INTERESTING LETTER FROM THE BORDERS OF THE AROTIC OCEAN.

50 Degrees below Zero, with a Blizzard, Just Right for Moose Killing-Suf ferings of Stranded Miners-A Long Tramp in Winter Ice Shoves on the Mackenzie River

Below we give some interesting notes from a diary received by Mrs. A. A. J. Soanes from her son Stanley, who is engaged in mission work in the far North-west: St. David's Mission, Ft. Simpson,

February, 1899. Well, mother, it is nearly eight months since we heard from the outside world, and are getting hungry for news from home. Have had it 45 and 50 below zero, and such terrible blowing-just the weather for killing moose, which are plentiful. have been across the river (a mile) to see a miner who has a shack there and has only had flour and water to live on for a month, except Sundays, when he eats meals at the Mission, and has only 50 lbs. of flour to last three months until the river opens. One was frozen to death at Ft. Norman, quite a

number have and will die from scurvy. We hear terrible news of them. March 27th packet arrived, 17 letters; am very thankful. April 3rd at sunrise I started on a long trip to Ft. Providence. A Mr. George was my foregoer and two others accompanied us that far on their way to that wonderful mine at Great Slave Lake. We went seven miles no Lieru River, 24 went seven is the Mackenzie River mance, the hero, a bank teller, falls camped at dusk, up at 4, and off again. in love with the daughter of one of the It was a long day-we travelled 34 miles, camped at a miner's shack; they gave us soup and tea with milk in it. We did enjoy it. Left at sunrise; found weather quite mild, so we spelled 2 hours at noon, but made 25 miles; left early and camped towards evening north side of Little lake, when my ankle began to play out, so I had to hang behind. All suffered more or less with our feet; distance 30 miles. Off again ankle worse, so on account of light load I rode on sled most of the day, getting to Providence at 4.30-30 miles, making 160 miles in five days. Met Mr. Marsh, who had brought Mr. Johnson, who was coming to run the Bishop's little steamer.

Rested to-day and baked for return Six inches of snow, fell 10th; we started for Ft. Smpson and Mr. Marsh returned to Hay river. Trail was very bad, we could only make 15 This preparation is used internally. One miles. On lith compelled to take bottle contains ten days' treatment, middle of river. 21th, we all got snow price 50 cents. For sale at all drug blind, it was terrible, but still moved -DD. 13th, trail very bad, food getting scarce, river parrowing and some very high and icy rocks to climb oven; only had dried moose and bacon grease left. 17th, arrived at Ft. S'mpson tired out. They were getting quite anxious, as it took us eight days to return, but it was a fine trip of 320 miles, besides 30 miles I went for moose meat just before. A day's rest, Then start on my usual duties. Had delicacy of the North. I must tell you | they are very well supplied, but the we are doing an excellent work among out-lying villages and country are the miners. Bishop is away. I took the English service for the first time;

singing class in evening. I must tell you of the most wonderful sight I ever saw-people go miles to see the river open; the Mackenzie is a mile wide here. The whole body of ice jammed in front of Mission and lifted up like a plough lifts up the earth; the furrows were piled up 70 feet high. The bank is 50 feet from level of river. The Laird river ice would plough right into the Mackenzie | has done in all the time since it came it is past describing. The Liard river broke the Mackenzie below, so we saw the Lairdice travelling at the rate of four miles an hour and hundreds of cords of wood rushing down.

licous. May 29th, planted potatoes, sowed lettuce, radish, peas. June 1st, one would do so unless it were likely sowed carrots, beans and beets. June to pay them, All the same, if the lo-3rd, a grand concert was given at the cal line was once established in the Fort this evening by the miners to town every progressive business man Mr. Camsell, the chief Factor of the H. B. Co., and employees, for their great kindness in helping 43 stranded miners who landed here in a very helpless condition. This was the programme-Part I: March, on the Constant Screamer, Prof. Keats, of New York; Presentation and Address by chairman, Mr. Tupper; Duett, (Violin and Mandolin), Messrs. McClennie and Keats; Song, Mr. Dunsworth; Gramophone Selections; Song, Cake Walk, Mr. Muir; Song, Mr. Cantrell. Part Ti - Solo Mandolin, Mr. Klatt; Song. His Lordship Bishop Reeve; March, Clennie: Song. Mr. J. Ritten e, of . w York. God Save the STANLEY.

