LINDSAY, FRIDAY, SEPT. 1, 1899.

OPS TOWNSH P COUNCIL A Busy Session - Tax Rates Struck -Drainage, Stone-Crushing and Other

Matters Discussed. Ops council met pursuant to adburnment on Monday, August 21st, at the usual hour, all members present. Minutes of last regular and two special meetings were read and duly adopted.

Commissioners' Verbal Reports. Mr. Currins reported that he had gone to view the boundary road near the north-west corner of the township, with a view of draining the same; he was accompanied by Mr. Kennedy, commissioner for Emily, and they had let a contract of stoning the road to the amount of ten dollars each before digging side ditches, as a basis for the alluvial earth thrown

Mr. Hickson said he had made due mounty about the alleged trespass on Mr. P. Kirley's land by road-jobfers and stutute labormen, and was mformed that some had taken gravel from the western side of the road allowance because there was not room enough in the, pit on the east side for all hands at once, but that there was

really no trespass. Mr. D. Cayley was present, and said he had taken some gravel from the road near Mr. Kirley's fence, but had not encroached on his land, and had asked Mr. Kirley to measure the road width, and he (Kirley) would see that nobody was trespassing. Mr. Cayley added that he was quite willing to pay any damages done by him if it could be shown that he did wrong. With regard to the proposed culvert between Jas. Cayley's and Ed Burns', at lot 11. Mr. Hickson said that owing to the difference of opinion he would not put in the culvert except authorized by the council to do so. Mr. Jas. Cayley was present but as Mr. Burns was absent, the matter was deferred till next meeting, and the clerk was instructed to notify both parties

to attend, when decisive action will be Municipal Drain No. 1. Mr. Geo. Smith, township engineer, addressed the council in reference to Municipal Drain No. 1, at which he has been working, saying that it would be over four miles in length, and drain a large area of land; ; that owing to the influx of so much water the railway culvert on lot 24, con. 4, two or three creeks. Mr. Smith ex- | that it was. plained that the old R. R. culvert at | Prohibitionists have a strong rethat point was a bridge 12ft wide, but that it had been narrowed since to a culvert about 5ft wide, which is now much too small, the bed of the creek, too, at this point, and for some dist tance up and down stream, must be lowered considerably to give ample fall for the water from the remote

age tr'butary to it. Mr. Wm. B. Fee, addressed the council, requesting that the street or road allowance between Parks L. L. and S. S north of Dermott-st., on lot 23, con. 6. be opened or assumed by council, that he might have free access to lot 11, at the north end of Park L.L. Mr. Fee suggested that the members go and view the place, but time being I'm ted Mr. Byrne moved, seconded by Mr. Calvert, that the reeve and Mr. Currins inspect the locality, at 3 p.m. on Saturday, 2nd Sept., proz, and report at next meeting .- Carried.

parts of the system on the large acre-

Tax Rates for 1899. In committee of the whole the council next proceeded to estimate the sum necessary to meet the expenses of the township for the current year, and finally decided to strike the township rate at 3 1-4 mills per dollar, the county rate being 2 mills, the general public school rate being 1 1-7 mills per dollar, the Separate school rate 3 mills per dollar, and the rates for the were on motion adopted.

a loan of \$100 under the Tile Drainage act was accepted, on motion by Messrs. Bryne and Currins, to aid in draining w. p. .. lot, 26, con. 1.

At the written request of Mr. Calvert, the clerk was, was on motion by Messrs. Currins and Bryne, instructed to notify persons interested in the Mahood drain to clean out their respective shares of the same, and Mr. Calvert was authorized to have the township part of it cleaned out in due

Rebineon-Kelley Drain. Mr. Calvert moved, seconded by Mr. Hickson, that the clerk notify all persons liable for the completion of the Robinson-Kelley drain work, as per award, to finish the same before Sept 15th next, or otherwise the township engineer will be instructed to relet the contracts and have the work completed at their expense.-Carried. Mr. Hickson moved, seconded by Mr. 1 Curries, that Mr. Calvert proceed to open a drain on the e. hf. lot 11, con. 7, sufficient to convey the water from the roadway on the east side of said

lot .- Carried. Messrs. Geo. Maloney and H. Hart attended the meeting to have an understanding with the council about the bulance of the stone crushing. Mr. Hart said he could hardly be held responsible for the completion of the

SOME CHANGES MADE BY TH EDUCATION DEPARTMENT.

