Threatened With Paralysis-Weak, Emaciated and Unable to Stand Fatigue-Pink Pills Restore Her Health

From the Napanee Beaver, The Rev. F. B. Stratton, of Selby, is one of the best known ministers in Bay in The Post would be read by some one of Quinte conference, of which body two years Mr. Stratton has been stationed at Selby, both he and Mrs. Stratton won hosts of friends among all classes for their unassuming and sincere Christain work. Some time ago Mrs. Stratton was attacked with partial paralysis, and her restoration having been attributed to the use of Dr. Williams' Pink Pills, a reporter of Beaver was sent to interview her. In reply to the reporter's question Mrs. Stratton said that she had been greatly benefited by Dr. Williams' Pink Pills, and was perfectly willing to give her experience that those similarly afflicted might be benefited. Mrs. Stratton said that before moving to Selby she had been greatly troubled by a numbness coming over her sides and arms (partial paralysis) which, when she moved, felt as though hundreds of needles were sticking in the flesh. For over a year she had been troubled in this way. occasionally a dizzy spell. She was becoming emaciated and easily fatigued and was unable to get sleep from this cause. The trouble seemed to be worse at night time. Mr. Stratton had become greatly alarmed at her bad state of health, and it was feared that complete paralysis would ensue, Weaver, of Ingersoll, had been similarly stricken at about the same age. Knowing a young lady in Trenton, where Mr. Stratton had been previously stationed, who had been cured by Dr. Williams' Pink Pills, it was determined to give them a fair trial. When Mrs. Stratton began using the Pink Pills she was very thin and her system badly run down, but from the town, and with this a lct was after taking the pills for a time, all symptoms of paralysis disappeared, and she found her health and strength renewed and her weight increased. Mrs. Stratton is about fifty years of age, and a more healthy, robust, and younger look-

ing lady is seldom seen at that age. In reply to the reporter's inquiry as in building up the town as Captain Cranto what Pink Pills had done for his wife, dell has done in a public way. There are a number of subscribers ing public affairs, it would be better for here to his paper, and these do not care to the town in its financial interests, as well save something out of this year's taxes to have an unfair advantage taken of our ball as in those larger interests of a moral boys, who behave themselves as well as ity. Keep at it, Mr. McSweyn, and give the average ball tossers. I think it be the public and the council the benefit of next January. The people are getting their eyes opened and are beginning to see who their friends are. - Yours, Civis.

The Town Council.

[To the Editor of the Post.] SIR,-I am glad to see that a gentleman of the ability and standing-of Mr. Mc-Sweyn is taking such an interest in town matters as to come into the public prints with his opinion. That is the manly and and what the council want, is open and CROPS -Our farmers, we believe, are free discussion. SIR,-It might happen that your letter foolish enough to believe your account of might result to the town, otherwise would not trouble myself to reply. It suits you now and then to come down from your perch and, without deigning to make yourself aware of the facts, you read us poor mortals a lecture on our sins and shortcomings, and then, shaking the dust from your feet, soar aloft and become lost in your own conceit. As mayor, I will not ask the council to consult our solicitor as to the validity of the by-law levying the rate which is the subject of your latest exuberance. This word may not fit-but it is the best one I can think of just now.

Your letter contains four complaints. You charge the council with levying a rate of 25 mills on the \$ exclusive of school rates. Now, sir, how dare you calmly sit down and write a letter which you expected to go broadcast over Ontario, to be read and believed-containing a statement which must result in damaging the credit of our town-without taking the trouble to find out if it were true or not. Do not carry your head so high. A former neighbor of yours in the north ward used to remark "that it was better to conceal knowledge than to expose igorance," and you might profit by observing this rule. Our rate of 25 mills on the \$ is inclusive of the school tax, not exclusive, as you say. You were guilty of gross negligence, and not for the first time either, in making an attack without being sure of your facts. Breathe a little common air through your nostrils, the same as the rest of the townspeople, and it will do you good. In a question of this kind your igorance is inexcusable and

your usefulness is gone. Secondly, you say we built a wharf which was to be directly beneficial to one of the council." In reply, I say we did not living for the past century? Some years ago a private subscription was taken up,

Things we Would Like Abolished-The Patrons' Long Day. To the Editor of THE POST.

SIR,-The Patrons of Industry came into existence as a social and political body for the purpose of consolidating the agricultural vote into the deciding factor in removing various irregularities in our social and political system. Special privileges to the professions were to be abolished: sundry departments of the public service were to be made cheaper to the public: laws were to be made more just and equal to all-in short, anything requiring redress was to be considered and

Council MR. EDITOR,-It is evident, that Mr. McSweyn is an aspirant for municipal honors. I think I heard him say at the public meeting last fall that a large numfor the mayoralty and place himself at the head of the council. I think, after his friends have read those famous letters of his, they should be content to have him tacked onto the tail end until he learns a little municipal law or shows some little Lindsay. The by-law passed at last meeting of council, striking a rate of 25 mills on the \$, includes everything, and is not exclusive of school taxes, as stated by Mr. McSweyn. The number of mills for each particular purpose is stated so plainly in ments should go uncontradicted injury | the by-law that a child could understand | tubes in a state of constant irritation, it, so that Mr. McSweyn is wilfully mis- which, if not speedily removed, may lead leading the public, or else he don't know

what he is talking about. This legal luminary, sitting in judgment on the council, tells the public that it is an illegal act to pay off \$2,000 of the so-called floating debt, and that the council is setiog contrary to the wishes of the people, expressed a few days ago at the polls. Did anyone ever hear such nonsense? A by law to raise \$8,000 by issuing debentures to pay the floating debt was voted down, and by the vote given I understood the ratepayers to say "we won't allow you to add any more to the debenture debt of the town-you must curtail expenses and strike a rate to pay your way," and this is will pay every cent of this year's expenses, and also pay the county rate usually carried over. This leaves the council of 1890 on clear footing so far as the county rate is concerned, and Mr. McSweyn says this is an illegal act! Well, it may be, but it's

The ratepayers won't allow debenture to be issued to pay the floating debt, and Mr. McS. says the council is not to strike a rate to pay it. Please, Mr. McS., how is it to be paid? Give us a little common sense and not so much law. Mr. McS. did not expect much attention paid by the council to his letter. I don't think he should .- Yours,