ove's B lief

Love is immortal. If I die Refore you, dear, and over me clever blossoms woo the bee, ic little violets, sweet and shy, Peer through the grass above my face To smile at you when you come near, Lean down and listen-you will hear A whisper stirring in the place.

Discovered By A Woman Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her, and for seven years

SPENT A NIGHT IN A DITCH.

a Tramp's Hard Luck-Fell From the Top of a Car and Injured His Leg A south ward resident waited on Chief Bell at an early hour this morning and reported that a tramp was lying in a ditch alongside the railway track, east of Lindsay-st., and that he

appeared to be badly injured. On repairing to the spot Chief Bell found the man sitting in the ditch with his back against a couple of ties. He gave his name as Edward Reid, and said that he left Midland last evening on a grain train, reaching Lindsay between 11 and 12 o'clock. He was heading for Belleville, and when the train pulled out for that point he was seeking his old hiding place when a sudden jolt, caused him to 'ose his balance and he fell into the ditch, injuring his leg. As he found it very painful to move he concluded to rest where he was until

Reid was conveyed before Magistrate Steers and was remanded to gaol for one week so that his injury might be attended to by the gaol surgeon.

He Fooled The Surgeons.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest Pile cure on earth, and the best Salve in the world. 25 cents a box. Sold by all druggists.

After Trout and Ozone.

A trout fishing party comprising Messrs. J. B. Knowlson and son Harry, Frank Shannon and Gordon Richardson, town; Arthur ("Bucky") Knowlson, W. E. Eschwege and Fred Becker, of New York, (a Rough Rider), left on Wednesday for Baptiste Lake, near the terminus of the I. B. & O. R. R., where they will spend a couple of weeks angling for brook and lake trout. They will break camp so as to reach Rosedale for the opening of the duck shooting season.

What's in a Name?

A writer in the New York Sun gives the following explanation of how the name of Bobcaygeon, Mr. Smiff's town, originated: A small village, northeast of Toronto, named long ago by the French coureurs de bois, Beau Bocage, has been "Englished" to Bobcaygeon. So long has the place borne this corrupt name that the origin of it has been almost entirely forgotten by the inhabitants of the district, who are of the second and third generation of British colonists and Loyalists.

Book Reviews.

"The Teller" is the title charming stored transitional David Harum," that reached us this week. An unusual subject for rodirectors, and the plot deals with the difficulties and complications which ensue in an interesting and admirable manner. The story is published by The Poole Printing Company, Limited, Toronto, and is for sale by all newsdealers, at the low price of 15 cents, or will be sent postpaid by the publishers on receipt of price.

No Limit to Happiness.

There is no limit to earthly happiness after a rheumatic sufferer has once used Dr Hall's Rheumatic Cure. Mr. John Clarke, Pittsburgh, Out., suffered with Muscular Rheumatism in his legs for ten months. He tried doctors and numerous patent medicines without relief. One bottle of Dr. Hall's Rheumatic Cure cured him completely. He has not suffered with the disease since.

The Victoria Telephone Co.

Mr. Sam. Suddaby, of Kinmount, has written a letter on the above subject to the Cannington Gleaner. After stating that Lindsay people would probably welcome new merchants or new factories, Mr. Suddaby goes on to say: "I suppose that as far as comtwo moose noses for dinner-a great munication through the town goes anxious to have telephone communication with the town, and that, too, for Indian service in afternoon; large convenience in transacting business, and the towns that get that kind of telephone accommodation are the ones that are going to get the country trade, and I have no hesitation in saying that the Victoria Telephone Co's line, if in Lindsay and connected with all the out-lying villages, as is contemplated, would do more good to the town, in the way of stimulating trade, than the one now in operation there there. I noticed that some of the men taking part in the discussion were very solicitious as to the expense that would be attendant on having two telephones; they seem to forget that no person Had beaver meat to-day, it is de-icous. May 29th, planted potatoes, new line, and I have no idea that anyhave connection with it."

