Picnic -The annual picnic of Moshier's Sunday school was held on Tuesday, June 25th, in Chas. McPhadden's grove, and it was a decided success. Moshier's public school and Sunderland Star players played a football match, which resulted in a tie, neither making a goal. Sunderland hopes to meet them soon again, and any other team that would like to have the pleasure of a game with them. READER OF THE POST.

GELERT. (Correspondence of THE POST.)

Picnic.-A large party of villagers drove out to Minden on Friday of last week to attend the school picnic held there. We understand a most enjoyable time was spent..... On Monday, the 2th inst., a school picule was held here with a large attendance. A football match was a pleasing feature the day, and all went home pleased with the day's outing. Notes.-Mr. Stephen Myles arrived

home this week from Cleveland, Ohio, where he has been visiting for the past month.....Our Orange lodge intend visiting Minden on the 12th July ..... A grand calebration is to be held in Minden on the 1st July, and also one in Kinmount.

PERSONAL.-Mr. Gec. Beggs, our public school teacher here left for his home in Cameron on Saturday last to spend his summer's vacation ..... Mr. Robt. Ritchie, late of Inglewood, Ont., returned home on Friday last ..... Mrs. A. Clarke returned home on Friday last, after visiting Stanhope friends. HOLIDAYS. - School holidays commenced

on Friday, June 28th. Five of our scholars have written on the exams. We wish them WEATHER.-We have fine weather at

present. A good shower which came last week brightened up the fields and made crops look better. SCHOOL MEETING. -The ratepayers and

trustees of Dutch Line school held a meeting on Saturday night last and again engaged Miss H. Milburn for the coming six months. We hear a lively meeting occurred ..... What about having a picnic Picnic.-A pienic under the auspices of

the Gelert Methodist church is soon to come off.

LITTLE BRITAIN.

[Correspondence of THE POST. Social.-On Tuesday evening a social or scrap eating party was held in the school room, where a large number were present. Various games were indulged in and a of \$15 be expended on the new road, good time was spent-all for ten cents.

sary of the Sabbath school was celebrated on Monday last. At 2.30 a platform meeting was held under the chairmanship of Dr. Vrooman, A large concourse of friends assembled to hear the scholars use some of their talent and to show their careful and refined training. They acted admirably: the recitations, singing, and especially club swinging, under the supervision of Miss Hudson, was greatly e joyed. The Rev. Mr. Stuart, an elequent ed. Ashton was badly bitten on the arm while in the act of trying to save his dog's life. It appears that Mr. Uptin's dog and the dog of the aforestated man began to fight; the Uptin dog, getting the better of the other, began choking him, and Mr. Ashton, thinking his dog was choked, began to open the poor brute's mouth, when he at once sprang at his master's arm and inflicted a wound which took four stitches to close. It was a bad flesh wound, but we are pleased to state that he is now doing as well as can be expected.

GARDEN PARTY.—There will be a garden party at Mr. Thomas Osborne's on July 4th, starting at 5 o'clock. A good program has been studied up, so all who can come, do so, for a good time is expected.

WELLIKNOWN NEWBURGH

the Loss of a Finger Mr. Chas, Moor of that Village wears Death's Door, but is Rescued after Dectors Have From the Napanee Beaver.

seven miles from Napanee, lives Mr. C. H. Moore and family. They are favorably known throughout the entire section, having been residents of Newburgh for years. Recently Mr. Moore has undergone a terrible sickness, and his restoration to health was the talk of the village and many even in Napanee and vicinity heard of it, and the result was that The Beaver reporter was detailed to make an investigation into the matter, Mr. Moore is a carriage maker

and while working in Finkle's factory last winter met with an accident that caused him the loss of the forefinger of his right hand. It was following this accident that his sickness began. He lost flesh, was pale, suffered from dizzlness to the extent that sometimes he could scarcely avoid falling. He consulted physicians and tried numerous medicines, but without any benefit. He was constantly growing worse and the physician seemed puzzled, and none of his friends thought he would recover. One day a neighbor urged Mrs. Moore persuade her husband to give Dr. Williams' Pink Pills a trial, and after we will surely have nothing to feed our much persuasion he consented. After a few days he began to feel better, and it no longer needed persuasion to induce him to continue the treatment. A mar- on plants and animals. vellous change soon came over him. Each day he seemed to gather new strength and new life, and after eight boxes had been taken, he found himself again a well man, Mr.

HE SEIZED HIS MASTER.-Mr. Edward Moore is now about sixty-five years of age, he has been healthy and has worked hard all his life until the siokness alluded to, and now, thanks to Dr. Williams' Pink Pills, he is once more able to work in his old accustomed way, and does not hesitate to give the credit to the medicine that restored him to health, at a cost no greater than a couple of visits to the doctor. Time and again it has been proven

that Dr. Williams' Pink Pills cure when physicians and other medicines fail. No other medicine has such a wonderful record, and no other medicine gives such undoubted proofs of the genuineness of every cure published, and this accounts for the fact that go where you will you hear nothing but words of praise for Dr. Williams' Pink Pills. This great reputation accounts for the fact that unscrupulous dealers here and there try to impose a bulk pill upon their customers with the claim that it "is just as good," while a host of imitators are putting up pills in packages somewhat similar in style in the hope that they will reap the reward earned by the merit of the genuine Pink Pills. No matter what any dealer says no pill is genuine unless it bears the full trade mark, "Dr. Williams' Pink Pills for Pale People," on the wrapper around every box.

