SURGEONS' KNIVES

Failed to Remove the Disease from Hezekiah Vaughan's System-Dodd's Kidney Pills. Which Have Never Yet Failed, Cured Him in Short Order.

SANDWICH, Sept. 13 -Hezekiah Vaugh- plaint. an, of the township of Gosfield, has lately gone through a severe surgical operation at Harper's hospital, Datroit, for what different doctors disgnosed as liver com-plaint, kidney trouble and bladder complaint. Four surgeons cut away at him for 45 hours, but when they got through none of them could tell what was wrong, and the patient was left as bad as ever. The banefi's derived by a neighbor from the use of Dodd's Kilney Pills Induced Mr. Vaughan to try them. From the first he began to improve. His bowels soon became regular and the pains that affi cted him disappeared. Six boxes restored to his former vigor a man who had abandoned all hope of regaining sound health.

Off to the Yukon.

The Klondike gold fever has struck this place and now nothing else is talked about. Quite a number want to go, but the trouble is getting there. Eren some of our old business men have the fever, and if able This week Mr. G. A Strickland, manager

of an English company formed for mining, trading and transportation in the Klon-dike, with Messrs. F. R. S. Barlee as clerk, Giles Stone as woodranger, and W. Baptie, mechanic, left for the Klondike. The party left Toronto on Wednesday noon for Vancouver, from there by boat to Dyea, Alaska. The trip will take about fourteen days from here, and the future movements of the company will be decided on reaching Dyea. Mr. Strickland intends returning early in the winter. It is likely a number more will start from here next spring. The company proposes to purchase

general merchandire and stores of every description in the best markets to be sent up expeditiously to the gold fields for sale or barter, to take advantage of new openings for the sale of stores and miners' effects, to fit cut prospecting parties with camp equipments, provisions and implements, and to undertake transportion both by land and water. In the company's prospectus mention is made that the fortunes made by pioneer traders during the famous gold rushes in Melbourne and California and also in more recent to the famous gold rushes in Melbourne and ly injured. California, and also in more recent times in South Africs, in supplying goods and

transport to the miners and prospectors are matters of history, and the directors of this company consider there is every The company proposes to erect depots for the storage and sale of provisions on a similar scale to the Hudson Bay Co. In addition to the profits and the sale and resale of claims the company expects to What Dyes are strong, and bright, and realize from transport of p:ssengers and cargo, establishment of genera stores, trade in live stock for transport and other And always dye to live and last? prices, the purchase and sale of timber and building material, the sale and ex-

tions and town sites.

Mr. R. H. Strickland, son of Mr. R. C.

Strickland, will likely assist in establish ing depots for the new company.—[Lakefield News.

DI ING OF LOCKJAW.

and is Starving to Beath. New York, Sept. 17.—Henry Gebeth, a member of the Mount Vernon Cycle Club, and the crack rider of Westchester county, is slowly dying at his home in Mount Vernon-avenue of lockaw, brought on, the physicians say, by the failure of a broken bone to knit. On Labor Day Gebeth took part in he bicycle races at Williamsbridge. hile making his last lap a child ran p front of his wheel. He was thrown the ground and his right arm was broken in three places. He is unable to take nourishment, and is slowly stary. ing to death.

Pollowing British Methods. New York, Sept. 20 .- A special to The erald from Washington says: Congress I be asked at its coming session to make a large appropriation for the manufacture of modern high-power guns. to be installed for service on board auxiliary ern sers of the United States navy, in time of war.

LAKE'S AWFUL DEATH.

Drawn Head Foremost Into a Threshing Machine and Mangled in a Shocking Manner.

Owen Sound, Sept. 19 .- (Special.)-Yesterday morning a fatal threshing accident happened at the farm of Mr. William Lee, in the Township of Sarawak, whereby Mr. Albert Lake lost his life. The unfortunate man was feeding peas to the machine, when his hand was caught and he was hauled headotherwise badly torn and crushed. Death was almost instantaneous. Lake leaves a wife and six young children in poor circumstances. He was known as an honest and faithful workman, and keen sympathy is felt at the occurrence.

CLEAN OUT THAT SPRING.

