Paterson & Co.

OUR FOUR DAYS SALE

Which closes Saturday night has been the most successful we have ever held. Our store was crowded from the time we opened in the morning until 10 *o'clock in the evening.*

We do not consider we are criminal law breakers, but we had to keep the store open at night, the pressure was so great we could not close our doors.

Now, friends, if you want Genuine Bargains attend this sale. We will have our fine store packed with the Cheapest Goods in Town for To-morrow.

If any of you are busy with the harvest don't leave it through the day but come in Saturday night; we will manage to wait on you, though our Store is always crowded. People know that when PATERSON & CO. advertise any cheap Goods they always have them. We have built up as nice a business as there is in Lindsay on this principle.

Now is your chance of a life-time. Attend this Sale. Goods Slaughtered in every Department. The Prices are for this week only. Don't miss the

SYNDICATE STORE,

if you are in need of Dry Goods.

Narrow Escape.

Tuesday night Johnnie, the eleven year old son of Brakeman Michael McCarthy, who resides in Gilliogly's terrace, came near losing his life. He had accompanied his parents on the railway picnic to Jackson's Point, Lake Simcoe, and on the return trip left his mother and strolled through the cars, chatting with friends and playmates. When Lindsay was reached at a late hour he was missed, but as he had been seen on board when the train stopped at Manilla Junction it was thought possible that he had been left behind or had been coaxed to remain by friends of the family who left the train at that point. Still the parents had misgivings that all was not right, and early Wednesday morning an engine and van was placed at the disposal of the father and a friendly driver, and they ran back over the line, whistling at intervals and keeping a sharp lookout for they knew not what. When about two miles west of Mariposa station they noticed a hat being feebly waved from a fence corner, and stopped to investigate. They found the poor little fellow lying huddled up and barely able to move, the effort of waving his hat to arrest their attention having caused him intense pain. He was placed in the van and brought home, where his injuries were examined by a physician. His right side was found to be fearfully bruised and cut, and there are several contusions on his head as well. He states that while passing from one car to another he missed his footing, and as the train was rushing along at a high rate of speed was partly blown and partly thrown off the car. He alighted on his feet and then pitched forward on his side and head, stunning him. When he recovered the train was out of sight, and being unable to walk he crawled into the fence corner where was found. During the early morning a freight train passed, but he was too weak to make his presence known, and was compelled to lie there suffering from thirst and the acute pain caused by his injuries. The little fellow bears up pluckily, and will soon be about again if not injured internally by the fall.

Sad Drowning Accident.

Monday afternoon a most unfortunate occurrence took place at the Esturion wharf in the east ward, by which Johnnie, the five-year old son of Mr. Michaud, employed in Parkins' shingle mill, lost his life by drowning. It would appear that the little fellow, in company with the six year old son of James Berry, strayed away from his parent's residence on St. Paul-st. almost opposite the wharf, and repaired to the river's edge, where they watched some boys bathing. Later on in the evening young Berry entered his home crying, and upon being asked what was the matter said "Johnnie's in the water." The alarm was at once given and a number of neighbors repaired to the spot. The body was found by Mr. Sam Teetro standing upright in the water. All efforts to restore animation were found useless. The poor father, who had been called across the river from his employment, was almost beside himself with grief, as the boy was his especial favorite. It is not known how the accident happened, as young Berry is unable to explain clearly. No outcry was heard by the men at work unloading scows close by, and if heard would probably not be noticed, as boys go in there swimming constantly. The funeral took place Wednesday to the Roman Catholic cemetery.

Local Brevities.

—Large quantities of huckleberries are being brought into town and find ready sale at one dollar per pail.

—Whitefish, Trout, Maskinonge and Bass always on hand at SOANES' Fish and Fruit Market, opposite Montreal bank.—15 2.

—Mr. Joseph Bradley has rented a farm at Reaboro and intends moving on it in the near future. We will miss his genial face in town.

—The result of the entrance examinations will not be made known for about a week, as the new regulations require the list to be sent to the educational department at Toronto. A longer time will thus elapse before the result can be made known.

—Dr. P. P. Burrows has removed the fence from the front of his residence on William-st., put down a new slat walk and brightened up things generally, thus effecting a decided improvement in appearance. Other residents on the street might follow his lead with advantage in this respect.

—A special meeting of the board of education was held Tuesday afternoon at four o'clock to consider the resignation of Miss Marty of the collegiate staff, who intends finishing her course at Queen's college, Kingston. Her resignation was accepted, regret being expressed by the members of the board.

—Look-out for the huckle-berry picnic to Ball Lake on Tuesday, August 2nd. The steamer Crandella will leave her wharf at 7 o'clock a. m., sharp, returning at 9 p. m., thus affording six full hours for berry picking. Fare, 25 cents for adults and 10 cents for children. GEORGE CRANDELL, Master.—16-1.

