*Ayer's Remedies*

# Ayer's Pills

Are compounded with the view to general usefulness and adaptability. They are composed of the purest vegetable aperients. Their delicate sugar-coating, which readily dissolves in the stomach, preserves their full medicinal value and makes them easy to take, either by old or young. For constipation, dyspepsia, biliousness, sick headache, and the common derangements of the *Stomach, Liver,* and *Bowels;* also to check colds and fevers, Ayer's Pills

## Are the Best

Unlike other cathartics, the effect of Ayer's Pills is to *strengthen* the excretory organs and restore to them their regular and natural action. Doctors everywhere prescribe them. In spite of immense competition, they have always maintained their popularity as a *family medicine,* being in greater demand now than ever before. They are put up both in vials and boxes, and whether for home use or travel, Ayer's Pills are preferable to any other. Have you ever tried them?

## A SOLSVILLE MIRACLE.

*ANOTHER GREAT TRIUMPH FOR A CANADIAN REMEDY.*

**An Account of the Sufferings and Restoration of Philander Hyde—Helpless, Bed-ridden and Longs for Death—His Recovery From this Pitiable Condition —A Remarkable Narrative.**

From the Syracuse Standard.

During the past few months there have appeared in the columns of the Standard the particulars of a number of cures so remarkable as to justify the term miraculous. These cases were investigated and vouched for by the Albany Journal, the Detroit News, Albany Express and other papers whose reputation is a guarantee that the facts were as just stated. That the term miraculous was justified will be admitted when it is remembered that in each of the cases referred to the sufferer had been pronounced incurable by leading physicians, and at least one of the cases was treated by men whose reputation has placed them among the leaders of the world's medical scientists, but without avail, and the patient was sent to his home with the verdict that there was no hope for him, and that only death could intervene to relieve his sufferings. When some months later the restoration to health and strength of the former sufferer was announced it is little wonder that the case created a profound sensation throughout the country. Recently the following letter, which indicated an equally remarkable cure, came under the notice of The Standard :

SOLSVILLE, N. Y., June 25, 1892.

Five weeks ago father, (Philander Hyde), was very low and not expected to live but a short time. He was in such agony that we had to give him morphine to relieve the pain from which he was suffering. The doctors had given him up. They said there was no help for him, and my dear father longed for death as being the only certain relief from his sufferings. One day he saw in the Albany Journal an account of how a man by the name of Quant, living in Galway, Saratoga county, and who was afflicted like father with locomotor ataxia, had been very greatly benefited and hoped for permanent cure from the use of Dr. Williams' Pink Pills for Pale People. On learning that these pills could be had of the Dr. Williams's Medicine Company, Brockville, Ont., and Schenectady, and that they were not expensive, my husband sent $2.50 for six boxes of them. And what a blessing they have been ! Father has taken but four boxes of the Pink Pills. He is no longer confined to his bed, but is able to get up without assistance and with the aid only of a cane to walk about the house and all around out of doors. He has a good hearty appetite, his food agrees with him, the pain in the back from which he suffered so long and so terribly has left him. He has no more creeping chills and he appears and says he feels like a new man. The doctors had pronounced his disease to be creeping paralysis and said he could not be cured. How glad we are that we heard about those wonderful Pink Pills, and how thankful we are for what they have done for father. Indeed they have done wonders, yes, even a miracle for him. Respectfully yours, MRS. WILLIAM JOHNSTON.

The above letter indicated a cure so remarkable as to be worthy of the fullest investigation, and The Standard determined to place the facts, if correctly stated, before the public for the benefit of other sufferers, or if unfounded, to let the public know it. With this end in view a reporter was sent to Solsville with instructions to give the facts of the case as he found them. With these instructions he went to Solsville and on Tuesday, August 2, 1892, called upon Philander Hyde and learned from him and from his relatives and neighbors and friends the whole story of his sickness and his terrible sufferings, of his having been given given up by the doctors, and of his cure and rapid convalescence by the use of Dr. Williams' Pink Pills for Pale People.

It may be of interest to the reader to know that Solsville is a postoffice village in Madison county, N. Y., about 30 miles from Utica, on the line of the New York, Ontario & Western railroad. It is the station at which to get off to go to Madison lake, the charming and attractive objective point of a great many picnic and excursion parties. On reaching Solsville the reporter enquired of the station agent, who is also agent there of the National Express Company, if he knew a man by the name of Philander Hyde, and where he lived, and also if he knew a man by the name of William Johnson. "Yes," said he "I am William Johnson, and Philander Hyde, who is my wife's father, lives with me in that white house over there on the side hill; that's him sitting on the piazza."

When told that your reporter's errand was to interview Mr. Hyde and to learn about his sickness and alleged cure, Mr. Johnson said : "That's all right ; you go right over to the house and see Mr. Hyde and my wife. I will come over pretty soon, and we will be only too happy to tell you all about it."

