RHEUMATISM'S VICTIMS AFTER SPASMODIC EFFORTS FOR A CURE USUALLY GIVE UP.

There is One Medicine That Has Cured Thousands After Other Medicines Had Failed—A Released Sufferer Adds His Strong Endorsement of this Wonderful Remedy.

What an innocent sounding name has rheumatism, and yet how terrible a reality to the thousands who suffer with it. Doctors agree that rheumatism results from poison of an deposits in the blood, but as to just how they can be reached and eradicated, it would seem that their knowledge fails. The usual treatment is a long series of medicines which may give temporary relief, but do not cure, and then the patient usually gives up, thinking that there is no medicine that will cure him. This is a mistake. Rheumatism is not a necessary evil, and because one is grown old it is not imperative that one should accept rheumatism as a natural accessory to advancing years.
