For Bronchitis

"I never realized the good of a medicine so much as I have in the last few months, during which time I have suffered intensely from pneumonia, followed by bronchitis.

After trying various remedies without benefit, I began the use of Ayer's Cherry Pectoral, and the effect has been marvelous. a single dose relieving me of choking, and securing a good night's rest."—1. A. Higginbotham, Gen. Store, Long Mountain,

La Grippe

"Last Spring I was taken down with la grippe. At times I was completely prostrat-ed, and so difficult was my breathing that my breath seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I began taking it than relief followed. I could not believe that the effect would be so rapid."-W. H. Williams, Cook City, S. Dak.

Lung Trouble

"For more than twenty-five years, I was a sufferer from lung trouble, attended with coughing so severe at times as to cause hemorrhage, the poroxysms frequently lasting three or four hours. I was induced to try Ayer's Cherry Pectoral, and atter taking four bottles, was thoroughly cured. I can confidently recommend this medicine."-Franz Hofmann, Clay Centre, Kans.

AYER'S Cherry Pectoral

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5. Prompt to act, sure to cure

LOCAL NEWS-LETTERS

OMEMEE.

ACCIDENT.-A serious accident happened recently to Mr. Thos. Chambers. He was loading peas on to a wagon and the load not being built straight it commenced to slip. Mr. Chambers jumped to save himself, but fell across the front wheel of the wagon and then on the ground, where he narrowly escaped being run over, as the horses commenced to move. He sustained injuries which caused peritonitis, but he is now in a fair way to recover. DUNSFORD.

[Correspondence of The Post.]
Big Load.-Un Saturday last Messrs. John Everson and John Conway drew in for Mr. Jas. Long of Verulam the largest load of oats ever drawn in this township or perhaps any other. It looked like rain and they determined to get the grain under shelter if possible. Mr. Everson managed the team and Mr. Conway built the load, each coming in for deserved praise from Mr. Long for the excellent manner in which their work was done. More than two ordinary loads were heaped on and brought to the barn without mishap by a powerful pair of Percheron horses, noted for their drawing powers.

OAKWOOD.

KINMOUNT.

OUR MINES.-The efforts made by Mr.

Watson of this village, to develope the numerous deposits of tale which are found

about this district are being attended with

a considerable degree of success. About eight tons of talc are now waiting at one

of the mines for the inspection of a culler,

and after that inspection, should the report

ticed that the demand for tale has greatly

increased within the past year or two, owing to the extension of the system of

electric lighting. It is cut into washers

for the electric lamps, it being specially

adapted for that purpose owing to its

power of resisting heat. No matter how

great the heat to which it is exposed, it

remains unaffected. Very large quantities

are now used in the works where electric

plant are manufactured, and the demand

mand can all be supplied from this district,

plugs abound, and then the mining of it

becomes a most remunerative occupation.

who has an excellent machine.

The threshing business has been

A PECULIAR ACCIDENT.—An unusual accident occurred Thursday last by which John Rooney of Cobourg, a sailor on the schooner J. Drummond, lost his leg. As the boat was being towed out of the slip at the Ontario Coal Co.'s wharf he attempted to take the slack out of the hawser, and in so doing placed his foot inside the coll. The tugboat started ahead and the loop closed around his leg, cutting it clean off. closed around his leg, cutting it clean off. Rooney was taken ashore and cenveyed to St. Michael's hospital, where Dr. King dressed the mangled limb.

UXBRIDGE.

DEATH BY LIGHTNING .- Jos. Pringle of Mount Albert was struck by lightning on Saturday while riding on a load of grain and instantly killed. His funeral took place on Monday to Uxbridge cemetery, attended by a large number of triends. Deceased was the father of Mrs. H. Knowls of this town and some years ago resided here, being engaged on the railroad. He followed the same occupation after moving to Mount Albert, but lately had been obliged to give up hard work. From what we can learn he had been staying in company with a daughter from Toronto at a friend's farm for a short time and the daughter left for Mount Albert on Friday, the f ther saying if it was God's will he would be home the next day. He received the fatal stroke of lightning while on his way home. The funeral sermon was preached here in St. Paul's church by Rev. Mr. Westney to a large congregation.-[Journal.

BOBCAYGEON. ACCIDENT.—Silas, a son of Mr. William Finley, on the Galway road, met with a bad accident. He jumped into a bin of grain after some apples, and his leg struck on a scythe that had been laid in the bin. The keen blade made a frightful wound. Entering just under the knee it pushed the cap slightly upward and cut clean to the bone, exposing the knuckle of the joint. There is little if any hope of his re-

gaining the use of the joint. FROM TEXAS. - A distinguished rancher from Texas, Mr. Price, visited the village for there are very large quantities at attered this week to look at some horses. He throughout the country. It is found that men who did not drink this week to look at some horses. He throughout the country. It is found beer were not only able to do more work chiefly in "plugs." These plugs are gen par diem, but their powers of endurance

ing a lariat. He describes Texas as a vein of rock is discovered in which these great country, some eight hundred miles by seven hundred miles, a wondrous climate, and a kindly and sociable people. The village ought to be grateful to Mr.
There is just one point on which the Watson for having brought the tale re-Texans are a trifle touchy-you must not sources of this district so prominently steal horses. Anyone who tries that and before the notice of the public .- [Indepengets caught that moment his operations | dent. and his carcase are simultaneously suspended. Mr. Price thinks well of Ontario's cattle and horses, and annually imports a considerable number of our high-grade stock.-[Independent.