"Will you walk in?" said Mrs. Johnson. "Those children (who were playing about the piazza) are my twins, and this is my father, Philander Hyde."

Mr. Hyde walked into the sitting room and taking a seat said he would willingly tell the story of his sickness and cure, and had no objections to its being published, as it might be the means of helping to relieve others whose sufferings were the same or similar to what his had been.

His story was as follows :

"My name is Philander Hyde. I am nearly 70 years old—will be 70 in September. I was born in Brookfield, Madison county, where all my life was spent until recently, when, becoming helpless, my son-in-law was kind enough to take me into his home, and from him and my daughter I have had the kindest care. My life occupation has been that of a farmer. I was always prosperous and well and strong and rugged until two years ago last winter, when I had the grip. When the grip left me I had a sensation of numbness in my legs, which gradually grew to be stiff at the joints and very painful. I felt the stiffness in my feet first, and the pain and stiffness extended to my knees and to my hip joints, and to the bowels and stomach and prevented digestion. To move the bowels I was compelled to take great quantities of castor oil.

"While I was in this condition, cold feelings would begin in my feet and streak up my legs to my back and would follow the whole length of my backbone. These spells, which occurred daily, would last from two to four hours, and were excruciatingly painful. I could not sleep, I had no appetite, I became helpless, and life was such a burden that I prayed for death. Why, my dear sir, the pain I suffered was more to be dreaded than a thousand deaths.

"While in this condition I was treated by Dr. Green, of Poolville, and Dr. Nicholson, of Solsville, and Dr. Weed, of Utica. They did me no good. I soon became perfectly helpless and lost all power of motion even in my bed."

"On the 24th of February last," said Mrs. Johnson, "we had him brought to our home. He had to be carried all the way in a bed. He was so helpless and such a sufferer the doctors gave him up. They said he had locomotor ataxia and that he could not be cured. They stopped giving him medicine and said they could only relieve the pain, and for the purpose he took a pint of whiskey a day for three months and morphine in great quantities.

"It was while father was in this dreadful condition that we saw in the Albany Journal the story of the miraculous cure of a Mr. Quant in Galway, Saratoga county, by the use of Dr. Williams' Pink Pills for Pale People. We had'nt much faith, but we felt that it was our duty to try them, and so we sent to the Dr. Williams' Medicine Company, and got six boxes of the pills. We read the directions carefully, and resolved to comply with them as fully as possible. We stopped giving him morphine or any other medicine, cut off all stimulants, and gave him the Pink Pills and treatment according to directions in which each box is wrapped. The effect was wonderful and almost immediate. In ten days after father began taking the pills he could get out of bed and walked without assistance, and has continued to improve until now he walks about the house and the streets by the aid of a cane only."

"Yes," said Mr. Hyde, "and the pain has gone out of my back and the numbness out of my legs. I have no more chills, my digestion is good, and I have an excellent appetite," and then after a pause, "But, ah me, I am an old man; I have seen my best days and can not hope to recover my old vigor as a younger man might, but I am so thankful to have the use of my limbs and to be relieved of those dreadful pains."

Mr. Hyde has continued to take the pills regularly since he began their use, and was on his tenth box at the time he told his story.

Besides Mr. and Mrs. Johnson, other people in Solsville confirm the accounts of the sickness of Mr. Hyde and of his most remarkable recovery, and a number of others for various ailments, are using the Pink Pills. The mother of Abel Curtis is using them with satisfactory effects for rheumatism, and Mrs. Lippitt, wife of ex-Senator Lippitt, is using the Pills with much benefit for nervous debility.

A further investigation revealed the fact that Dr. Williams' Pink Pills are not a patent medicine in the sense in which that term is usually understood, but a scientific preparation successfully used in general practice for many years before being offered to the public generally. They contain in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, and the tired feeling resulting from nervous prostration; all diseases depending on vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities, and all forms of weakness. They build up the blood and restore the glow of health to pale and sallow cheeks. In case of men they effect a radical cure in all cases arising from mental worry overwork or excesses of whatever nature.

These Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N. Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50 cts. a box, or six boxes for $2 50. Bear in miad that Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

## *EVENTS OF THE WEEK.*

—The Southern Pacific railway company and Wells, Fargo and company have telegraphed to Coffeyville, Kan., $6 000 to be paid to the men who killed the Dalton gang. It is said that the rewards offered for the gang, dead or alive, aggregated $6,000 each.

—Thirteen sailors from the British bark Bankburn were brought to Victoria, B. C., Friday last to undergo six weeks' imprisonment for mutiny. The men denied that they mutinied, but claim that the food given them to eat was so bad that they were glad to eat bran from the pig trough, but when the captain learned what they were doing he forbade them even the pig trough.