Agriculture Made Obligatory in Forms Four and Five in Rural Schools-Other Changes.

Important changes in the courses of study in the high schools and higher forms of the public schools o fthe province will take place. In accordance with the amended regulations issued last week by the Educational Department, argiculture is made an obligatory subject in Forms IV. and V of the rural schools, and bookkeeping must be taught in the high schools. Agriculture and manual training become optional subjects with high school pupils. The examination for public school leaving wilf hereafter be the same as that for the first part of the junior leaving course. The exam nation for Form 1. of the high schools is abolished. The following are the amendments in detail:

The public school course of study is amended so as to include agriculture among the obligatory subjects in all rural schools for Form IV. and V.; for the latter form the text books are to be used by the pupils, but for the former the instruct on is to be by conversation only. Agriculture will remain optional for all public schoo's in urban municipalities. Needlework, domestic economy, and manual training may be taken up in urban schools with the approval of the trustees. In poetical literature, the course for Form V. will embrace such sections from the high school reader as are recommended by the teacher. No special selections are prescribed by the department. Where the trustees have reading, such works as are recommended by the teacher, under the direction of the inspector, may also be read.

The high school course of study is amended by making bookkeeping obligatory, and by adding agriculture and manual training to the list of toptional subjects. In poetical literature for Forms I. and II. no special texts are prescribed by the department, but th epupils shall study such selections from the high school reader as may be recommended by the principal, together with such books for supplementary reading as may be recommended and which may be obtained case of pupils preparing for university matriculation or tak ng the course for a commercial diploma, or where the board introduces manual training or any other branch of technical education, on the recommendation of the principal less time may be given by the pupils concerned to one or more of the obligatory subjects of the high A man who will willingfy tempt a school course so as to meet as far as

Examinations Standing.

At the high school entrance examination the paper in arithmetic will include such questions as will speedily test the accuracy of the candidates in the simple rules, as well as their knowledge of the subject, and the paper in dictation will call for the study of the authorized spelling book. The public school leaving examination will hereafter be ident cal with the examination prescribed for Part of the junior leaving standing. inspector to all pupils of public schools in his inspectorate who pass the examinations of Part I. of junior leaving standing. The present holders of public school certificates will be entitled to certificates of having passed the examination of Part I. of junior leaving standing by passing the examination in arithmetic and mensusuration, grammar and history, the prescribed percentage on the total of these subjects being also exacted.

There will no longer be examinations for the high school Form I., but holders of Form I. certificates will be entitled to certificates of having passed the examination of Part I. of junior leaving standing by passing in the sub-If your liver is out of order, causing | jects of arithmetic and mensuration, Biliousness, Sick Headache, Heart- grammar and history, the prescribed burn, or Constipation, take a dose of percentage on the total of these sub-

The graphy (dictation). course in agriculture will include what is taken up in the authorized text book as far as page 73. The course in the other subjects will be based as heretofore upon the work prescribed in the regulations for Forms I. and II. subject to requirements for examinations hereinafter mentioned. For 1900 no examination will be held in reading, English literature, drawing, bookkeeping, botany or agriculture, but no name of a student who has not given due attention to these subjects is to be included in the confidential report of the principal.

The subjects prescribed for Part II. of junior leaving standing are the following: English grammar and rhetoric English composition, English literature, ancient history, ar thmetic and mensuration, algebra, geometry, physics and Latin, and one of the following groups: (a) French and Greek, (b) German and Greek, (c) German, French and chemistry, (d) French, physics and chemistry, (e) German, physics and chemistry, (f) botany, physics and chem stry. A candidate who has already obtained a certificate of having passed Part I. of Form II. will not be required to take the papers in arithmetic and mensuration, English grammar and rhetoric and the obligatory