—Messrs. Anderson & Nugent have effected a great improvement in their furniture warerooms by putting in plate glass, which permits their fine stock being seen to great advantage. They carry without doubt the largest and best stock to be found outside the cities.

—The following candidates from this district were successful in passing the exam. for saw log cullers held in Peterboro July 14th: Thomas Bick, W. A. Davis, Bobcaygeon; John Flaherty, George Wilson, Lindsay; M. J. Corman, Fenelon Falls; and James Bray, Kinmount.

—Mr. T. A. Middleton, agent of the Ontario Mutual insurance company of Waterloo, showed us a check on Thursday for one thousand dollars, made payable to the executors of the late John A. Fraser of Bethany, whose death occurred so recently. This company pays its claims very promptly.

—The finishing touches are now being added to the improvements that have been under way for some weeks in the premises occupied by Mr. J. A. Williamson, saddler, and by Messrs. J. H. Scotcheran, broker, and T. C. Matchett, C. P. R. agent. Plate glass, hardwood floors, etc., give the premises a very tasty appearance.

—The superintendent of the waterworks construction reports laying over half a mile of pipe last week. The boilers have arrived and will be placed in position at once. The pumps have been shipped and are expected this week. It is expected that the system will be completed and pressure put on the pipes by the 12th of September.

—The engines for the new steamer Columbian arrived early in the week, and are now being placed in position; the fitting up will take a couple of weeks. The craft is now being given the last coat of paint and presents a very handsome appearance. She is expected to make at least twelve miles per hour, and if so will be the fastest boat on the inland waters.

—Miss Nellie Bell, organist in the Queen-st. Methodist church, had an unpleasant experience last Monday evening. It being practice night she wended her way through the storm to the church and was just turning the corner to enter the door when a deafening clap of thunder resounded overhead, followed instantly by a blinding flash of lightning. Miss Bell was badly shocked by the electric fluid, which she says ran about in little balls of fire. She fainted away, but some friends carried her inside and restored her to consciousness. She is now entirely recovered.

—Mr. Henry Laidley, who lives about three miles southwest of the town, met with an unpleasant experience Thursday evening last that caused a suspension of work for a time on the waterworks system. While driving home about half-past five his horses shied while passing over the narrow crossing laid across the waterworks trench west of the collegiate institute, and one of them fell into the yawning cavity, which was about five feet deep. The breaking of the neckyoke saved the other animal from following his mate. It took the gang of men, aided by block and tackle, some little time to effect the animals' release, when it was found to have been uninjured by its fall.

—The joint sub-committees of the counties of Victoria and Peterboro met at Omemee on Monday last. Dr. Vrooman, warden, and Dr. Cornwall, reeve of Omemee, were present for Victoria, and Peterboro was represented by Messrs Forster, warden, and M Sanderson, reeve of Smith. Dr. Cornwall is chairman and Mr. Edg. Pearse, county clerk of Peterboro, is secretary. The stone abutments and pier of the Forest house bridge, Bobcaygeon, will be repaired under the superintendence of Mr. Wm. Duffus, and a steel superstructure, for the supply of which the tender of the Central Bridge Works, Peterboro, was accepted, will be erected under the supervision of Mr. J. E. Belcher. The Pigeon Creek floating bridge will be put in a good state of repair under the direction of Mr. Belcher.

—Friday morning last Mr. G. H. M. Baker, local manager for the Rathbun Co., left for Stoney lake in the steam yacht Marie Louise to meet Mr. E. W. Rathbun, general manager for the firm, who with his family, Mr. T. K. Henderson, his private secretary, and Mr. W. J. Hindsman of Oswego, the company's United States representative, had arrived at Lakefield in Mr. Rathbun's private car Thursday morning, and had spent the day visiting the company's drives in Mr. Strickland's steam yacht Undine. The party reached Lindsay on the Marie Louise on Friday evening greatly delighted with their trip up the lakes and the beautiful scenery through which they passed. Their car had been attached to the evening express from Peterboro, and Saturday morning they left for Gravenhurst to inspect the mills there and spend a few days among Muskoka's favorite summer resorts.