A Menace to the Community.

"There are a few principles which seem to us quite clear," says the New York Outlook. "The first is that the the mere facts that Christian science and faith cure have organized as churches, and taken on a religious form, and are imbued with a quasireligious spirit, do not exempt them from the operation of the law. Violation of the law is not made less a violation because sanction of conscience is claimed for .it. A Mormon cannot claim a right to polygamy nor a pag-an to perform human sacrifice because his conscience requires this of h'm. Religious liberty is the liberty of every man to maintain what attitude he sees fit towards the Deity without interference from his fellowmen; it is not liberty to do or omit what he will in his relations to his fellow-men because his religion demands or forbids the action. The second is that well-settled usage, incorporated in the law, forbids the practice of healing by persons who have not been licensed by the State. And the practice of healing does not necessarily involve giving drugs; often, and to an increasing extent, the medical pracshe withstood its severest tests, but titioner simply gives counsel. To ather vital organs were undermined and | tempt to cure disease as a profession death seemed imminent. For three and for pay, by whatever means, conmonths she coughed incessantly, and stitutes medical practice. Under the could not sleep. She finally discover- laws of our States, as they now exist, has been absolutely cured. Her name in the sale of Dodd's Kidney Pills, and to protect the community them as comfortable as possible under them as comfortable as possible under them as comfortable as possible under the sale of Dodd's Kidney Pills, and to protect the community them as comfortable as possible under the circumstances. THE NARROW ESCAPE OF CON. GREAVES WEDENESDAY WEEK,

Ritle Ball Whizzed Past His Face While Seated in the Smoking Car.

The crew and passengers on the Coboconk train Wednesday last had their indignation fanned to a high pitch by what appears to have been a deliberate attempt against the life of Mr. James Greaves, the popular conductor. The incident occurred at what is

known as Wilson's Siding, about three miles south of Coboconk, at about 9.40 o'clock, When passing the siding it has always been Conductor Greaves' custom to glance out and take note of the number of cars to be picked up next morning. When the crossing was reached last evening he was in the smoking car; he leaned forward in his seat for a moment to peer out of the closed window, and had barely resumed his former position when he heard the sharp crack of a rifle followed by a sound of splintering wood almost at his ear. Examination disclosed the fact that a sbullet had passed through the window frame, shattering the wood, and had made its exit through an open window on the opposite side of the car, passing within three inches of Conductor Greaves' face

The affair is shrouded in mystery. Mr. Greaves is deservedly popular with all classes, and it is inconceivable that anyone would wish to do him harm. Tramps do not give any trouble on the road, and everyone is at a loss to imagine a motive for what looks like a deliberate attempt to take the life of one of the oldest servants of the G. T.R. on this division.

MET THEIR WATERLOO

Lindsay Cricketers Defeated in Their First Foreign Game.

In order to keep a promise passed with Millbrook cricketers, our men picked up 9 players Tuesday week and journed to that village. They hadn't a ghost of a chance to win, but, they wished to keep faith and did so. Incidentally they had considerable fun. Following we give names of players and scores made.

SAVE THE BABYI" The first instinct of

An East Ward Boy Painfully Injured the mother-heart is to preserve Its life and health take precedence which women the skull; he also received a deep who are looking forward to the coming of a new and precious baby

wound in front of the ear. Dr. Shier dressed the wound, it requiring nine stitches to tack the torn member in place. Complete restoration is expected without damage to

