VICTORIA ROAD. (Correspondence to The Post.)

For certain reason your Kirkfield correspondent, apparently looking about for a scrap, seems to have taken offence at our comments on the Peterboro Examiner's loquacity about the Peat Works. We were not aware that Kirkfield had Peterboro bagged, and we feel that the good people of Kirkfield don't think so. We doubt the wisdom of two villages quarrelling. The people of Victoria Road and Kirkfield are on the best of terms. This is Tight. The two villages -- about four miles apart-have plenty of room to prosper separtely. The residents have a good time when they meet or visit each other. There need be no jealousy, no wrangling, for neither village has as yet climbed the incline to city fame but a short distance. Your humble correspondent at Victoria Road makes no pretentions of representation, nor do the good people of Victoria Road think so; everybody tries to mind his own business and generally finds something to do. The same may be said of the good people of Kirkfield, except your correspondent. Victoria Road and Kirkfield will asuredly be thrifty villages and the people will be friendly long after the present correspondents of The Post cease moving their avoirdupois stuffed with vanity about the streets of the two villages. We would not notice the uncalled-for, foolish effusion from the Kirkfield correspondent, nor would we occupy space in your valuable paper, or waste your time, were it the first, We know that the people of Kirkfield are not in accord with the indiscreet efforts of the correspondent of The Post to generate an uncongenial feel-

Results of the Tests Made by Ontario Farmers. Eighty varieties of winter wheat