—Messrs. J. W. McKenny and family, R. A. McKenny, J. B. Sharpe, Thos. Sheppard, E. N. Bain and J. C. Detweiller and family, who comprised the Pittsburg party quartered at the Gorham house, Bobcaygeon, for the past two weeks, passed through town homeward bound Thursday morning. They were in an ecstatic state of enjoyment over their phenomenal success with the rod and line under the guidance of the veteran punter, Charlie Gunsolus, and well they might be. Less than a week ago they and yellow bass of noble size, and they took shipped to friends at home 500 lbs. of black bass with them over 450 lbs. more carefully packed in ice, that had been caught since the date of the first shipment. For the past few years the above party have visited our lakes, and all who know them hope they will continue their periodical incursions into this portion of Canadian territory. Mr. Detweiller is the wag of the party, and kept every one convulsed by his innocent, practical jokes and witty sayings. .....Mr. Ed. Neill of this town spent several days as their guest, during which time they caught no less than 78 fine fish.

—To have "a flea in one's bonnet," according to a good old Scotch saying, may or may not have been unpleasant, but Mr. Fred. Pepper, who resides in Daly's terrace, on Cambridge-st., can vouch for the exquisite torture caused by the presence of a bug in one's ear. Wednesday evening Mr. Pepper and household retired early, but about twelve o'clock their slumbers were rudely broken by yells and frenzied exclamations, which on investigation were found to proceed from Mr. Pepper, who was acting at intervals like one possessed. In his quiet moments he stated that he felt something in his ear and when it seemed to buzz about the pain almost drove him crazy. One of the boarders asked him to get up and dress and he would accompany him to Dr. Clarke's office to see what the trouble was. Mr. Pepper did so, and his actions on the street every few yards would have commended him to the attention of a constable had one been around. Dr. Clarke on being told of the symptoms concluded that a fly or bug had crawled into the ear, and after probing about for a time in the interior of the organ succeeded in extracting a large black bug of the "fly-by-night" species. Mr. Perper at once felt relieved, but will never forget the horrible feeling he experienced on the occasion.

Local Brevities.

—Tuesday a party of ladies and gentlemen left Cameron for the huckleberry marshes of Carden and Digby. Miss Highet, who has been visiting friends in town for some days, accompanied the party.

—Dr. W. B. Ketchum, Dr. J. W. Coe and Dr. Duncan Allen, medical health officer, all of Toronto, arrived in town Saturday en route to Stoney lake. They procured canoes here and pushed on down the beautiful chain of lakes.

—Mr. W. H. Simpson, proprietor of the well-known hotel of that name, has made some changes in the interior by which three commodious sample rooms for travellers have been added. Commercial men will find every convenience in this popular hotel.

—A garden party and concert under the auspices of the Bethel Methodist church will be held at the residence of Mr. S. Stinson, sr., on Tuesday evening next, Aug. 2nd. Manvers, on Tuesday evening next, Aug. 2nd. Rev. N. Hill of the Queen-st Methodist church, Lindsay, will deliver an address. No doubt many of our citizens will be present.

—A one-legged tramp was run in by Constable Reeves Thursday evening last for being drunk and disorderly. That he was full was beyond question, but his disorderly conduct was the result of the unmanly work of some young toughs, who cuffed and kicked the poor cripple, and then took to their heels when they saw the "cop" approaching. It is to Constable Reeves credit to add that he served the parties with summonses, and they paid up rather than appear in court. The tramp was given half an hour in which to evaporate, and he stumped westward at a rapid pace.

—Walter Soanes, the young man who skipped out recently after robbing a companion named Raymond, was located at a house in Peterboro by Chief Bell, who wired the officials there to find him. They captured their man and informed Chief Bell that he was wanted there on a charge of stealing some jewelery at the Croft house, where he had put up for a day on reaching the town. He appeared before the magistrate there on Wednesday and was sentenced to one year in the Central prison, at the end of which he will likely serve another term for the offence committed here.

—The program of races at the A. C. A. meet at Geneva Park, Lake Couchiching, opened Monday last. In the free-for-all sailing race were nine entries: D. B. Jaques, Colin Fraser, Roy Sweny, W. A. Fraser, C. E. Archibald, H. J. McKendrick, W. Sparrow, R. Tyson, and H. Ford. It was won by Colin Fraser, Jacques 2nd; time, 44 m. The second race was single blade paddling, half mile straightway. There were six entries; 1st H. Carnegie, 2nd H. Sparrow 3rd C. E. Archibald; time 1.45-12. The C.Y.C. fleet, 3rd C. E. Archibald; time 1.45-12. The third event was a combined sailing and paddling race. The entries were Roy Sweny, J. H. Carnegie, D. B. Jacques, J. W. Sparrow, H. Ford. The race was very closely contested, and was won by Ford, with Jacques 2nd and Sparrow 3rd. The canoeists are having a very jolly time of it.

Sturgeon Point Notes.

—A very pleasant hop took place at the hotel Friday evening last. Messrs Dennison and Humphries supplied the music, which was excellent.

—Mr. James Parks, one of Toronto's oldest and leading produce merchants, spent Thursday and Friday of last with Mr. James Hamilton at his beautiful cottage at Sturgeon Point.

