"In many respects Cassidy's ride is a remarkable performance. Unlike the riders who started from scratch, who alternated in making the pace, he had to ride practically unpaced the whole distance. The time would have been considered akin to marvellous if he had ridden the twenty miles over a free course, but the fact that he had to ride in a blinding cloud of dust, treading his way here and there through straggling bunches of riders, over a road honeycombed with ruts and holes, makes it a truly great achievement. Cassidy has quite a reputation as a track rider, and has beaten all the best men in the amateur ranks at one time or another during the season."

matter was under discussion Conjecture was set at rest this morning, when Mr. Barron was notified by Hon. O. Kearney's sentence of death had commuted to imprisonment for life, after earnest consideration of the expert evidence sub-mitted to him. Mr. Barron at once communicated the news to Sheriff McLennan, who no doubt breathes easier since he is freed of the most unpleasant duty pertaining to his high office-that of arranging for the execution of a criminal,

About 11 o'clock Gaoler Andrew Jack-son was notified of the commutation of few seconds to see if he would address him Mr. Jackson said: "Kearney, you're reprieved." Kearney then raised his eyes, and well contested and in his usual tone of voice asked: "For how long?" LINDSAY'S BIG EXHIBITION.

Opening of the 14th Annual Central Fair There were no busier men in the county for the past week than the officers of the Lindsay Central, which was opened yesterday. Owing to the enormous increase in the number of entries in every class, the task of apportioning space is taxing the ingenuity of all, and as many of the exhibits will not reach the grounds till to-morrow provision has to be made for what is practically an unknown quan-tity. However, the officers are all experienced and energetic, and will no doubt be able to handle their departments to the

satisfaction of exhibitors and the general As mentioned, the entries are far ahead of any previous year; the showing in fruit will be particularly large and choice. In apples alone several exhibitors will show a dozen of as many as twenty varieties, consequently table room is at a premium. Many of our merchants are arranging imposing exhibits of the goods carried by them, and the rich and varied displays will add greatly to the attractiveness of the interior view.

It was too dark for the book-makers to pay their losses when the 2.27 race was over, so they announced that the cashing of tickets would take place at the St. Charles hotel.
