ship the butter, which contract turns out to be a note for \$260. Moral—do business with the town storekeepers and give the agents a wide berth.

-Satuday evening while Mr. Geo. Conners of Ops was in the flour and feed department of Mr. Campbell's store his horses, held by his wife, being without blinkers, became frightened at her movements in arranging some parcels and dashed off, throwing the lady out upon the sidewalk. She sustained several severe bruises, but luckly was not otherwise injured by the fall. The team ran up William st. and were caught in front of Mr. Makins' foundry.

A large number of our citizens drove to Janetville Tuesday evening to attend the garden party given in the beautiful grounds of Dr. Allen, under the auspices of the Preebyterian congregation of that place. The attendance was large, and Dr. Allen and his worthy lady erted themselves—and most successfully be it said—to have everyone enjoy the evening. The Citizens' band of Lindsay was present and added much to the pleasure of the occasion by their choice musical selections.

-To learn how to get ice-cold water in places where there is no ice may be of use to our readwhere there is no ice may be of use to our readers—Wrap a jug—a porous jug—one of those common earthenware things—in fiannel—wet fiannel; wrap it all around, leaving no place exposed to the air; place it, filled with water—or with claret cup, which some sinners prefer to water—in an open window exposed to all the air there is. Keep the fiannel wet; in an hour the contents of the jug will be almost as cool as the contents of the jug will be almost as cool as if they had been iced. This is a tropical trick which tricks the tropics.

The annual meet of the Northern Division
A. C. A. opened at Geneva Park, Lake Couchiching, Friday last. Vice-Commodore D. B.
Jacques, Purser J. W. Sparrow, Robt, Tyson,
W. A. Fraser, H. F. Mackendriot, A. J O'Malley, John Agnew, also a party of five ladies, arrived Monday, and Messrs. J G. Edwards of Lindsay, and Will Read and Frank Minns of Lindsay, and Will Read and Frank Minns of Lindsay, and Will Read and Frank Minns of Bobcaygeon, executive officers, went up Thursday. The members all seem will pleased with the situation and the appearance of the camp, and a beautiful view of the lake and racing camp need not fear to do so without camp kits, as a first class mess has been established under the management of Mr. Hartley of Orillia.

cannot say, but no doubt a good many of these dangerous runaways might be avoided by due care on the part of the drivers and others. Horses are left standing untied, or with a child in the vehicle holding lines; paper is carelessly in the vehicle holding lines; paper is carelessly thrown out on the street by shopkeepers and thrown out on the street by shopkeepers and others, to be be caught up by the wind, whirled around and dashed under the horses' feet; and a dezen other things, that might be avoided, are thoughtlessly done to help on runaways. Great harm is also frequently done by well meaning people in forcing runaway horses on to the side-walks in their attempts to stop them, thereby endangering the lives and limbs of pedestrians. -Tuesday afternoon the steamer Dawn o Lakefield, Capt. Bottum, came into port, and the crew, and after making all tight and snug on board, went asbore to await the arrival of on board, went ashore to await the arrival of the eight o'clock express. About 8.30 a bus and several hacks drove rapidly down to the dock, from which a party of twelve gentlemen alighted, each carrying odd-shaped cases, covered with oilcloth, in addition to a number of other with oilcloth, in addition to a number of other parcels. After several hails the boat in the offing tripped her anchor and stood inshore, when ing tripped her anchor and stood inshore, when the party embarked hurriedly; and five minutes the later the craft had rounded the first bend in the

Excursion Notes. -The members of Graham's (Ope) and Cambray Methodist churches excurted to Bobcaygeon park Wednesday per str. Alice Ethel and palsee barge. A large number enjoyed the sail and the day was pleasantly spent rambling about that romantically situated fishing resort. The annual excursion of the Cambridge st.
Sabbath school took place Tuesday to Bobcaygeon Park, per steamer Alice-Ethel and palace
barge. Though the morning was somewhat
threatening in appearance a very large number
took the trip and spent a most enjoyable day.