"Tom," said my wife to me one morning 25c. a) breakfast, "if you have time to-day, I | Munyon's Cough Cure stops coughs, night wish you would clean out that spring. The water doesn't taste just right, and the lungs. Price 25c. there may be things in it that will make us ill. It's been running rolly quite often

Now that spring was about a quarter of a mile from the house, and the water came down through a pipe. We used it in three minutes. Price 25c. for everything—washing, cooking and drinking. It was very soft and sweet, and practically the same temperature all the practically the same temperature all the practical the process and the process and the water in three minutes. Price 25c. year round. But things would get into Munyon's Blood Cure eradicates all imit, and so it was my job to give it an annu- purities of the blood. Price 25c. al cleansing and scouting. Ruher a wet | Munyon's Female Remedies are a boon to and disagre able task, but worth while; all women for after its purgation the spring sent cut Munyon's Catarrh Remedies never fail. water clear as a diamond, and as pure as The Catarrh Cure—price 25c.—eradicates nature could brew it.

blood is free from impurities you cannot be healthy. For that reason few persons are really in perfect condition, perhaps no-body. There is no such thing as curing Price \$1. any disease unless we can drive the germs or poisons which cause it out of the blood. But how do impurities get into the blood? Through and from the stomach, for the blood is manufactured from the food in the stomach. When the digestion s perfect, or nearly so, the blood is virtu-

ments in the stomach and loads of blood with impurities, exactly as a foul spring or well sends out contaminated water. "In March 1885," says Mrs. Ann Willis, of 51 Rigg-st., Crawe, 'I found myself in a low, weak state of health. I ached all over, and was as weary and tired as though I had been working beyond my strength; yet that was not the cause. My appetite was poor, and after eating I was puffed and swellen at my chest and had a deal of pain. I was also much troubled with mszinets, and when out walking I feared I should fall down. My sleep was broken up and I felt as tired in the morning as when I went to bed. Then I got low and nervous. I couldn't bear company, and

took no interest in anything. For nearly two years I was confined to my bed, under a doctor's care. It was in February, 1887, that a friend urged me to try Mother Seigel's Syrop. I got a bottle from the Co-operative Stores in West st., and in a week I was greatly improved. I could est better and food agreed with me. I was brighter and in better spirits. I continued with the Syrup and grew stronger and work and enjoy my life. That is now eight years age, and at this date, March 6th, 1895, I have had no return of the com-

mouth, no appetite, and after eating I had weight and pain at the chest, and tightpess around the waist. I had an awful pain at the pit of the stomach that never let up night or day, and made me irritable and wretched. After a time I got so bad was afraid to eat—the food hurt me so. became so weak that I almost fainted as I walked along the street. No medicine gave me relief. In March, 1890, after twelve months' suffering my brother recommended me to use Mother Seigel's recommended me to use Mother Seigel's Storm of the season swept over the mountains last night, which is one invirtues from a happy experience. I got a bottle from Mr. H. B. Pare, the chamist, bottle from Mr. H. B. Pare, the chamist, in Laver-st., and it soon made me feel better, and in a few weeks it cured me completely. From that day to this (Feb. 19th, 1895) I have been strong and well."

Thus we see it is as I said: To purify the blood we must do away with the trail by the staggering thousands and the blood we must do away with the trail by the staggering thousands and indigestion, the dyspepsia; we must that the establishment of winter quar-cleanse and tone the stomach, which ters must be begun quickly, where not (when diseased), is the foundation of all already under way. The snow will rethe mischief. This necessary task is done | der it almost imposssible to make any by Mother Seigel's Syrup, with a thorough-ness that ensures a lasting and real cura. of the drifts that pile up from the winds. The whole body shares in the restoration, The snowstorm may be said to stop fur and so does the mind, whose powers rise ther progress over both Dyea and Skag-and fall with the condition of the body. Now, as for the stomach-spring, don't as a spell of dry, calm weather comes wait for any set time to clean it out. At Already the indications begin to bear that it needs attention.

Another Accident.

Miss Orde, accompanied by Mr. Marsh's little daughter, was crossing over from Allan & Co.'s store Thursday afternoon, and when about the centre of the crossing the little child unfortunately tripped and fell. At that moment Fisher's delivery rig came along and before Miss Orde could pick the little thing up the waggon passed over its back near the head, fortunately the waggon was empty or the child would have been killed. It was carried into Gregory's

Football Notes.

-The model school and the Collegiate teams played an interesting game last Wednesday evening. Though a very hot match was played during the first half time, no game was scored for either team, but after twenty minutes' playing in the second half the model school succeeded in scoring, followed five minutes later by a goal in favor of the Collegiate, just as time was called, making the match a tie. The model school team is an improvement on last year's, while the L. C. I. team is making a brave effort to uphold the former reputation of the ichool.