baby's life or health or general wellbeing may somehow be sacrificed. But there is no real need of apprehension in either direction. If any woman who is expecting to become a mother will follow the example of Mrs. Orrin Stiles, of Downing, Dunn Co., Wis., the most perfect confidence may be felt in the happy outcome of this critical period, both for the mother and the child. "I have been intending to write to you ever since my baby was born," says Mrs. Stiles in an interesting letter to Dr. R. V. Pierce of Buffalo, N. Y., "in regard to what your 'Favorite Prescription' has done for me. I cannot praise it enough, for I have not been as well for five it enough, for I have not been as well for five it enough, for I have not been as well for five it enough, it libs. I was sick only a short time, boy, weight 11 lbs. I was sick only a short time, and since I got up I have not had one sick day. I have not had any womb trouble since I got up. I was not only surprised myself but all of my friends here are surprised to see me so well,"

The properties of this grand "Prescription" and what it has accomplished for thousands of women, are more fully described in one chapter of the People's Common Sense Medical Adviser by R. V. Pierce, M. D., a splendid thousand-page illustrated volume. It will be sent free paper-bound, for 31 one-cent stamps to pay the cost of customs and mailing only; or, cloth-bound for 50 stamps. The "Favorite Prescription" is entirely free from alcohol; unlike nearly all other proprietary medicines for women, which merely give a temporary stimulation and are likely to induce a morbid, unhealthy craving. The "Favorite Prescription" gives energy and nerve-tone that is real, healthy and permanent.

THERE MAY BE A HINT HERE.

The Levels for Cement Walks. The following from the Hamilton Times refers to a matter of considerable moment in Lindsay just now If the laying of cement sidewalks is

to be pushed to a large extent on the business streets of the city it will be necessary before another season, for the city council to make some arrangement better than at present exists about uniformity of grade. A few of works department to change the thus destroy the uniformity of the grade, while at the present time a ders.-Review. walk is being laid on McNab-st., between King and Market-sts., with a different level for almost every door, and even at that one door step is two or three inches below the sidewalk. When the James and Market square sidewaiks were laid the doorsteps were changed to suit the grade of the walk, but recently owners have refused to go to the expense of changing their entrances, and in several cases law suits have been threatened if the old grade was changed to suit new conditions.

The suggestion has been made that a by-law be passed, if such can be legally done, to empower the city to change the door steps where found necessary, and have the cost added to the cost of the work."

Rheumatism Can't Exist When the kidneys are kept healthy and vigorous by the use of Dr. A. W. Chase's Kidney-Liver Pills. It is urio acid left in the blood by defective kidneys that causes rheumatism. Dr. A. W. Chase's Kidney-Liver Pills make the kidneys strong and active in their work of filtering the blood, and thus remove the cause of rheumatism. One

Lacrosse Notes. -All players are requested to turn out every evening in order to get in shape for the games with Stouffville, Peterboro and Hastings seniors. -The secretary had received a com-

Cannington at Little Britain picuic for a twenty dollar prize. -Lindsay's two weak spots-inside and outside home-have been strength-

munication asking the team to play

ened by the presence of two new players. They are cracker jacks. -President Stark of the Junior Lea-

nington to play in Cannington on 24th Aug., and in Hastings on Sapt. 4th. Mr. P. McMillan, of Beaverton, will be referee in the first match, and Mr. Alf. Terrill, of Peterboro, will officiate at Hastings.

Here is a letter from Minden which

shows that while Dodd's Kidney Pills

HIS EAR ALMOST TORN OFF.

Mr. Fred Short, of the east ward, son of Inspector Short, met with a very painful accident on Saturday evening about 7 o'clock. While driving a horse by the lines he was thrown forcibly to the ground, and his right ear coming in contact with a barrel hoop, was severed from below upwards almost completely close to

hearing or appearance.

The Coming Municipal Conference. Stratford Beacon: A municipal con ference is to be held in Hamilton on Sept. 5th and 6th. It is time the municipalities of the province co-operated for the public weal. If they can devise some plan for resisting the encroachments of corporations and for compelling them to pay a fair share of taxes, their business will do good. But if business at the conference is to be conducted after the style of the Toronto or London city council deliberations, the delegates who go may be spoiled Mayor Walters and Alderman Sootheran will represent the

"Circumstances Alter Cases."