On Morday an excursion under the auspices of the Sons of England of Orillia came in by train and were taken to the Point by the Crandella. About 175 were on board, and quite a number remained in town to witness the lacrosse match between the Orillia and Lindsay

The Rev. N. Hill has just returned from Cannington, where he had a very pleasant visit among old friends, and where he preached last Sunday.

The Rev. J. Totten delivered a most interesting and instructive lecture on character building in the Queen-st. Methodist church, under the auspices of the Epworth league, on Monday evening last.

Rev. J. W. Totten of Cannington preached Sunday morning and evening in Queen-st church two very powerful sermons. The evening discourse was particularly strong, and was taken from the parable of the prodigal son......At an after meeting, held at the close of the evening service, about a dozen stood up to signify their intention of leading new lives.

The Rev. Newton Hill presched a sermon to the Orange Prentice Boys and True Blue Societies of the town in the Queen-st. Methodist church Sunday afternoon, 10th inst. The church was altogether too small to hold the large crowd that congregated to hear the able sermon, which was one of the best that has ever been delivered to the order in this town. A large collection was taken up, which was handed to the ladie's aid. the ladie's aid.

Sturgeon Point Notes. -Guests and cottagers will unite in holding another hop this evening (Friday). -Mr. M. O'Brien, headmaster of the separate

school, Lindsay, and Mr. M. Corkery of Peterboro, have reated Mr. Frank Goodwin's pretty cottage for a couple of weeks, and have installed their families therein. —A whist tournament took place here Wednesday between the Lindsay and Sturgeon Point members of the whist club. Play issted all afternoon and well on towards midnight, Lindsay winning by four points.

—Some fine catches of fish have been made lately by guests of the hotel and by cottagers. Mr. James Hamilton still holds the record of being the most successful fisherman among the residents; rarely a morning passes but he returns home with a fine maskinonge.

The following guests are now registered at Sturgeon Point hotel: Jno. Eakins, Miss Louisa Eakins, Miss Stone, Millbrook; D. Burke Simpson and wife, Mrs. Simpson, Miss Simpson, Bowmanville; Dr. Simpson, Lindsay; B. Ostrom, wife and child, Miss ida Powell, E. D. Powell, C. E. Powell, Louisville Kentucky; Mrs. J. B. Pearson and family, Fred Angus, Toronto.

Sturgeon Point residents may find the following "recipe" very useful during the season A friend of ours says:—"Having had years of of torment with ants, both black and red, we lighted on the following remedy, which with us has worked like magic: One spoonful tartar emetic and one spoonful of sugar mixed into a thin syrup. As it evaporates or is carried off, add ingredients as needed. A sicker lot of pests would be hard to find. Whether they impart the result to home firm or whether they are all killed I know not. Certain it is they do not pay us another visit. For ants on the lawn, a spoonful of paris green cut with alcohol and made ful of paris green cut with alcohol and made into syrup with sugar and water can be put on pleces of glass or crockery—covered from domestic pets—and the slaughter will be satisfactory."

On Friday last the steamer Crandella was church Sabbath school, with their parents and friends, on their annual outing. The excursion was held to Sturgeon Point and Fenelon Falls. and was largely attended. When the steamer called at the Point about four on the return trip the western heavens were very dark and threatening, but Capt. Crandell hoped to reach Lindsay before the storm broke. Just as the parents looked up their truant offspring. This caused a delay of some twenty minutes, and in the meantime the sky had assumed an unusual bore swiftly down upon the wind, their edge before, and was near the mouth of the river when the Crandella forged out from the wharf and, with a full head of steam started on her race with the storm. The delay at the Point, however, had been too long—when near the second lighthouse the gale burst upon her with tremendous fury, and in a moment all was confusion among the ladies and children who crowded the upper deck. The fierce wind blew crowded the upper deck. The fierce wind blew of the deck, and the boat careened over until is was difficult to maintain a footing. In the height of the excitement a blinding blast of lightning occurred, followed by a ripping and tearing noise, and the next moment a portion of the hurricane deck was torn off, and the tin sheeting was curled up like paper and flung over the wharf occasioned much surprise and apprehen-sion among those who had friends on board. workmen and conveyed home, where Dr. Burrows set the wounded timb and made him as com ortable as possible.
