A CANADIAN. Her Life Was Despaired Of-Subject to Fainting Spee'ls and Heart Trouble-Doctors Said Recovery Was Impossible

-A Wonderful Story. The case of "Little Nell," whose miraculous cure was reported in the newspapers, with a subsequent letter from the Rev. Samuel Harding, is but one in a

series of similar cases in Glasgow. The latest is that of Miss Lizzie Duncan, a young woman who has been snatched back aney, a book-maker, and to life. She was in what is termed a "decline" - wasting away by inches before the eyes of her parents, and her sad condition seems to have been known to a number of people. Consequently when she was found to have escaped the threatened death, and to be, apparently, as well It is feared the incident as anyone in Glasgow, a tremendous impetus was given to the prevalent talk, and an Echo reporter was directed to meke a searching investigation, with the result that this strange story was entirely

People Well

Always ready! Always faithful! What grand words of comfort and cheer to sad and despondent hearts.

We know that there are thousands who need the comforting and blessed assurance that there is a medicine ready for all troubles and emergencies, faithful in its workings and honest in results.

Paine's Celery Compound is the only medicine in the world that can truly and honestly claim for its banners the mottons, "Always ready!" "Always faithful!"

Past records will substantiate all that is claimed for Paine's Celery Compound. It has saved and cured thousands who were near death's portals; it proved to be the great healer and life-giver after men and Biehler a week ago, died of his injuries at | women had vainly struggled with other medicines and prescriptions; it restored stabbed by Mary Falvey, died at the after physicians uttered the terrible word

To those who now groan under burdens of suffering and disease, we say, with all candor, give Paine's Celery Compound an immediate trial; it has cured thousands afflicted just as you are and it will surely reach your case and do the same good

Mr. A. R. McGruer, of D'xon's Corners. Ont., speaks of his wonderful cure by Paine's Celery Compound, as follows :-"About six months ago my condition of health was alarming and I suffered very much. For certain wall decorations the solid relief effects are much sought after by decorative architects, who have at hand here a material which harmonizes directly with the architectural features, and which at the same time possesses an adaptability as well as a facility of application which renders it one of the most valuable helps to the constructive artist. This material can be used for dadoes, or as decoration for framework of doors and windows, or for friezes, or for the decoration of alcoves and ceilings. It will not become warped, and it is more durable than wood. It offers an impenetrable resistance to moisture, and being a solid relief it will not settle down like papier mache, and once affixed to the wall it is capable of receiving any kind of extra ornamentation. -Architectural and Building Monthly.
