The latest Blue Book shows that after providing for all liabilities the surplus of the ROYAL CANADIAN for the protection of its policy holders at the close of last year was \$509,074, besides stock to the amount of another \$100,000 subscribed, but not called up.

The same Blue Book shows that the surplus of the London Mutual was \$67,176, composed entirely of the unassessed portion of premium notes which no policy holder ever expects to be called upon to pay.

The following table shows at a glance how the affairs of the London Mutual have been going

But the minister says he has received fair value for the limits. Did he receive a fair value for the timber limit on the north shore of Georgian Bay for which \$317 were paid for 79 square miles, when at that time the Ontario government were selling limits for \$2,000 and \$3,000 per square mile in the same locality? Yet the minister has the hardihood to say that he received a very fair value for the limits. Why did he say that? Mr. Barron made a capital support of the survance of the "OTTAWA, March 28th, 1890 in the Northwest. Do we not know that There, sir, is my justification for the statethe whole history of this country shows | ment I made, which statement was charagainst giving monopolies large tracts of interior, who has said here to-day that he found the whole territory honey-combed ed the limit finally from Mr. Robillard got \$55,000 in hard cash for that timber with colonization companies. Settlers limit, belonging to the Indians, which the desiring to locate on particular lands found government sold for \$316. Three hundred cent. of it was divided among the Indians, and there being 100 Indians they got 31 cents each; while Mr. Robillard, the member for Ottawa, puts \$15,000 in his pocket for which he only gave \$316. Then, sir, we find the minister of interior trying to make us

believe a session or two ago, that that was a very laudable and beneficial sale indeed, up timber limits to public auction and had and that, in his character of trustee and guardian of the Indians, he was looking after their interest so carefully, and was received a fair price for the timber limits doing all for them that a parent ought to situated at Indian Reserve No. 6, north shore of Georgian Bay, which was sold to shore of Georgian Bay, which was sold to \$316, it is a grand sale, because in dues the an hon, gentleman who now sits in this Indians will get \$20,000 before the limit is house? If the Indians were to get \$20,000 in dues, the timber has application is made for a timber limit between Cameron and Fencion is made for a timber limit by some person who has become aware of the timber was there to produce the fact that there was valuable timber and if the timber was there to produce the fact that there was valuable timber \$20,000 dues at \$1 per thousand, there were there. The minister then calls for tenders. 20,000,000 feet of timber, at \$2 per thousand which would be the fair and ordinar price, it would amount to \$40,000, which the minister of interior out of his own mouth proves he should have got for that timber limit instead of \$318 for which it was sold to Mr. Robillard. What do we find further in connection with this, Mr. Speaker. We find that as soon as the sale

was made, Messre. Francis Brothers, who operated that limit, in a letter addressed to the department on the 14th October 1889, state that in one year they cut 19,900 pieces of saw-logs containing 2,500,000 feet coard measure; 2,095 square white pine, containing 125,000 some odd cubic feet of timber; and 481 pieces of red pine, containing 23,000 or 24,000 odd cubic feet, in one tion of guardian, they being wards, and it year, which at a fair and reasonable price, they got \$8,250 in one year alone for the which the government sold without competition for \$316 to a supporter of theirs in for.