RELIEF IN SIX HOURS.

Geo. Seales, a Well known Contractor of Niagara Falls, Completely Restored by the Great South American Kidney Cure-Thousands More Can Bear the Same

I was a great sofferer for years with fancy I can trust my judgment to know a good prospect when I see it."
Inasmuch as Mr. Edwards has the repuacute kidney disorder and pain in my stronger, and able once more to do my sides When almost all other known failed, I was advised to take South American Kidney Cure. One bottle did me so much good I purchased two more. I am "In the Spring of 1889." says Mrs. I have for five years. It's a great cure; Will give relief in six hours, and I delight in recommending it to others. Sold by A. Higiato ham.

HOBBS

PHILIP MORGAN, Druggist, nearly Opp. P. O.

pectors are Going In. Buffalo, N.Y., Sept. 20.-J. L. Edwards, a well-known mining man and capitalist, who registers from Salt Lake City, but whose home is divided between the locations of his several successful gold mining properties in Montana, Utah and Colorado, arrived in Buffalo to-day. Asked as to whether he had any intention of going to the

Klondike region, Mr. Edwards said: "No; I am not going to the Klondike, but I have just come from the Lake Superior and Rainy Lake gold field, and the more I feel that I do not care to go to Alaska. I think that the new country which is being opened up north of the Min-nesota line and Lake Superior—the Lake of the Woods territory and the Michipicoten field—is the most promising country for paying mines that I have ever run across. I am amazed by it. I have already secured some options and have made some purchases there, and I am going back again "The mines about the Lake of the Woods

are showing up surprisingly. We who have made our strikes in the West have been rather skeptical about any mines of per manent value or of great number east of the Rocky Mountains. But my trip that country up north and northwest of Lake Superior has opened my eyes. The Michipicoten fields have not been much prospected as yet, but they are making some splendid showings in the little development that has been done, and more men are going in there every day. I saw some samples of decomposed quartz there that were as rich in gold as any I have ever seen in my life. The rock is very easily workable and there will be some big piles made there on small capital. "Did you make any investments?" was asked of Mr. Edwards. "Yes; I bought an interest in one claim and secured options on a couple more. But as a general rule, the miners there are not ready to sell for any moderate figure. They think they have a Golconda and

forget that it takes money to run mines. After a time, when the drst flush of rich discoveries wears off and money is needed to work the properties, then the figures will come down. Michipicoten is a good country for the prospector now, but it will be better for the capitalist 12 months Woods district I found the most tempting field for present investment that I have yet struck. Some of the mines there have been developed long enough to give a fair be judged as to the character of the developments beneath the surface showing, and this gives a chance to figure some-what on the probable character of newer prospects in the same country. New claims are being continually found and there are many enticing-looking prospects to be had there at reasonably low figures. "Of course one can not go out there and ness, but a good mining man can get hold of some splendid properties there now. I pick up a gold mine that will pay hand-some dividends unless he knows his busthave bought two claims upon the Lake of the Woods, which I will gamble on. I

may be said to "go." Another Gold Find. Detroit, Sept. 20 .- A Port Arthur special

to The Evening News says: A report has reached here of another gold find towards reached here of another gold find towards the eastern end of Lake Superior, about 40 miles northwest of Michipicoten. The ore is reputed to be rich in free gold and H. F. Eberts of Detroit, a mining engineer and explorer, who has spent many years on the north shore of Lake Superior, is credited with making the find. It is impressible to get the particulars, as only one possible to get the particulars, as only one man knows about it, and he will not talk. It is surmised, however, that the discov-ery must be in the vicinity of the Little Pic River, as it is known Mr. Eberts spent several months there this summer pros-pecting and examining mineral lands own-ed by Detroit people. An Oxford County Official Cured,

Woodstock, Ont., May 2nd, 1896.
This is to certify that I, James Ross Tollgatz
keeper of the Town of Woodstock, Ont., have been a sufferer from Indigestion and a very west stomach for a number of years and have tried a great many medicines of different kings, but could only obtain temporary relief for a short time, by could perceive a great difference. My indigesting was better and my stomach was much stronger than before, and I found I had gained seven pounds in flesh, where I was weak and thin in flesh before. I think I used nine or ten bottlesh all, and I am now a healthy man, but still I dong I procure one or two bottles every year and lear truthfully recommend Sloan's Indian Tonic to others suffering from the same complaints.
