TOUR AUTUMN IMPORTATIONS.

Our MR. FLAVELLE writes us from London that his Purchases for this AUTUMN'S TRADE are LARGER THAN EVER and will be found WONDERFULLY CHEAP.

His Orders for MANTLES are being filled in Germany from Patterns selected by himself. The Styles will be found to differ materially from last year, Jackets being longer and Garments with Capes a Special Feature. He mentions particularly some fine effects in TWEED ULSTERS, which are very attractive.

He is also making DRESS GOODS a Leading Feature, purchasing direct from English, French and German manufacturers, Color, Fabric and Design being under his personal care. Never before have we been in as good form to supply our patrons.

We look for Mr. Flavelle's return about the 20th of August, and about the same time our Importations will begin to arrive. At the same time remember the Bargains we are offering in SUMMER GOODS.

LINDSAY, FRIDAY, AUGUST 14, 1891 TOWN JOTTINGS.

All sizes at HIGINBOTHAM'S drug store. -65-4

-The handsome bay mare White Stockings recently advertised for sale in THE POST by Mr. Austin of Fenelon Falls, has found a new owne In Mr. Wm. Simpson of this town. This animal was sired by Lapidist Chief, and is a bright bay, nicely marked, possessing lots of style with an abundance of undeveloped speed. She will be utilized as a driver for the time being, but will in all probability participate in some of the speeding events at local fairs this fall. It is the intention of her new owner to change her name

-Last week Messrs. Maunder & Kenny had the misfortune to lose by death the old thoroughbred sire Meteor, by Asteroid-Mary Innis. I is only some few months since his purchase, but having made a season with him in this district his name will no doubt live for many years. Meteor was foaled on the celebrated Woodburn farm, Spring Station, Ky., and was choicely bred, being a grandson of the great Lexington, whose blood has achieved additional greatness through its tendency to nick with that of the trotter and can be found in some of the noted performers of the age.

General Sporting Notes.

-Marcus Daly has purchased Scioto Girl 2.16 for the purpose of driving her to pole with Yolo Maid, 2.12, (pacers) to beat the team record. -Sunol, 1.101, is reported to have sustained a serious injury in the thigh, and may never start to lower another trotting record. -The sculling race at New Westminister. C., on the Fraser river, between Alex. McLean of British Columbia and H. Peterson of San Francisco, for \$1,200 a side, was won by Peterson a lead of 300 yards.

—The boat race between Hanlan and O'Connor on the one side and Gaudaur and McKay on the other, was decided at Hamilton on Monday last. The race was practically won in the first mile by the Toronto pair, who crossed the wire first with a lead of three lengths, which could have been ten if so desired.

-The Grand Circuit trotting meeting at Rochester commenced on Tuesday. The great \$10,000 Flower City Stake was won by Happy B. in the fourth heat, Little Albert in second place. Best time, 2.182..... Howard H., the Canadian representative, finished in fifth place.

—At the Independence, Io., meeting this month Nelson, 2.103, will go to break his record for \$2.500; Roy Wilkes and Frank Oxman, Illinois pacers, will go against Johnston's pacing record of 2.063 for a similar prize; the two year old records—Sunoi 2.18, trotting, and Manager 2.163, pacing, are also to be attacked.

-Kd Hanlan and Wm. O'Connor, the Toronto carsmen are out with a challenge, open to the world for a three mile, with turn, double soull race, for anything from \$500 to \$5,000 a side..... If Australians accept they will guarantee them also. Mesers. Nicholas Houck & Son have 2,106 boxes at at 90, 2,232 boxes at 90 1/15c. Martwo single scull matches for not less than \$2,500 adorned their fine farm with a comfortable ket active. Seven buyers present.

a side, and will allow \$1,000 for expenses.

The local trotters Blackstone and Jimmie, with the pacing mare Minnie Belle, have been wreating with "the powers that be" at Toronto, with only varying success. Blackstone contested two events, winning second place in the 1.30 event and third in the open trot. Jimmie, who was entered in some three events, only answered to be starter's bell in the 2.32 event, in which he secured fourth money, but unfortunately met with an accident that will necessitate his with machine that will necessitate his with the machine that will necessitate his with the secured fourth money, but unfortunately met with an accident that will necessitate his with the secured fourth money, but unfortunately met with an accident that will necessitate his with the machine that will necessitate his with the best of short-horns and aelling them when the server and the starter's perfect.

