There's a big difference in the way of doing business, Some dealers simply strive to get a customer in their store, sell as much as they can at one sale by misrepresentation, and never expect to see that customer again.

Our Plan is to Always Satisfy a Customer, on Matter how small the Profit. This method makes permanent patrons, and our trade is

largely made up of customers who have been coming back to our store year after year. What we want is to get the readers of this paper to visit our store. THE GOODS WILL DO THE TALKING BETTER THAN ANYTHING WE CAN SAY.

Perhaps We're Wrong.

We re sometimes blamed for selling things too cheap-but just no wwe're not |-Natural Wool Shirts, \$1.50. making apologies. What Counts.

What counts in purchasing is the comfort of knowing you made a good bargain. Look back a few years ago and compare the store of to-day with the business as you knew it ther. Study the trend of values during the same period. Prices have been gradually reduced in proportion as facilities were enlarged.

Every now and then we are accused of underselling, when we merely do our duty-by you, and sell as low as we can. Dollars and cents-cents and dollars- Hats at this season of the year, although with a leaning towards the store that some of the regular hat dealers may have gives the best values, and a disposition to hustle to do it and get their fancy to trade where prices are lowest-that's prices. If we had to sell hats alone we

Summer Suits.

Men are apt to feel the summer heat more now than later on in the season. They need thin, comfortable Clothing now, and nobody wants to pay more than is necessary. Don't put off coming until late in the day if you can help it. Saturdays are our crowd days, when everybody's in a hurry. Better come

When the mercury is simmering, remember that we have the comfort you need. Very many bargains are here for well. people of narrow means, and values are generally good all along the line.

Not Much of a Trick.

It's not much of a trick to sell Straw might have to hustle too, but we don't have to. It's as easy as looking down a well. The Hat maker usually loads up the regular Hat dealers at good, plump figures, and when he finds he has an immovable load left he calls in the live general retail clothier and bids him take them at his own price-but take them. That's one of the ways we get in our best work. GOUGH BROS. have helped several such hat manufacturers out of a hole, and it accounts for the special price festival we have been holding in hats the past few weeks. Perhaps we're not the "leaders" in the hat trade; but we're the SELLERS, and that suits us just as
