

E. E. W. McGaffey.

E. E. W. MCGAFFEY, respectfully invites the attention of the Ladies in Lindsay and the surrounding neighborhood to his LARGE STOCK OF FALL AND WINTER MANTLES.

We are now offering for inspection especially Mantles of German manufacture, which form a large portion of the stock we are offering for the present Fall and Winter Season. We are showing THREE-QUARTER JACKETS, loose as well as Keefers, also tight-fitting Garments with High Seam.

The materials are various, but mostly of Beaver, Chevron and Plush. These are to be had in Black, Navy Blue and Fawn Color, and the Garments are braided and embroidered. The newest design is the THREE-QUARTER CAPE, which is a massive-looking structure, with its fashionable high shoulders and high collars, designed to give the impression of broad shoulders and narrow hips to the wearer. It is usually adorned with braid or embroidery, and in some cases with applique.

We have a more expensive kind of Warm Wrap, particularly in PLUSH JACKETS; some of these are plain and some trimmed with Jet. Those trimmed with Astrachan down the front are very pretty, and the other shapes can be varied at will.

The material for LADIES' CLOAKS or CAPES are various. We have an extensive stock of Mantle Cloths, many with serge effects, which are greatly in vogue, namely, Chevrons, Beavers, Astrachans and Sealettes. The latter Goods are as regular in color as can be and almost as rich-looking as the Sealiskin itself, and will prove a steady article of demand.

Tweed effects will be much sought after as materials for Mantles, also a Twill Serge for Ladies' Jackets will be sold freely. Our line of PRINTED MANTLINGS in different colors we offer as excellent value. An early inspection is solicited.

THE ROYAL CANADIAN INSURANCE COMPANY

WHICH WILL YOU HAVE?

The latest Blue Book shows that after providing for all liabilities the surplus of the ROYAL CANADIAN for the protection of its policy holders was \$668,974, besides stock to the amount of another \$100,000 subscribed, but not called up.

The same Blue Book shows that the surplus of the London Mutual was \$67,176, composed entirely of the unassessed portion of premium notes which no policy holder ever expects to be called upon to pay.

The following table shows at a glance how the affairs of the London Mutual have been going during the last few years:

Table with 5 columns: Year, Losses unpaid at close of each year, Cash available for payment at close of each year, Money borrowed, Surplus re-accumulating at full value.

It should be borne in mind that during the last three years the London Mutual collected in heavy assessments over \$30,000 more than usual, and yet at the close of last year after receiving a full year's income, they had only \$1,413 which to pay \$2,125 of unsettled losses. It is regarded as security no one should hesitate as to which company to select.
