Anæmia means "want of blood," a deficiency in the red corpuscles of the blood. Its cause is found in want of sufficient food, dyspepsia, lack of exercise or breathing impure air. With it is a natural repugnance to all fat 100ds. Scott's Emulsion is an easy food to get fat from and the easiest way of taking fat. It makes the blood rich in just those elements necessary to robust hea'th, by supplying it with red corpuscles.

Peace Treaty Signed on Saturday at Constantinople.

Est the Greeks Accept the Settlement Mournfully and the Politicians ure Indulging in Recriminations - The Sultan Hints That He Will Expect Concessions in Cr. te.

London, Sept. 19 .- At last an official end has been put to the Greco-Turkish war, which really terminated some 15 weeks ago, by the Sulian yesterday afterneon attaching his signature to the terms of peace. It took the ambassaders of the powers more than twice as leng to arrange them as the actual hos-

At present the result of the struggiet is a military victory for the Sultan over Greece, and undoubtedly the Sultan hopes and intends to gain a reward for yesterday afternoon's act of complaisance in the shape of concessions in the matter of Crete. This he plainly showin an interview with Signor Pansa, the Italian Ambassador at Constantinote, when he said that in return for Turkey's yielding in the matter of peace expected that the powers would show leavency concerning Crete.

1. Signor Pansa's suprised remark that the autonomy of Crete, to which | Snow." Turkey had consented, had already been at ted upon, the Sultan replied with a Sesture expressing "We shall see."

THE DISTRESS IN IRELAND

Appears to be Determined by Which Party's Eyes View It.

London, Sept. 18 .- The extent of the distress threatening Ireland seems to depend largely upon which party's eyes view it. The Council of the National Federation has decided that the country is on the brink of a widespread calemity, and calls aron Messrs. Dilion and Harrington to convoke a meeting of the Irish members of Parliament for the purpose of requisitioning Mr. A. J. Balfour, the Government leader in the sury, to call an autumn session of Par- Trudging Through Slush and Bogs and Up liament to devise relief measures and to pass a bill reducing rents in Ireland in proportion to the loss incurred by the tenants, owing to the wholesale destruction of their crops. On the other hand, The Dublin Express says the cry of famine is only a continuation of the

"Judging from the past we may hope that much of the crops doomed to destruction by the prophets of evil will be rescued, and that the general yield will be much larger than expected." The Daily Independent regards the suggestion that the Duchess of York will shortly appeal for funds in behalf of the Irish who are threatened with famine, in a manner similar to the appeal of the Princess of Wales in beof the Queen's Jubilee, as being an insult, and says: "If the country was ten times as

A TRIUMPH OF SCIENCE.

Prof. Milne's Earthquake-Recording Apparatus Proved Wonderfully Correct.

London, Sept. 19.-Prof. John Milne furnishes wonderful proof of the exact reliability of the carthquake-recording apparatus, even when almost the diameter of the globe from the scene of disturbance. He writes: "While at the British Association meeting in Toronto exhibited a seismogram which had been forwarded from my station on the Isle of Wight. This was the record of large earthquake, the duration of which had been Gree hours. From the general character of the diagram, and because the preliminary tremors had a duration of 30 minutes, I suggested that the centre of the disturbance was in or near Japan, and, if so, originated there on Aug. 5, about 9.06 a m.

"On Aug. 26, when I left Toronto, no news of such an earthquake had been received. I now find by mail advices, dated New York, Aug. 30, that in Japan there was an earthquake and tidal wave, accompanied by much loss of life, on Aug. 5 and 6. Capt. Snow of Yokohama, in a letter dated Aug. 5, says: "While I am writing a heavy, slow earthquake is going on. It is now 9.14 and not more than one nundred have got their outfits this side of the summit.

"The character of the motion felt by Snow indicates that Yokohama was a considerable distance, possibly 600 miles, from the place of origin of the disturbance. Therefore the time the earthquake took place was at least five minutes earlier than noted by Capt.

THE ENGINEERS' STRIKE.

Mr. William Mather's Proposal to Settle it Did Not Meet With Favar.

London, Sept. 19 .- A meeting of the Employers' Federation was he'd Saturday, at which the plan for ending the great strike in the engineering trade few days ago by William Mather, an ex-member of Parliament and managing partner of the Great Salford Iron Works, was exhaustively discussed. Mr. Mather's proposal, which, in effect, was a compromise, based upon 48 hours as week's work, with a mutual agreement that the shifts shall work overtime, was considered most inadvisable. The employers in the London district, who had conceded the eight-hour day to their employers, withdrew this concesssion when they joined the Employers' Fede-

In an interview this evening the secretary of the Amalgamated Engineers spoke in a despondent manner of the outlook for a settlement of the dispute.
