(To Editor of The Post.) Thursday's Ball Game

Dear Sir,-Being a speciator of the went to the grounds, as did over four passed through committee. hundred other base ball enthusiasts, went away disgusted. Our boys depended largely on winning the game through the cleverness of Blakey, an importation from Toronto, who proved a sorry disappointment. If he had pitched a half-decent game our nine would have had a fair chance of winning, but he was "slugged" all over the lot, and the rest of the home team being discouraged at the poor showing he was making, played like so many wooden men. Peterboro on the other had, played snappy ball, and Danny McCabe, the "one-armed wonder," pitched a really excellent game.

Lindsay will never have a ball team him employment in town. Blakey was | etc. He would move to have the clauses paid ten dollars for his services and restored. out of the box he became infuriated and struck Umpire Charley Maddock a savage blow in the face. This was not the act of a gentleman, and if Lindsay wants a ball team let her have a team of gentlemen or no team at all. In my opinion Mr. Blakey is the biggest "lobster" that ever "ambled down the pike." Thanking you, Mr. paper, I am yours, etc.

OLD BASEBALLIST Lindsay, Aug. 11th, 1899. Thursday's Ball Game,

(To Editor of The Post.) Sir.-We have seen a good deal of condemnation of our base ball team in Friday's papers, which I think is very unfair, considering what Lindsay team has done in past years. When our ball nine take a losing streak the supporters crawl under the barn. the leader of the Opposition. Some people can't see why the team should lose, although they see nothing was taken and the amendment of Mr. wrong in other teams being beaten by their pet organization. Now, for sevwas that "many's the time he had to go home with worse defeats, and more of them than they had wins, from Lindsay." The true sport will back the team that is under in the fight, but a few of the weak-backed sports who usually see the game by climbing the

fence are the chronic kickers. When the curlers arrived from the West two years ago with all the trophies the town turned out en masse to whoop it up, but last year, outside of a few good curlers, how many were there to cheer? Lindsay team feel the defeat badly enough, owing to the disappointment of the large audience. They are a little disfigured, but still in the diamond and open to all comers. Watch for another game shortly .- Yours, etc., FAIR PLAY.

Conservatives Try to Break Sir Charles Tupper's Agreement.

RAILWAY GRANTS DISPOSED OF.

Commons Had Barely More Than a Quorum at Any Time on Monday-Conservative Members Take Advantage of Sir Charles Tupper's Abserce to Exhibit Their Independence.

Ottawa, Aug. 8.—The House yesterday presented a strange sight. At no time was there much more than a quorum of In place of their being one guard of members present, and during a great part of the day the members on the Gov- | Canadian Regiment of Infantry Will ernment benches were engaged in trying to induce the members of the Opposition not to break an agreement which had been entered into by the Government with Sir Charles Tupper, to drop two clauses of the railway bill. Sir Charles had asked that these clauses be left out, saying that he would sit here for three weeks to prevent their being passed, and the Government, on the understanding that the work of the session would be concluded last week, agreed to this. Yesterday, however, Mr. W. F. Maclean moved, seconded by Mr. Clarke Wallace, that one of the clauses be reinstated, and Sir Wilfrid Laurier and Mr. Sutherland, chairman of the railway committee, asked that they be allowed to stand over until they could be discussed next session in Sir Charles' presence. Some of the Opposition members said, however, that Sir Charles had spoken for himself and not for the party, and therefore they urged the reinsertion of these clauses. Toronto, Aug. 11. - The following re-

port of the crops of Ontario has been issued by the Ontario Bureau of Industries from statements sent in by correspondents under date of Aug. 1: Fall Wheat-This crop came through the winter in poor condition, much of it having been killed, owing to lack of shelter and the fermation of ice, and a con-

siderable acreage was plowed up. With the exception of Algoma and a few other sections where there was plenty of snow, the yield has turned out to be a very small one-in fact, the lowest for a num ber of years. The quality of the grain ranges from plump and hard to small and shrunken. Rust has been more common than usual this year. The Hessian fly was complained of in a few of the western counties, but insect injury was light compared to the damage done to the crop by the trying weather of February. Much of it grown for feed is sown mixed with voted money rapidly all day, adjourning peas and oats. The principal cause of injury has been the drouth, which in some cases has resulted in short straw and small kernels, though the grain is for the most part plump and bright. Oats-This crop is rather backward i tinued dry weather has resulted in short there has been considerable loss by rust and smut, more especially in the western counties. The late sown oats appear to have flourished better than the earlier crop where they have had a fair supply

Rye-There is very little rye grown. A considerable percentage of the crop was winter-killed, but the remainder has thriven and yielded well, both as regards straw and grain. Peas-Reports as to the condition

the pea crop are comewhat variable, but there will be an average ylald. A good deal of injury was caused by excessive rains early in the season. In some parts the area sown to peas has been decreased owing to the prevalence of the "bug." Beans-The area devoted to this crop has considerably diminished, owing to low prices. At a later period the camp of General Pachero, who is reported want of rain was severely felt in many localities. On the whole, however, the mangels, carrots and beets promised well. Of turnips the correspondents do not speak so encour. gingly, as this crop presents a poor appearance in many cases, especially where late sown. Some damage from the effects of the grasshopper, turnip fly and other insect pests is noted. Flax-This crop is not now largely

Washington, Aug. 12 .- The War Department yesterday received a cablegram from General Davis, giving further details of the damage done in Porto Rico by the hurricane. General Davis says a famine is impending, and asks authorities to issue rations to the destitute. The message is dated Thursday and says: "Later reports show that the hurricane was far more severe in the interior and southern part of the island than here.
