Will the Czar's Peace Proposal Be History's Turning Point?

The German Press Sneers at Russia-France, Being Apparently the Pivoted Point, Receives It With Approval -English Press Reasonable, But Doubts Practicability-The Kaiser Was Bested.

St. Petersburg, Aug. 30 .- The newspapers here declare that the Czar's manifesto will probably constitute a turning point in history. The Novosti says: "It stands to reason that the disarmament question cannot be solved without a previous removal of the causes for the armaments. The conference must accurately determine the respective pretensions of the nations and propose means for a peaceful arrangement, and it may come to pass that at the close of the nineteenth century a liquidation may be effected of the international policies which are so prolific in troubles and dangers." The Novoe Vremya remarks: "All true friends of peace are naturally on the side of Russia, but it is impossible to guarantee that some of the western Cabinets will not raise objections, prompted by the fact that the armed peace which has Post Office and Express Money Orders are existed since 1871 is the main source of to and may be sent at our own risk. | their international strength." The Sviet, referring to the same subject, said: "If all the powers accept Russia's proposal with the same carnestness with which it was of Address -Always give both your old was made, the dawn of the twentieth our new Post Office when you ask us to change | contury will see the idea of universal gress; the name of the town and the state or | peace trininghant over that of unrest and when writing to this office. We cannot readily discord." The Viedomost expresses the gest name on our books unless this is done, as opinion that the note of the Czar is essentially "an attempt to introduce the element of trust into international relations," adding: "Whoever believes in the Cents per line (solid type) Nonpariel, first | creative power of ideas propounded with conviction and clearness must rejoice that the note brings a new and beneficent course into the world's life and groups

> Speering at Russia. Berlin, Aug. 30 .- The Czar's note was posted in the hotels and cafes, and is generally discussed rather cynically. A high official of the War Office observed

that it would be a "good topic for a dull season. If the conference met there would be no doubt that France would demand the return of Alsace-Lorraine." All politicians are inclined to sneer at such a proposal emanating from Russia. The general belief is, however, that all the powers are willing to attend the conference in the belief that it will prove resultless, looking to the impossibility of

anew the participants in that life."

Washington Views of It. Washington, Aug. 30 .- Whatever may be the result of the conference proposed by the Czar, should one be held and any. thing substantial eventuate therefrom, it is felt that it will not affect the United States in any appreciable degree, or extent. The sincerity of the proposal, which seems on the surface to be genuine, can best be judged from Russia's response in conference to a counter proposal that her concession from China to build the Siberian railway to Port Arthur be abandoned.

The Czar Thanked. Basle, Switzerland, Aug. 30. - The Zionist convention has passed a resolution expressing its profound thanks to the Czar for issuing his peace note.

The Czar Is a Dreamer.

London, Aug. 30.-Dr. Emil Reich, the eminent Hungarian historian and British counsel in the Venezuelan arbitration, in an interview on the subject of the Czar's peace note expresses the belief that His Majesty is visionary. He says: "The Czar is a dreamer. He is not in robust health and has always to take great care of his body. This scheme for universal peace is one of his dreams. It is also a feint. Count Muravieff, the Russian Minister for Foreign Affairs, hopes thereby to get a free hand in the development of Russian schemes in Manchuria."

English Religious World's Opinion. however, loudly welcomes and praises and also at unknown distances. The the Czar's noble initiative. Numerous bishops have already publicly expressed their views in that sense.

THE THUNDERER TALKS.

The Great Paper Sets Forth the Benefits of a Voluntary Instead of an Armed Peace.

London, Aug. 30 .- The Times says editorially: "The Czar's note breathes a spirit of generous, perhaps, indeed, almost Quixotic, humanity-a spirit familiar in the effusions of visionaries, but too seldom found in the utterances of great sovereigns and responsible states-

"Never, perhaps, in modern history, have aspirations which good men in all ages have regarded as at once ideal and unattainable found so responsive an echo in the counsels of the greatest and most powerful of the world's rulers. In princi ple the proposals of the Czar put forth on a solemn occasion with every mark of disinterested sincerity, will command the sympathy and respect of all men of good will. So far as Great Britain is concerned, we long ago abandoned Continental ambitions, and there is no power in the world which has less to gain, or more to lose by any disturbance of existing terri-

torial status quo. "The time has long gone by when British commerce could be made to flourish in and by means of war. The greatest of our interests is peace, and so sensitive is our world-wide commerce that even rumors of war often do us more injury than war itself might do to a power less dependent than is Great Britain on a free interchange of the whole world of the manifold products of its native industries. "If Russia, which has also a great but undeveloped industrial future before her, is becoming fully convinced, as we in England long have been, that her resources are better devoted to the beneficent arts of peace than to the destructive

uneconomic energies of war, Englishmen, as essentially a peace-loving people, can only hail the Czar's pronouncement with the utmost cordiality, as glad tidings of great joy, which, whatever may be the practical issue, does cast honor upon that sovereign's generous and lofty spirit and humanity. The difficulties are great, but nothing can henceforth deprive the Czar of having brought peace and disarmament into the sphere of practical politics.

