EDITORIAL NOTES.

Santo, the anarchist who murdered President Carnot, of France, will be guillotined next week. He refused to enter an appeal from his sentence.

The bill providing for the re-instatement of evicted Irish tenants passed its third reading in the British house of commons on Tuesday last by a majority of 32. The liberal-unionists urged the adoption of an amendment making the re-instatement of house of lords rejects the bill it will place another strong weapon in the hands of the

A meeting of the Dominion Miller's Association was held in Toronto on Tues day. Those who were asked their opinions about the crops in their several localities were, on the whole, hopeful, although in every report there were qualifications and modifications, from which it was not al ways easy to extricate the kernel of good the turning buoy, but only winning finally by a news. Speaking generally, the wheat crop of the province, according to the millers, will be a good yield and good Oats and peas are, in some local ities, fairly good, while in others they are and, on the whole, the expectations for this part of the harvest are not all roseate. The acreage of barley is small, but the crop will be fairly good, both as a yield and sample. An epitome of the report might be stated as follows : - That, if it were not for the low price of wheat, or if the course grains should continue at good prices, the harvest would be a good one

Reports from Washington indicate that the long struggle for tarriff reform may be considered as settled, as a joint committee of both houses were in conference yester. day, with a view to a final settlement. The bill as it is likely to pass will give an advantage to Canadians in the changes in the duties on lumber, animals and their products, minerals and barley. Canadian iron ore will go in free at once, and Canadian coal at the end of five years. Canadian lumber will go in free The importance of this will be seen when it is remembered that Canada exported 810 770 -000 worth of lumber to the United States in 1893, in addition to \$1,508 513 of logs Animals and their products are also sub ject to a great reduction, while barley pays 30 per cent. instead of 30c per bushel under the McKinley law. The new tariff, if passed into law, will do much to increase trade between Canada and the United States.

Up to date no less than 29 election petitions have been entered against liberal late provincial elections. The only remain ing seats that can be protested are Muskoka, West Algoma, Lincoln, East Northumberland and Parry Sound.

It appears that the patron movement has a strong foothold in Fngland. Lord Winchelsea, presiding at a meeting of the agricultural union the other day in London, said that 156 parliamentry candidates n the coming election were pledged to support the union, and that 56 others supported the organization.
