LINDSAY, FRIDAY, OCTOBER 25, 1895.

MARCHING TO VICTORY.

Ring the knell of hooding, boys, we'll sound it loud and long;

Chorus: Hurray! Hurray! the country shall be free.

Let every liberal be brave and true to duty's call;

God bless the cause, the righteous cause, for which freedom pray.

LOCAL NEWS-LETTERS

COUNT DE DORY.

A Well Known Denmark Nobleman Makes A Statement Which Will Prove of Great Interest and Value to Many.

Under date of September 1st, 1894, Count de Dory writes as follows from Neepawa, Man.: "I have been ailing constantly for six or seven years with severe kidney and bladder trouble. I have doctored during all this time with physicians in different countries without any relief.

Some One Said. "If you doubt the importance of small things consider how much mischief there is in a fly." Considered in this light TANGLEFOOT is the greatest hygienic in the world.

Some One Said. The cleanest and best sticky paper used. Keeps longer and catches more flies than any other paper.

NO TIME TO LOSE. Variable Autumn Weather often Seals the Fate of Rheumatic Sufferers.

Nothing Like it for Banishing The Awful Disease.

Old and Chronic Sufferers are Made Hale and Strong.

Mr. William McWilliams, of Bradford, Ont., writes as follows about his case: "Unassisted, I followed this testimonial as to the value of Paine's Celery Compound and railways and canals, and guarding the expenditure of resources with which he was entrusted and was in honor bound to expend with care and economy and account for. In his place there have been the Langevins and Haggarts in control, and the whole record of the spending departments since Mr. Mackenzie's time is a disgrace to Canada.

Take courage, all victims of rheumatism. If you have failed with doctors and the ordinary medicines of the day, remember, you have not yet given Paine's Celery Compound a trial.

The above is just an ordinary sample of the proof that cured people furnish every week.

Let us utter a few words of warning to all who feel the pangs of a disease that makes life a misery and burden.

The most dangerous season of the year is now upon us; there is no necessity to enlarge upon this fact.

Its appearance alone is sufficient to commend it as against the poorer kinds, as the beautiful sparkling crystals delight the eye, and adds a savor to food not imparted by the inferior kinds.

When again, the price will be found no bar to the use of the better article. This is an important point of course—that's why we mention it: Ask for Windsor Salt, and at our counters.

It is surprising how little attention is paid by the average housekeeper to the purchase of the salt for domestic use.

The situation will be different when the merits of WINDSOR SALT become fully known. No purer salt was ever taken from a well—99 per cent. is the standard of quality, which is from 20 to 30 per cent. better than the usual grades sold.