Lindsay council at the above conven-

In cases of dyspepsia, nervousness, catarrh, rheumatism, eruptions, etc., the circumstances may be altered by purifying and enriching the blood with Hood's Sarsaparilla. Good appetite and good digestion, strong nerves and perfect health to take the place of these diseases. Hood's Sarsaparilla is America's Greatest Medicine and the best that money can buy.

How Taxes are Paid in Peterboro. This is the growing time and Peterboro is feeling the effects of the good times. Mr. Collector Denne, the municipal St. Matthew, who sits at the receipt of customs, has compiled the report of his spoil and reports that up to and including August 1st, there had me vaid in taxes the large sum of \$44,000, considerably more than the first instalment of taxes and considerably more than last year. The wisdom of paying taxes in instaiments is thus demonstrated. Working men, of all classes, have em-James-st., south compelled the board | playment now, and are in funds, business men are busy and have the cash, so that both classes have half of the to suit that particular building, and | bushes of taxes (in many cases the whole of it), removed from their shoul-

Railway Notes.

-Lindsay people will be gratified to learn that up to date considerably more grain has passed through Lindsay from Midland elevators than was carried through the whole of last season-in fact, the total was passed about three weeks ago. It is expected that there will be a tremendous rush of the new season's crop via Mid--Port Hope Guide, Saturday: Ab-

surd rumors were afloat this morning about an accident on the Grand Trunk Railway at Newtonville, some parties solemnly reporting that three men had been killed by the blowing up of locomotive. Of course, the G.T.R. officials give no information, but so far as we can learn the facts appear to be that early this morning one of the big mogul engines had something go wrong with it-a plug out, or a similar mishap. At any rate the fireman was scalded by the steam escaping fire box, and train stalled between Newtonville and Newcastle, which blocked the traffic only while the cars could be hauled to the nearest station and the engine drawn to a siding. From its appearance no one would suspect that there was anything the matter with the monster locomotive.

Tennis Notes.

-The ladies' handicap commenced on Wednesday.

-The following are the respective scores since last reported; Men's Games-Tait beat Brady, 6-2, 8-6; Walters beat Hamilton, 6-3, 10-12, 6-3; Mc-Alpine beat Greer, 6-3, 6-3; Kennedy gue, has instructed Hastings and Can- | beat Knowlson, 6-4, 6-3; Sisson vs. Edwards, 4-6, 6-4, (unfinished); Ladies' Games-Miss Knowlson beat Miss McDonald G-1, 6-2. As the handicap narrows down to-

wards the finals the interest is increasing. Fordie has reached the finals on his side, and is a strong favor-ite for first place. On the other side Messis, Trew, Edwards, Kennedy and McLean are left to battle for qualification against Fordie in the finals. It is expected the tournament will be Confirmed Report Concerning finished on Friday.

-The handicap tournament is furnishing capital sport for both players and spectators. Disappointments and joys are experienced where they are least expected. Four events were played off Wednesday evening, and some hard struggles were witnessed. The match between Messrs. Hamilton and Walters was the closest and most exciting so far. These gentlemen played a hard and determined game, both doing very steady work; and kept the spectators guessing as to the winner till the last stroke was played. -The ladies' handicap is bringing out some fine games as indicated by

the scores. The longest set played this year was that between Miss Sooth-eran and Miss Dunsford, 22 games being played before the set was finished -Following are the results since last reported: Men's Games-Walters beat Macmillan, 7-5, 6-4; Kennedy beat Tait, 6-0, 6-4; Williamson beat Walters, 6-2, 3-6, 6-3. Ladies Games-Miss Gross, (plus 15) beat Miss Dun-Miss Sootheran (-30) beat Miss Dunsford (-30), 12-10, 3-6, 6-3,

MEN OF ALL AGES suffering from the effects of early folly quickly restored to robust health, manhood and vigour. Lost Manhood, Premature Decay, Weak Mem-ory, Errors of Youth, Night Losses, Varicocele,