CAMBRAY.

MEETING OF THE P. S. L. S. - Oa 9.h ingt., at 3 p.m., the meeting was opened by singing "The red white and blue." The president then introduced the following officers of the society: Lydia Clendenan, Emma Haight, Miss Pearce, Maggie Sinclair, Maud Cowleson, Susie Williamson and Herbert Routly. Each made a short pointed speech containing valuable thoughts and suggestions. "Pull for the shore" was then sung in a rousing style. Upon being called to the chair the vicepresident asked the president to address the meeting. After complimenting the previous speakers on their able addresses, he set forth the advantages and possibilities of the society and thereby intensified the desire to make the society an assistance | been improved as it might have been? Had to every member of the school. Suitable | there been any spiritual advancement? readings were then given by Lillie Scott, Sophia Taylor, Martha Clark, L'zzle Douglas, Ethel Fanning, Ethel Avery, Ida Tompkins, Linda Wells, Titlie Chambers, Athol Feir, Louis Jackson, Wilbur Avery, Sonald McFarquhar, Frank Moore, John Sinclair, Ernest Tompkins, George Moore and Frank Haight; recitations by Lillie

and Native Land." OATMEAL WATER

just made an experiment among its work comber, Saturday morning, by which seven men that has a moral significance. Over injured, and about twenty more or less injured, and about twenty more or less scalded. The particulars are as follows: transformed to narrow guage in the short- About 6 30 a.m. the night watchman gave test possible time. Five thousand men time 25 pounds of steam was in the boiler were employed by the company to do this, which exploded. The fire was increased and they worked two successive days of and it is supposed that there were eighty and they worked two successive days of seventeen hours each, with only short in tervals for meals. The company knew that the strain on the men would be exceptional. They also believed that if the men took their usual tonic of beer they would be incapable of doing the work; so water was supplied in which quantities of catmeal were soaked. This was furnished to the men freely, with the result of proving not only to the managers of the carliness of the bodies, while the skulls of the victims were crushed and the brains dashed out. Doctors Abbott and Anderson of Comber were aummoned and did all in their power proving not only to the managers of the work, but to the men themselves, that for hard and continuous labor oatmeal water of the boiler was carried over 200 feet far surpassed beer in its sustaining qualities. The overseers of the work were so impressed with the result of their experi-

ment on these 5 000 men that they are really preaching the use of oatmeal water to all men employed on the road, and be favorable, the tale mining will be steadily proceeded with, and the mineral be despatched to market. It may be nomany of them have given up the use of beer. It has long been known that oatmeal water possesses peculiar hygienic qualities for those who work in excessive heat, and the firemen on the great transatlantic liners are freely supplied with it. In commenting on this fact with a man who is brought in contact with a number of laboring men, hod-carriers and laborers in house-building, he stated that he had been observing the men closely, and he found that the beer-drinking men were worth 25 cents less a day to any employer than the men who did not drink in the mere matter of the amount of work performed. It had also been the result of his little in cotton. Mr. Price has had some erally about a foot in diameter, and from per diem, but their powers of endurance The caperience and knows two to six or eight feet in langth, and are | were far greater than those of the beeraccount his about riding horses and throw- usually imhadded in rock. Sometimes a drinking men; that in intensely hot beer-drinking men being compelled to lose at least half a day every two weeks; that the effect on the temper of beer-drinking was very bad; that the men who drank beer were irritable, had less self-control, and were more constantly engaged in a war of words with their companions. He ended by saying, "I would like to see a contractor engage his men, when under-taking a big piece of work, with the understanding that no beer was to be drunk during working hours. I believe that if he could do this he would accomplish the work with far less friction among the men, and less friction with the labor

EVENTS OF THE WEEK.

I-Advices by the steamship China, which in, or wishing to learn more of Christian Japan on Friday, state that there were serious floods in north China early in August, resulting in considerable loss of life and property. The steamer found the Peiho river almost impassable owing to the volume of the freshet. Great damage was done in the Upper Yang-Tse.

-A man named Tobin was killed at the blast furnaces, Ferrona, Picton county. The cogs of the machinery stopped from some cause at midnight, and Tobin put his hand in to remove the obstruction. He was drawn in between two big drums and crushed to death. His fellow laborers heard the agonizing cry, "Oh, my God," as the poor fellow was drawn in to his horrible

very instructive address on "Mental Culture." He said that culture is not a few -The wife of Charles Billings, a poor, lliterate mountaineer living in Ashe county, N. C., 28 miles from the neares railroad station, the other day gave birth to six children, all boys. They weigh from 41 to 9 pounds each, and are all alive. Mrs. Billings is of mediam stature and 31 years old. She has four other children, but they were all born singly. Billings depends on game, fish, etc., for a living, but since the arrival of the sextet he has been accepting congratulations and donations extended by rural bospitality.

INTENSE SUFFERING!

Mr. William Buchanan, 24 years engineer in the Cunard Steamship Company's service, 8 St. John's Road, Kirkdale, Liverpool, Eng., writes: "I suffered two years of agony from an affection in the head which six physicians pronounced incurable.

They were divided in opinion as to whether it was acute neuralgia of the head or rheumatic affection of the brain. but all agreed that I could never recover. In my paroxysms of pain it needed two and sometimes three men to hold me down in bed. When at death's door,

ST. JACOBS OIL

was applied to my head. It acted like magic. It saved my life. I am well and hearty, and have had no return of the trouble." "ALL RICHT! ST. JACOBS OIL DID IT."