Senior Leaving Examination. In order to obtain senior leaving standing a candidate must pass the exexamination of Part I. of junior leaving standing, and in addition the subjects herein prescribed for Parts I. and II. of senior leaving standing, which may be taken at one examination or different examinations. Unsuccessful candidates at any previous of the entrance examinations. senior leaving examination will be allowed to write in 1900 for senior leavy

ing standing by selecting the same

options in the course as they were al-

lowed to take in 1899. The subjects of Part I. of senior leaving standing are the following English composition, English litera. ture, algebra, geometry, trigonometry English and and ancient history. The subjects of part II. of senior leaving standing are the following: Physics, Latin, and one of the following groups: (a) French and Greek, (b) German and Greek, (c) French and German, (d) French and chemistry, (e) German and

Question Papers. The papers in Part I. for junior leaving standing will be d'fferent from those set for matriculation. examiners will be expected, moreover, to set papers for the purposes of candidates who desire to become teachers, but it is not intended that the questions shall be more difficult than the regulations have called for since 1896. The papers in arithmetic and mensuration and grammar and rhetoric, as hereinbefore mentioned, shall b esubmitted to candidates, when writing on Part II. of the junior leaving course, in addition to the papers in these subjects taken by candidates when writing on Part I. For the opt onal groups it has properties. the exam nations will be equal in difficulty, as near as may be, in order that candidates who begin the optional subjects at the same time during their high school course may have equal advantages in preparing for the exam. as a present from the officials of the The Percentages.

Each question paper will hereafter be valued at 100. Candidates for junior and senior leaving standing will tween Hamilton and Toronto, is the agregate marks prescribed for each, of the parts into which the examinations are divided, as well as 33 1-3 per cent. on each paper. County Model Schools.

The abolition of the primary examination will not affect the rights of holders of primary standing obtained in 1898, or a previous year to attend county model schools. It should be understood that County Boards of Examiners are not allowed to award third-class certificates to cand dates who do not make the higher percentage required by regulation 63. A district certificate shall not be granted this section of regulations unless there there is a scarcity of teachers, and until the consent of the department has been first optained. Renewals, granted under regulation 87, are valid only in the county where issued. Beginning with the exam nations of the model schools of 1900, an additional paper in methods will be submitted to test the ability of the students in training to teach drawing, writing, elementary and bookkeeping, science, (botany or agriculture). There will also be an examination reading. The Local Press Only.

The results of the departmental examinations will not be published in the daily papers after this year. A number of protests have been made by Hugh school masters, who say that comparisons are made between schools, and some schools use the number of of students who pass as an advertisement. This leads to the belief that the end of education is the passing of examinations. In future the results of each school will be sealed and sent out to the headmasters of the school, when they will be published in the local papers, the same as the reports

HIGHLANDERS AT BELLEVILLE

A Gay Time Last Week at the Bay of Quinte Town.

Camp Grampian (Sons of Scotland) excursion to Belleville, per Grand Trunk Railway on Aug 24th was fairly well attended, about 100 of our citizens taking advantage of the exceptionally cheap rate. The party would have been larger but for the threatening weather. At Campbellford, Hastings and Sterling, the crowd was increased

conisderably. At 1.30 in the afternoon a procession was formed at the head of Front-st., headed by the 48th Highlanders brass bend, Toronto, and marched to the Exh bition Park, where athletic events bicycle races, etc., were successfully conducted. In the procession our reporter noticed the familiar form and features of Mr. John McSweyn, escorted by the Pepper twins, (the latter being dressed in Highland costume), Secretary A. Cathro, Mr. A. Ross and Mr. John Smith. Mr. J. M. Martin, formerly of town, but now of Kingston, competed in the open bicycle events. The highland fling and highland costume dancing, including the sword dance, were exceedingly well done. The spectators were furnished with lots of bagpipe music, and one could not wish for better music than was furnished by the 48th Highlanders'

In the evening a promenade concert was held in the skating rink, which was a great success. Following we give the names of some parties who attended: Mrs. G. Foster, Miss Adams, Mr. Max McSweyn, Mr. W. McCarthy, Mr. A. Cathro, Mr. John Smith, Miss Fee, Mr. C. Lindsay, Miss Twamley, Miss H. Widdess, Mr. A. Ross and Master Ross, Mrs. Soanes and Miss

Winter is dead, and I am alive to the fact that building will be brisk this spring.

Farmers and others should be wise in their generation and consult me before they make contracts for materials-I am positive I can save them money on almost everything in my line. Estimates furnish
