LINDSAY, FRIDAY JULY 28, 1899 WAS THE BANNER PICKLE

THE FLAVELLE MILLING

EMPLOYEES OUTING.

Three Steamers Required to Carry the Throng to Sturgeon Point-The Day's Programme.

The Flavelle Milling Co's employees' pic-nic and excursion held Saturday, was one of the largest of the season, and surpassed any pic-nic held in previous years. This well - known firm's outing is always looked forward to with pleasure by hundreds of our citizens. About 9.30 the Str. Alice-Ethel and palace burge Lindsay, and Str. Crandella, chartered for the occasion, left the town wharf taxed to their full capacity, and we would be safe in saying that fully 800 people were on board, yet many were left at home, so the energetic committee decided that the Crandelia should make an afternoon trip, when she

landed another large party. The day was an ideal one for a picnic the sky being clear and the air pure and bracing, and beautifully cool. The water was perfectly, caim for the aquatic sports, and the grounds were in excellent condition. Professor Lunan, from Eldon, was there in his High and costume, and furnished

music on the bagpipes. Shortly after dinner the programme began, Messrs. J. D. Flavelie, R. A. Miller, R. Fee, George Lytle and J. Hart being in charge. The races for both girls and boys were watched with much interest, and each event was well contested. The men's open race was indeed a pretty one, and good time was made. The high kicking of Mr. J. Hepburn was very amusing; gentleman is undoubtedly very limber in his joints, and does his work with apparent ease. The duck race was also an interesting and laughable feature of the program; about 10 boys competed, and they had a hard chase for their prizes. The double canoe race was a very exciting event, Messrs. Carr and Lytle giving their

competitors lots of hard work. About 6 o'clock the excursionists embarked on the steamers arriving home at 8 o'clock tired and satisfied. HOUSE STRUCK BY LIGHTNING.

Narrow Escape of the Inmates The brick dwelling house on the farm owned by Mr. Edmund Gillogly, implement agent, of this town, which is situated near Reaboro, was struck by lightning on Friday mornign, and was badly damaged, it being estimated that it will cost \$300 to make necessary repairs. The ligtning struck the corner of the building and ran down the chimney, doing much damage in the rooms below. Mrs. Stevenson, the wife of the tenant, was in bed at the time, and was severely shocked.

Assessment System.

Toronto's assessment department proposes to tax cattle traded on the city market. The proposal is absurd enough, but may be in the line with the present law. Let us hope it will be given effect. Every such demonstration of the folly of the assessment system has it educational effect. We shall get reform by and by.

Another Successful Barn Raising. The hard times must be over, or

the prospects for the future more hopeful. There has never been for years so many barn-raisings within a short reach of Lindsay as is the case his season. Last Friday afternoon a successful one was held on the farm of Mr. Silver, a mile west of town. A large crowd was present from Lindsay and Ops. The barn is erected on a seven-foot wall, the size being 36 x 50, and is a very fine building. Mr. Hiram Brown, of Little Britain, did the carpenter work, and made a good job. Messrs. Lindsay Bros., the well-known stone masons, did the masonry work. About 4 o'clock Messrs. W. Hazleton and D. Fitzpatrick, jr., undertook to select their men for the arduous duties before them, the former taking the north side and the latter the south. Unfortunately the sides were not evenbest men. However, the other side pass in a circuit under it. worked well and were close followers. The timbers were rather heavy, which prolonged the raising somewhat. An excellent supper was served by the ladies, which was much enjoyed. About 8 o'clock the crowd dispersed, after enjoying a few hours of hard work and

The Toronto firm who recently sent into the Forestry Department a request as regards the supply of tamarac available for manufacturing purposes, has already lain in a year's supply of tamarac, and are still receivng news of large quantities for sale. Mr. Southworth, clerk of the department, is writing to the Imperial Institute. London, to ascertain the probabilities of building up a lucrative export trade in tamarac. At present the European supply is obtained principally from the forests of Maine, but there is no reason why Ontario should not secure a good portion of the large trade in that commodity.

G. T. R. Trackmen in Session

The local G. T. R. Trackmen held a meeting on June 19th, which was attended by Organizer A. B. Lowel of Limited, Toronto. Ottawa, who spent the day in town. We understand that Mr. Lowe explained the situation of affairs since the strike, and made the very satisfactory statement that only four men had been dismissed for illegal actions during the late trouble. A committee of Trackmen will meet the G. T. R. management at Montreal shortly to discuss better wages and other conditions affecting them. The delegate from this district will be Mr. Jos. Harris, of Gelert.

A Joyful Meeting.

Monday morning a party, rubicund, well-dressed gentleman, sporting a magnificent beard of unusual length, descended from the east-bound train, and enquired of the hackmen as to the whereabouts of Mr. Edward Bunting. The stranger was Mr. Thos. Bunting, from Belfast, Ireland, direct, and since he parted from his brother (our wellknown citizen) 26 years ago on the pier at Londonderry, there had been no direct communication between them. As our readers can imagine, the meetng between the long separated brothers was a joyful occasion. Mr. Thos. Bunting is a stationmaster on the Belfast & Northern Counties Railway, and has been in railway service for 38 years In 1837 on the occasion of his promotion to his present responsible position, he was presented with a handsome watch, tending the cheese board meeting. suitably engraved, by his fellow emlovees.