—Special agent Mulky reported to the Washington department that on the 16th ultimo he seized 950 cases of opium on the steamer Wilmington, from Vancouver to Astoria. The vessel was boarded outside the harbour of Astoria and the opium found before it could be thrown overboard to accomplices ready to receive it. The vessel has been libelled and her officers arrested. This is the second time in three months that the Wilmington has been libeled for smuggling opium.

## *MARIPOSA FALL FAIR.*

**The Banner Township's Great Exhibition —Fine Weather and a Most Successful Show—Large Number of Exhibits.**

The forty-fourth annual exhibition under the auspices of the Mariposa agricultural society was held Wednesday and Thursday of last week, October 5th and 6th, and the good record made last year was again beaten. It might be mentioned right here that the Mariposa society was one of the first organized in the province. In every department an increase in the number of exhibits was noticeable. The showing made in horses and cattle upheld the reputation of the breeders of the township, and in sheep, swine, poultry, etc., the quality was first-class. The judging of butter was a very difficult task, there being about fifty entries in all, nearly the whole of which was worthy of notice; it was pronounced one of the best assortments ever seen at a fair. The ladies' department as usual came in for a deal of attention and richly deserved notice. An interesting feature of the exhibition was in connection with the special prizes given by Messrs. Cowieson & Chambers for the colts sired by their excellent stallion Morocco; these colts were greatly admired by those interested in good horses. For the following prize list we are indebted to the indefatigable and courteous secretary, Mr. J. F. Cunnings:

Burgess of the Owen Sound collegiate institute staff. She was subject to temporary fits of insanity, and the coroner's jury found that she had committed suicide while in one of these fits.

—The New York Sun says: "Prof. Garner in his endeavor to acquire a knowledge of the monkey language could learn something to his advantage by visiting Fort Hamilton, where he could observe and perhaps commune with one of the most intelligent and interesting specimens of the monkey tribe in captivity. This monkey is small and black, and betrays an unusual amount of curiosity, even for a monkey. One Sunday recently the black monkey was more than ordinarily mischievous, and the concourse of sightseers was therefore large and attentive, almost surrounding the cage. On the floor of the cage lay a pink program. Someone threw a parlor match into the cage, and it fell in the sawdust. Jocko, as quick as a flash, seized it and instituted an investigation. He sniffed it, took a little bite of it and sputtered, looked steadfastly at it, and then with unmistakable disgust, threw it down. Its flavor evidently did not suit fastidious palate. After blinking at it for a few minutes he made a grab for the match, and it was ignited on the floor of the cage. The monkey was astonished, but he held the burning match for a second, then flung it down on the pink program, which immediately caught fire. Then ensued a scene which impressed a beholder with the idea that this monkey was worthy of a medal for his bravery and promptitude. The paper flamed up quickly, and the monkey fairly danced about it in his excitement. Then, with remarkable rapidity, he ran around to a part of the cage where there was a basin of water in which lay a tin spice box. The wiry little animal quickly filled the box with water, hurried back to the blazing paper, shook the water out of the box directly on the fire, and it was speedily extinguished. Then, fearing the fire was not entirely out, he jumped on the partly charred fragment and stamped on them, but still unsatisfied, and to make assurance doubly sure, he picked up what paper remained and tore it into many pieces, making certain that not a spark was left. His impromptu firemanic performance elicited shouts of laughter, and also expressions of wonderment regarding the intelligence and presence of mind displayed, but the little monkey, like all true heroes, bore his honors modestly and with becoming gravity.

BUILDERS, ATTENTION.—At the old reliable brick yard—established in 1870—I have now on hand a large quantity of CHOICE RED BRICK, which I will sell at the yard or deliver at Cannington or Woodville station as desired. For color and quality my make of Brick cannot be beaten. JOHN WAKELIN, Cannington. March 8, 1892.—36-1yr

NOTICE TO THE PUBLIC.—Having bought the county right to manufacture and sell the **CHESLEY CLOTHES REEL** in the County of Victoria, I am now prepared to book orders for this, the best clothes reel that is made. The Chesley Reel was patented Oct 21, 1891. It is the only commonsense elevating reel—no platform to build to put on the clothes, a simple lever lifts the clothes up out of all danger of teams or other things that would come in contact with them as any other reel or line. I am determined to sell it at a price that will allow every lady having clothes to dry to have a Chesley Reel. Farm produce taken in payment, or monthly payments. The following township rights for sale: Emily, Verulam, Somerville, Bexley, Carden, Eldon. These townships will be sold reasonably, and I will take good notes in payment. Here is a little fortune for good, honest, pushing men. I want good honest men as agents to sell for me at good pay. Apply to J. PEARCE, Box 283, Lindsay. Sept. 14, 1892.—23-tf.