[Written for the W. C. T. U. Column.] It is estimated that a capital of \$1,200, 000,000 is invested in the liquor trades. The friends of the traffic tell us a great number of persons are given employment by the manufacture and transportation of the liquor, and they are ever ready with the question, "What shall those people do if the edict of suppression goes forth?" No doubt there are millions employed by the drink traffic, and prohibition would revolutionize the whole state of affairs, but that is their business, not ours. We believe their employment is a matter of choice rather than necessity.

But the anti's have only taken a partial view of the calamity. Their thoughts only centre upon the employment of those who make and handle the stuff before it reaches the lips of the drunkard. What about the employment of those who handle it after it has been stored in human warerooms? What of those who regulate the actions of the drunkard? Had we a prohibitory law to-day it would certainly cause a great reduction in the number of policemen, police magistrates, prison wardens, and court of justice. There would also be a dropping off of raw material for the skillful hands of a Radeliffe.

Again, there are the paupers produced by drink. Sir Oliver Mowat has said that the liquor traffi; produces three-fourths of all the poverty in the land. The Hon. W. E Gladstone declares that "Intemperance causes more suffering than the combined evils of war, famine and pestilence." Would it be a calamity if the pauper producing business was suddenly stopped? What would the overseers of charitable institutions do? At what should the collectors of poor rates find employment?

It has been calculated that one drunkard dies every five minutes, therefore the doclarge amount of business. Nearly two of asylums and a host of other officials be entitled to compensation if the production bands and little children to surport, would

Let Lindsny Have an Anti-Tebacco

[Written for the W.C.T.U. Column.] Recently we read an account of an Anti-Tobacco League having been organized in Toronto with a membership of seventy-six boys. Those boys were won from the tobacco habit to the side of freedom by the persistent efforts of a W.T.C.U. worker. The pledge cards used by the league are as follows:-"I pledge myself upon honor to abstain from using tobacco in any form until I reach the age of 21 years, and to try to get all other boys to agree to do the In the pleasant little village of Newburgh, on the Bay of Quinte Railway,

We believe such a league could be advantageously organized in this town by our local union. It is a pity to see small boys, (and such may be seen any day upon our streets) smoking eigarettes or chewing tobacco. By an act of the legislative assembly of Ontario it is unlawful to directly or indirectly sell or give tobacco, cigars, or olgarettes, to minors (boys under 18 years of age), yet very small boys can and do get and use the prohibited luxury.

A suggestion was made some time ago that the union would be doing right to employ a detective and have a few of the law-breakers brought before the magistrate. No doubt the union could take action as suggested, but the members prefer working along the line of moral suasion, The boys should be educated to a higher plane than that occupied by the whiskey sot and bar-room loafer. As a rule tobacco leads to strong drink. We know there are a few exceptions, but very few. The lowest class of humanity to be found in this country almost to a man use tobacco. There is nothing clever or praiseworthy in the art of converting the dried leaves of the tobacco plant into smoke or juice. It requires no great intellectual effort to learn to use the stuff, but it requires an intellectual effort to learn the

injurious effect it has on the system. Some people claim that they have a right to use the weed if they choose, because all things were created for man's use. "here is a use to which tobacco can very properly Like all other poisons, God created it for

Benjamin Franklin said in t:-"I never saw a well man in the exertobacco did him any good."

There are two grades of tobacco, we are

tobacco. The cheap tobacco is composed of burdock, lampblack, sawdust, coltefoot, plantain leaves, fallers' earth, lime, salt, alum and a little tobacco. What a delight ful mess for boys to partake off In the training of oarsmen and athletes tobacco is strictly prohibited, which fact proves clearly that a person's body is not in a proper condition for winning a prize if tobacco is used.

The use of tobacco in any form destroys the ability to apply one's self to study. that no person can afford to waste money upon it. Very many of those who use i have not sufficient and proper food. We urge that an effort be made at once to organize an Anti-Tobacco League in this town. Yours,- No Tobacco.

Toronto is annoyed because an alleged baseball team bearing its name, but composed of aliens, who are managed by a Rochester man, and floated by Buffalo money, desecrated the Sabbath while on a tour, by playing a game. There is no cause for alarm. The Torontonians didn't play ball on Sunday. They can't play ball on any day of the week.

Sir Mackenzie Bowell first rose to political prominence through his connection with the Orangemen, an order which has certainly done nothing to lessen the sectarian bitterness still prevalent in Canada. If that same bitterness he has helped to aggravate causes sufficient cleavage to wreck his ministry it will be a striking instance of retributive justice.

The Boston Hersld warns the crop of college graduates just turned upon the world that the most of them will find that "there is no place that wants them." Equipment is a very good qualification for the battle of life, but pluck, push and persistency are necessary to overtake dame fortune in the present strife.

Judge Davldson, of Montreal, has cut an undertaker's bill of \$153.75 to \$40, remarking "if the dead could see the useless expenditure that their funerals entailed they would think it strange indeed." As for the particular subject of the undertaker's skill, the judge said he was a drunkard and died from the effects of strong drink, and "would laugh in hi sleeve to see all the fuss that had been made over his remains." The spectacle of a dead drunkard laughing in his sleeve at the poor undertaker's profits being cut to 40 per cent. is enough to convulse a whole colony of spiritualists.
