MEN and BOYS

There's a big difference in the way of doing business. Some dealers simply strive to get a customer in their store, sell as much as they can at one sale by misrepresentation, and never expect to see that customer again.

What Counts.

What counts in purchasing is the comfort of knowing you made a good bargain. Look back a few years ago and compare the store of to-day with the business as you knew it then. Study the trend of values during the same period. Prices have been gradually reduced in proportion as facilities were enlarged.

Every now and then we are accused of underselling, when we merely do our duty-by you, and sell as low as we can. Dollars and cents-cents and dollars- Hats at this season of the year, although with a leaning towards the store that some of the regular hat dealers may have gives the best values, and a disposition to hustle to do it and get their fancy to trade where prices are lowest-that's prices. If we had to sell hats alone we

A great thing for a man who aims to succeed is to look well. Everybody is judged, more or less, by appearance. It doesn't cost much to possess stylish furnishings if you buy at Gough Bros.

Not Much of a Trick.

It's not much of a trick to sell Straw might have to hustle too, but we don't have to. It's as easy as looking down a well. The Hat maker usually loads up the regular Hat dealers at good, plump figures, and when he finds he has an immovable load left he calls in the live general retail clothier and bids him take them at his own price-but take them. That's one of the ways we get in our best work. GOUGH BROS. have helped several such hat manufacturers out of a hole, and it accounts for the special price festival we have been holding in hats the past few weeks. Perhaps we're not the "leaders" in the hat trade; but we're