"It looks at present as though all the great powers might be willing to enter might be expected to lend a favorable ear aldo says he personally favors an Amerithe conference, while the United States to proposals tending in any degree to less- can protectorate, but his soldiers are en the weight of the Imperial responsi- fighting for an absolutely free country. bility she is about to undertake. Her industrial policy is closely akin to our own and her abiding interest in the mainten-

ance of peace is hardly less vital." The Daily Chronicle's Paris correspondent declares that the disarmament olive branch would have emanated from Emperor William in Jerusalem, if the Czar's to avoid total alienation.

The Daily Telegraph says: "The idea is so beautiful that we are reluctant to

throw cold water upon it; but what is to be the basis of discussion? A conference which should recognize that free and open markets are for the advantage of the entire civilized world would indeed pave the way to universal peace; but, short of this, we fear the gathering will prove

abortive." The Daily News: "The Czar by this message has acquired a more righteous and enduring fame than belongs to the proudest conqueror of his illustrious house. There is no quarter from which such a manifesto would produce a more profound impression. Hitherto the great obstacle was that nobody would begin. The Czar cannot be suspected of making a virtue of necessity. We shall hardly be wrong in attributing the momentous policy to the Czar himself. It is the pen of Nicholas, but the doctrine of Cobden.' The Morning Post, discussing the difficulties in the way of the proposal, arrives at the conclusion that it would suit Russian needs and Russian designs wonderfully well, but would not suit England

FIRST BULLSEYE.

Opening of the Dom'nion Rifle Association's Annual Meeting at the Rockliffe Ranges-First Day's Work.

Ottawa, Aug. 30, - "Major-General Hutton, commanding the Canadian militia, bullseye, 5," was the first shot registered on the ranges at Rockliffe yesterday. The Major-General arrived on the grounds about 8.30 o'clock. He was received by Lieut. -Col. Dillon, chairman of the Executive, and escorted to the 600 yards firing point, where the riflemen were called opposite target No. 33, which was exposed, with the above result. Lieut.-Col. Dillon, on behalf of the association, tendered the Major General a

bearty welcome. Major-General Hutton made a pleasant speech in reply. He regretted extremely the absence of the patron of the Association, Lord Aberdeen, and the other officials. He was pleased to meet his comrades, as he took an intense interest in rifle shooting. On it to a great extent depended the standing of the militia forces, and it should be considered of prime importance not only by the soldiers, but by all. The association would be of great use in the development of shooting. Years ago Canada achieved great success because their fighting men, the Voyageurs, were hardy and handy with axe or rifle. Another instance was in Boer warfare, as the Boer was a marksman first and a soldier next. In the use of the new rifle long ranges should be advocated, with London, Aug. 30 .- The religious world, moving targets, advancing and retiring, Major-General then in a few feeling words referred to the loss the Dominion and the association had sustained in the death of the late Sir Casimir Gzowski, A.D.C., who had been such a long and tried friend to the association and to the riflemen of Canada. He then declared the military efficiency and welfare was to the

credit of Canada A little trouble was occasioned at the opening of the first shooting by the startling announcement that the markers refused to put up a target unless they got an advance from \$3 to \$2.50 per day. The Executive consulted, and, being unable to help themselves, acceded to the demand.

The Day's Matches. The wind, or what was of it, was from the right rear when the Nursery match started, and the first possible on the new range goes to Pte. J. Weatherbee, of the

82nd, who won the first prize of \$15 in the match with a score of 25. Following the Nursery came the Bankers' match at the same range, the number of entries being 347, which is about the total shooting this year. The weather conditions were about the same as in the Nursery, with the wind perhaps a little more to the right. The conditions were seven shots each, the result being a tie

for first place between Lieut, H. C. Blair, 78th; Sergt. J. Hutcheson, Q.O.R, and Sergt. Broadhurst, 5th R.S., 85 points each. The \$58 of the first three prizes will be divided between them equally. The Macdongail Challenge Cup commenced at half-past 1, nearly two hours behind the time table. The match was for a cup presented by Lady Macdougail with a badge and \$372 added by the Dominion Rifle Association. The cup is to be

the property of the member winning it twice in succession. The first three prizes were won as follows: Cup and badge and \$25-Capt. S. W Vermilyea, 15th, 50; \$20-Sergt. J. D. McNaughton, 30th, 49; \$15-Capt. A.

CONFLAGRATION AT ST. THOMAS.

Still's Handle Works and the Pipe Foundry Burned to the Ground.

St. Thomas, Ont., Aug. 27. - The greatest conflagration that has visited this city in many years occurred last night. Two of the largest manufacturing establishments in this town were reduced to ashes. The fire started in J. H. Still's handle factory, and it had such a good start that the fire brigade could do nothing except save one of the warehouses. The flames crossed the L.E. & D.R.R. tracks, igniting the St. Thomas Pipe & Foundry Company. This frame structure also burnt very quickly. Mr. Stills' factory employed 60 or 70 men. His loss is \$50,000; insured for \$9,700. The pipe foundry is valued at \$10,000 or \$12,000; insurance, none.