Minnie Belle was the only one of the trio that early promise a contest of the open pacing event. The latter result was not unexpected, as Minnie Belle was not unexpected. Terrible Drowning Calamity on Rice Lake-Three Lives Lost. Peterboro, Aug. 12.— Mr. and Mrs. Hawkins of Canton, who were camped on Lee's Point, Rice Lake, left camp yesterdsy for Bewdley in an ordinary sized skiff to get their mail. Miss Maybee, 16-year-old daughter of Mr. Benjamin Maybee of Rossmount, accompanied them on their return to camp. When about three-quarters of the state of the superficial of the state of the superficial of the superfici PETERBORO, Aug. 12.- Mr. and Mrs. ters of a mile from camp a storm overtook them and a heavy squall struck the boatupsetting it and throwing the three occu

pants into the water. The disaster was witnessed by a number of people on the shore, but owing to the violence of the storm no help could be rendered to the unfortunate victims, who could be seen clinging to the upturned boat. When the storm had subsided, which it did very quickly, boats put out for the scene of the accident, but only the empty upturned boat was found, the three occupants having gone down to a watery grave. Search was at once instituted, and it was stated this morning that they were successful in recovering the bodies.

An eye-witness says when the squall struck the boat every sail that it could carry was set, and before they could be scicking in the soft mud at the bottom, as the bottom of the boat. Miss Maybee was not fortunate enough to secure a hold of the boat, and fell back in the water. Mr. Hawkins on seeing this went to her assistance, and in all probability would have succeeded in rescuing her had not Mrs. Hawkins at this critical moment released her hold on the boat. It is supposed that the two women clung to Mr. Hawkins for safety, and in this way he was deprived of the use of his swimming powers, and the three sank beneath the waves.

LAYTON.

[Correspondence of The Post. FIRE.-Last Thorsday the house of Mr. John Shaw was destroyed by fire. The dre originated from a spark from the stove pipe falling on the shingles, and in a few minutes was beyond control. Most of the contents were saved. The building and contents were fully insured. CHURCH REPORTS .- A very neatly printed detailed finance report of the Methodist church here was handed us a few days ago, and it speaks well for the church management to have every small item of income and expenditure in the report, and we hope ere long to see some of our Sanbath schools and some of our neighboring churches to move in this direction. These printed reports cost but very little, and most certainly give better satisfaction than doing business in the dark.

FINE FARM HOUSES,-We boast with pride that the frame barn buildings in this locality are as good, if not the best on an average in the province, and our farmers too, but the houses are somewhat behind the times. However, we are pleased to note that they are fast coming to the front COMMERCIAL NEWS.

OFFICE OF THE CANADIAN POST, LINDSAY, Aug. 13, 1891. Business and Produce. Sunday's rain was followed by almost

uninterrupted fine weather, and great progress has been made in harvesting. It is grand work this year, as the results will be far ahead of last year, and farmers are in splendid spirits. The rain of Sunday has benefitted roots and pastures. A business revival and a fine fall and winter trade may be looked for with confidence. A Vienna despatch says: "Bad weather

is spoiling the crops in many districts in Austria and Hungary. It is impossible to harvest on account of continuous rain. hurricane yesterday in Lower Austria,
Moravia and Upper Hungary destroyed
the season's vintage. In the Gumpolds
kirchen district many of the rivers have
overflowed and the adjacent country for
miles is inundated. Several persons have
been killed by falling trees and houses." Toronto Live Stock Market.

Offerings at the western cattle market were off 20 car loads from Friday's receipts-only 30 loads being on sale to-day. These included 240 sheep and lambs, 200 hogs and 40 calves. Re ceipts last week were:—Cattle, 2,131; sheep and lambs, 2,161; hogs, 502. Weigh; freight, \$33.89. About 19 loads went through to the eastern

Cattle.—In stocker cattle there was a bright-ening of trade and quite a few of these changed hands to day. Their general price-range was from 3c. to 3½c. per 1b., according to quality. Butchers' cattle were in moderate demand and supply at from 3½c: to ½c. per lb. live weight, according to quality. Export cattle were wanted to-day and prices were a little stiffer. Last week there was a dearth of space on shipreport, under date Edinburgh, Aug. 1, says:-The supply of home-fed fat cattle in Edinburgh was extremely small, consequently there was a sharp advance in value, even though the warm weather was against the trade. In Glasgow good class. A large lot of these were taken for short keep. At Yorkhill there has been about 1,000 head of States cattle, which are reported to have met a fairly good demand. Fat cows and keep clear of cheap imitations. buils have not made any more money." The general range of price for export to-day at the Western cattle market was from 42c. up to nearly 53c. per 1b., the latter price being paid within a fraction for two car loads of extra choice fancy animals. A great many really good cattle were taken at between 4½c. and 4½c. One car load was taken by Messrs. Alkens & Flanagan at \$15 better than 41c. per b. and another load at 41c. Messrs.