—Tuesday a Lindsay lady spending the day here had a narrow escape from drowning. While in bathing with some friends she got beyond her depth, but was luckily noticed and rescued in time.

—Sunday last was very warm at the Point—at least for the cottagers dwelling at the East end. The west or north-west wind usually prevailing is felt in all its grateful coolness only by those evening cottages on the way to the spring.

—Mr. B. Ostrom of Louisville, Ky., and party of friends, now stopping at the hotel, have issued invitations for a "German" in the hotel pavillion, to be given this (Friday) evening. About fifty ladies and gentlemen are expected to be present.

—Mr. H. Cameron Wilson, one of the Brantford young men who who remained over Sunday at the Point, attained his 17th birthday on Monday and, as luck would have it, caught a fine maskinonge which oddly enough weighed exactly 17 pounds, and it wasn't loaded either. Another member of the party is baiting his hook for a 23-pounder.

—A Brantford canoeing and camping party, comprising Messrs. Arthur C. W. Hardy and Patrick A. Hardy, sons of Hon. A. S. Hardy; S. S. Wilkes, a R. M. college student, and E. C. Wilson, reached the Point Friday evening and remained over until Monday morning, when they proceeded on their way to Lakefield. They were delighted with the attractions of Sturgeon and Sandy Points and intend returning this way.

—Now that pheasons and other stylish equipages have been introduced by several of the cottagers the statute labor commissioners should see to it that the driveway is widened at once. To do this will mean the cutting down of some of the fine oaks overshadowing the trail, but they will have to go—room must be made for the Penelon woods, back of the hotel, will have become the "Rotten Row" of Sturgeon Point.

—Rev. Mr. Marsh of St. Paul's church held service at the Point Sunday last at 11 o'clock. A large congregation was present, who listened with pleasure to the rev. gentleman's brief but thoughtful remarks.... In the evening Rev. W. H. Emsley of Montreal, who had been holidaying in the north country, gave an able and eloquent discourse. Mr. Emsley was formerly pastor of the Cambridge-st. Methodist church, Lindsay, and is now one of the foremost pulpit orators of the Methodist church. Many old friends were glad of the opportunity of seeing and hearing him again.

Laughing Gas.

Dr. Colton of New York, the originator of gas for extracting teeth, writes J. Neelands that he has given the gas to 177,523 persons without an accident. Mr. Neelands studied this gas under Dr. Colton, and has given it to thousands of persons without pain or injury while having teeth extracted. Look out for new advt.—16-1.

Church Notes.

—Rev. Mr. Hill's subject next Sunday morning will be, by special request, "Re-union in Heaven."

—Rev. Dr. McTavish will preach in St. Andrew's church next Sunday, morning and evening.

—Rev. A. Carswell, B.A., of Cannington, has accepted has accepted an invitation to Newcastle, where he will be the curate at St. John's church.

—Quarterly meeting next Sunday morning in the Queen st. Methodist church. Fellowship and love feast at 9 o'clock in the lecture room of the church.

—Rev. A. W. Stone will occupy the pulpit of the Baptist church next Sunday, July 30th. Subjects: Morning, "Fallow fields;" evening, "Slavery rather than freedom,"

—The Rev. Newton Hill of this town and the Rev. Dr. Chambers of Toronto addressed a church meeting in the neighborhood of Stouffville on Wednesday, where both gentlemen spent their boyhood days together.

Chapter of Accidents.

—Monday evening Richard Healy, who lives in the north ward, while tussling with some companions was thrown heavily and sustained a dislocation of the shoulder blade. He is now under a doctor's care.

—Mr. Robt. Thurston of the east ward met with a very painful mishap Monday afternoon last. While helping to remove stakes from the sides of some cars he received a blow from a sledge hammer on the middle finger of the right hand, crushing it to a jelly.

—Monday afternoon last the eight year old daughter of Mr. Wm. Sibley, south ward, had her right arm broken while playing with some companions. Mr. E. B. Calkins, superintendent of waterworks construction, was close at hand and did what he could for the little sufferer till the arrival of Dr. Burrows.

—Sunday morning last Mr. W. F. Broad, veterinary surgeon, accompanied by Mrs. Broad, started to drive out to Little Britain to spend the day with friends. When just opposite the collegiate institute one side of the shafts fell on the horse's heels, causing him to rear and kick and become perfectly unmanageable. Mr. and Mrs Broad both leaped out without receiving injury beyond a few bruises, but the horse got away and smashed the buggy into stove wood. It was a rented vehicle, as his own was undergoing repairs, and Mr. B. complains bitterly of the carelessness of the livery man from whom he procured it in letting out a vehicle without carefully examining it beforehand.
