LINDSAY, FRIDAY, SEPT. 29, 1893 TROUBLE IN THE TORY CAMP.

There is some significance in the undisguised relief with which certain tory

organs give prominence to the report in a New York sensational paper that Sir John Thompson is to be appointed one of the low lords of the privy council, and that as a consequence he will soon retire from the stormy arena of Canadian politics to the serene atmosphere of one of the highest of earthly judicial tribunals. There are not a few indications that our tory friends hardly know what to do with their premier, or what to make of him. The party under his leadership came to grief in very short order in Nova Scotia; and in the wider Dominion field there are many indications of disaffection that must alarm the old managers. The young conservatives of Toronto have had a troublesome "bolt;" it requires constant work on the part of the machine hacks to keep the lodges in line; and on the question of tariff reform there is serious divergence. Sir John opens his campaign in Ontario by ostentatiously denying that the party is divided and by thanking God that the men who would divide the party had "passed out of the party" and u outside of the party could pursue their " nefarious work." This was a straight drive at Dalton McCarthy, and the reports state that it was heartily applauded by his tory audience. Mr. McCarthy has not been disturbed by this

The politics for "keeps," and goes on to state which he is the head." that the relations between the premier and Sir Chas. Tupper are quite strained, so much so that Dominion ministers in London were not invited to take tea in that gorgeous residence furnished at the public expense for the lord high missioner; and that when Sir Charles was in Ottawa he "went near none of the " ministers, but kept himself to himself and his friends at the Russell house. This is really too bad. The Saturday Night editor states that the tory party is demoralized in New Brunswick; in Nova Scotia it is managed by cliques; in Manitoba it is going to the deuce; while in Ontario matters are in very bad shape. The editor says he has been over the ground in all the provinces except Prince Edward island, and he declares that the or subordinate lodges are prohibited from general impression is that Sir John Thompson is only nominally the premier; that "the party everywhere is feeling the absense of a real leader; in fact, to put " it briefly, the party threatens to go to pieces because no large politician and Wallace, belittles himself by assisting a competent chieftain has formulated a policy on the acceptance of which he decides as to the fealty of his followers.' t must be borne in mind that the writer tool of our loyal order for the furtherance of these reflections is no follower of McCarthy. In view of the melancholy outlook we humbly venture to suggest to our local tory friends that they had better hurry up and appoint a caretaker to the Lindsay post office.
