AN ANONYMOUS LETTER

By Edgar Fawcett.

CHAPTER I. STRANGE as it is that we call life. In its destiny is not a lenient task-master for many of us.

There was nothing morbid in this resolve. She was rich, and quietly dispensed large sums in charity, personally visiting the sick and often finding her way to the squalid homes of those whom her purse could aid or her presence cheer.

Her gift as a musician had always been striking, and music now consoled her through many a weary hour. She had a small piano of exquisite tone, and seated before this she would sometimes seem to be recalling and rehearsing through the plaintive melodies of Schumann, Chopin or Schubert all the strange grief and inflexible doom of her astonishing past.

But she had been wrong as to Tallmadge Van Dyke not having cared for her. The engagement was a fearful blow to him. He was not a first cousin of Helena, but a cousin twice removed.

his deceptive blue eyes and his beguiling smile had made a deliberate "set" for a rich wife. He would now ignore his music, except in a careless, dilettante way.

So Tallmadge prophesied, and after two years had passed there was every reason for him to acknowledge himself the very falsest of prophets. Old Mr. Hamilton followed his dear wife to the grave during these two same years, yet before his death silently blessed the husband who had already made his daughter charmingly happy.

This gentleman was Mr. Oswald Blagden, and his age was certainly ten years more than that of Helena's husband. It was to him, as Justin Worcester frankly and freely said, that he owed all his proficiency in music.

Blagden was not without certain means of his own, and through the aid of Mr. and Mrs. Worcester he secured a few highly desirable pupils. Then, in a little while he came to live with Justin and his wife.

Tallmadge's hatred steadily increased. One day a fever seized him, and for a fortnight he lay very seriously ill. Helena, hearing of this illness, made efforts to see him.

On a certain night, while his nurse was dozing, Tallmadge arose from his bed. He was still at times delirious, in spite of his fever having markedly abated.

He wrote a letter to Justin Worcester, which he hid in a secret place. It was a letter of perfect frankness, and he began a letter to Justin Worcester. It was a letter of perfect frankness, and he began a letter to Justin Worcester.

He felt his heart stand still for a moment. "What," he managed to remark, "would be the consequence of making a discovery like that?"
